New York & Los Angeles David Halle,2003 **New York and Los Angeles** David Halle,2003-08-15 Capturing much of what is new and vibrant in urban studies today New York and Los Angeles should prove to be valuable reading for scholars in that field as well as in sociology political science and government **New York and Los Angeles** David Halle,Andrew A. Beveridge,2013-05-07 This interdisciplinary analysis of New York and Los Angeles the nation s two largest cities and urban regions is the first in depth study of the two cities and regions to incorporate new census data and an analysis of the impact of the ongoing financial crisis and economic recession The chapters authored by leading experts from each coast argue that old paradigms such as urban decline or resurgence are inadequate for grasping the new challenges and complexities facing these global cities *Race, Space, and Riots in Chicago, New York, and Los Angeles* Janet L. Abu-Lughod,2007-09-10 *Race Space and Riots in Chicago* New York and Los Angeles weaves together historical narratives of major riots with the changing contexts in which they have occurred to show how urban space politics and economic conditions not simply an abstract race conflict all structure the form and virulence of urban rebellions Comparing six major race riots that occurred in the three largest American metropolitan centers Abu Lughod draws upon archival research primary and secondary sources and field work to reconstruct events especially for the 1964 Harlem riot and Chicago s 1968 riots where no single study currently exists **Racial Inequality in New York City since 1965** Benjamin P. Bowser,Chelli Devadutt,2019-09-01 A comprehensive exploration of racial inequality in New York City since 1965 In the past the study of racial inequality in New York City has usually had a narrow focus examining particular social problems affecting ethnic racial groups In contrast this book provides a comprehensive overview of racial inequality in the city s economy housing and education sectors over the last half century A collection of original essays by some of New York s most well known and emerging urban experts *Racial Inequality in New York City since 1965* explores what city government has done and failed to do to address racial inequality It examines the changes in circumstances of Asian Latino West Indian and African American New Yorkers outlining how theirs have either improved or deteriorated relative to their white counterparts The contributors also analyze how practices and policies in policing public housing public health and community services have maintained racial inequality and discuss how political participation can increase social capital among city residents in order to reduce racial inequality The book concludes by offering a compendium of practical recommendations and actions that can be implemented to address racial inequality in the city This book provides a broad and up to date survey of social and demographic trends in New York City Unlike many other works it crosses policy arenas and is not shy in advocating community action J Phillip Thompson New York City Deputy Mayor for Strategic Policy Initiatives **The City at Stake** Raphael J. Sonenshein,2013-10-31 *The City at Stake* tells the dramatic story of how the nation s second largest city completed a major reform of its government in the face of a deeply threatening movement for secession by the San Fernando Valley How did Los Angeles a diverse city with an image of

unstructured politics and fragmented government find a way to unify itself around a controversial set of reforms Los Angeles government nearly collapsed in political bickering over charter reform which generated the remarkable phenomenon of two competing charter reform commissions Out of this nearly impossible tangle reformers managed to knit a new city charter that greatly expanded institutions for citizen participation and addressed long standing weaknesses in the role of the mayor The new charter pursued by a Republican mayor won its greatest support from liberal whites who had long favored reform measures Written by an urban scholar who played a key role in the charter reform process the book offers both a theoretical perspective on the process of institutional reform in an age of diversity and a firsthand inside the box look at how major reform works The new afterword by the author analyzes the 2005 election of Los Angeles s first modern Latino mayor Antonio Villaraigosa a milestone in the development of urban reform coalitions in an age of immigration and ethnic diversity

DiverCity - Global Cities as a Literary Phenomenon Melanie U. Pooch, 2016-02-15 Based on the structured analysis of selected North American novels this work examines global cities as a literary phenomenon DiverCity By analyzing Dionne Brand s Toronto What We All Long For 2005 Chang rae Lee s New York Native Speaker 1995 and Karen Tei Yamashita s Los Angeles Tropic of Orange 1997 Melanie U Pooch provides the connecting link for exploring the triad of globalization and its effects global cities as cultural nodal points and cultural diversity in a globalizing age as a literary phenomenon Thus she contributes to a global interdisciplinary and multi perspectival understanding of literature culture and society

September 12 Gregory Smithsimon, 2011 The collapse of the World Trade Center shattered windows across the street in Battery Park City throwing the neighbourhood into darkness and smothering homes in debris Residents fled In the months and years after they returned they worked to restore their community Until September 11 Battery Park City had been a secluded wealthy enclave just west of Wall Street in downtown Manhattan one with all the opulence of the surrounding corporate headquarters yet with a gated suburban feel After the towers fell it became the most visible neighbourhood in New York Suddenly everyone had an opinion about what should be rebuilt there The dramatic changes in their surroundings forced Battery Park City residents to step into the spotlight and fight to control their exclusive enclave Smithsimon s look at an elite planned community near the heart of New York City s financial district examines both the struggles and shortcomings of one of the city s wealthiest neighbourhoods In doing so September 12 discovers the vibrant exclusivity that makes Battery Park City an unmatched place to live for the few who can gain entry Focusing on both the global forces that shape local landscapes and the exclusion that segregates American urban development Smithsimon shows the tensions at work as the neighbourhood s residents mobilized to influence reconstruction plans September 12 reveals previously unseen conflicts over the redevelopment of Lower Manhattan providing a new understanding of the ongoing reciprocal relationship between social conflicts and the spaces they both inhabit and create [A Portrait of the Visual Arts](#) Kevin F.

McCarthy, Elizabeth Heneghan Ondaatje, Arthur Brooks, Andras Szanto, 2005-08-12 The third in a series that examines the

state of the arts in America this analysis shows in addition to lines around the block for special exhibits well paid superstar artists flourishing university visual arts programs and a global expansion of collectors developments in the visual arts also tell a story of rapid even seismic change systemic imbalances and dislocation *Understanding Korean Public*

Administration Kwang-Kook Park, Wonhee Lee, Seok-Hwan Lee, 2016-06-17 Although much has been written about the Korean public administration the international academic community has little knowledge about it as most of the literature has been written in Korean This book aims to provide more accessible knowledge internationally by filling that gap covering both the history and the current status of the Korean public administration This book is a collaboration of many Korean public administration scholars and would appeal to those interested in the secrets of Korea's rapid development in such a short span of time Each chapter covers historical contexts key to understanding its public administration and an important aspect as Korea is a fast changing society The book takes on a more pragmatic approach rather than to put the Korean experiences into the western theory Each chapter therefore provides an extensive discussion on the lessons learned and practical implications *Rise Of Megacities, The: Challenges, Opportunities And Unique Characteristics* Jerzy Kleer, Katarzyna Anna Nawrot, 2018-02-13

Megacities of over 10 million inhabitants are unique entities in their own right both challenging and supporting the policies governance and cohesion of states In developing and developed economies the rise of megacities can be seen to have negative and positive effects from exacerbating and deepening societal problems inherent in inequality and poverty to increasing opportunities for innovation education interconnectivity and development The Rise of Megacities takes a multidisciplinary and interdisciplinary approach to analysis of their growth It examines both the major new challenges that the expansion of megacities brings for development at large and the opportunities they might create for the public good In addition it shows how more established cities such as Tokyo New York or European examples can provide lessons for governance and development of rapidly urbanizing populations Using case studies and academic theory it takes into account both the similarities and differences of megacities and gives a comprehensive study of them This book is perfect for students and researchers of development economics urban studies international relations and the social sciences as well as those interested in how the world economy is changing through globalization **Capacious: Journal for Emerging Affect**

Cracks in the Pavement Martin

Sanchez-Jankowski, 2008-09-02 Neighborhoods have been central to American sociology since its inception yet we have understood little about how the institutions in urban communities evolve disappear or persist over time Instead as of late many scholars have treated neighborhoods as collections of individuals and families ignoring the institutional ecology Understanding the dynamic role of local institutions is critical not only to sociological scholarship but also to important public policy debates about urban poverty Mart n S nchez Jankowski offers the reader an important comprehensive look at how local institutions ranging from barbershops to street gangs to public housing both reflect and shape the culture and daily rhythms of the residents who live with them His ecological perspective offers an important missing link in debates about neighborhood effects and should be read by anyone interested in understanding urban poverty Dalton Conley author of Being Black Living in the Red Race Wealth and Social Policy in America In his famous and moving preface to Les Miserables Victor Hugo warns us that as long as there is poverty such tales will be told But stories are not often told about the resurgence of poor communities their struggles to mobilize and change their condition But this book does just that filling in the rest of the picture and not of individual Horatio Algernon but with textured and critical analysis of the barriers these communities face and the pathways they take to achieve social change Troy Duster New York University

Bringing Outsiders In Jennifer

Hochschild, John Mollenkopf, 2011-05-02 For immigrants politics can play a significant role in determining whether and how they assimilate In Bringing Outsiders In leading social scientists present individual cases and work toward a comparative synthesis of how immigrants affect and are affected by civic life on both sides of the Atlantic Just as in the United States large immigrant minority communities have been emerging across Europe While these communities usually make up less than one tenth of national populations they typically have a large presence in urban areas sometimes approaching a majority That immigrants can have an even greater political salience than their population might suggest has been demonstrated in recent years in places as diverse as Sweden and France Attending to how local and national states encourage or discourage political participation the authors assess the relative involvement of immigrants in a wide range of settings Jennifer Hochschild and John Mollenkopf provide a context for the particular cases and comparisons and draw a set of analytic and empirical conclusions regarding incorporation

Cutting Class Joe L. Kincheloe, Shirley R. Steinberg, 2007-07-12 In these

vivid thought provoking essays leading scholars draw from their own life experiences to explore the ways in which socioeconomic class has shaped their lives and educational practices Some experienced the sting of poverty as students while others tell stories of a privileged upbringing and moments of epiphany when they recognized the far reaching effects of class privilege Many in this volume tell stories of their successful and not so successful teaching experiences with students from various social classes providing valuable insights for teachers and other education professionals

Transnational Cultural

Flow from Home Pyong Gap Min, 2022-12-09 When the first wave of post 1965 Korean immigrants arrived in the New York

New Jersey area in the early 1970s they were reliant on retail and service businesses in the minority neighborhoods where they were. This caused ongoing conflicts with customers in black neighborhoods of New York City with white suppliers at Hunts Point Produce Market and with city government agencies that regulated small business activities. In addition because of the times Korean immigrants had very little contact with their homeland Korean immigrants in the area were highly segregated from both the mainstream New York society and South Korea. However after the 1990 Immigration Act Korean immigrants with professional and managerial backgrounds have found occupations in the mainstream economy. Korean community leaders also engaged in active political campaigns to get Korean candidates elected as city council members and higher levels of legislative positions in the area. The Korean community's integration into mainstream society also increasingly developed stronger transnational ties to their homeland and spurred the inclusion of everyday Korean life in the NY NJ area. Transnational Cultural Flow from Home examines New York Korean immigrants collective efforts to preserve their cultural traditions and cultural practices and their efforts to transmit and promote them to New Yorkers by focusing on the Korean cultural elements such as language foods cultural festivals and traditional and contemporary performing arts. Urban Confrontations in Literature and Social Science, 1848-2001 Edward J. Ahearn, 2016-02-11 In an innovative contribution to the challenging of disciplinary boundaries Edward J Ahearn juxtaposes works of literature with the writings of social scientists to discover how together they illuminate city life in ways that neither can accomplish separately. Ahearn's argument spans from the second half of the nineteenth century in Western Europe to the present day United States and encompasses a wide range of literary genres and sociological schools. For example Charles Baudelaire's essays on the city are viewed alongside the work of Emile Durkheim and Georg Simmel. Bertolt Brecht's *Jungle of Cities* heightens the arguments of Louis Wirth and Robert Park. Richard Wright's *Native Son* and Saul Bellow's *The Adventures of Augie March* are re-visioned in tandem with works by William Julius Wilson and others. Herman Melville's *Bartleby the Scrivener* poses a challenge to James Q Wilson's *Bureaucracy*. Toni Morrison's historical novel *Jazz* is buttressed by the career of Robert Moses and the revisionist work of historians Hilary Ballon and Kenneth T Jackson and Don DeLillo's *Cosmopolis* comes into brilliant focus in the light of arguments on world cybercities by David Harvey Saskia Sassen and Manuel Castells. Resisting the temptation to ignore contradictions for the sake of interpretation Ahearn instead offers the reader a view of the modern city as complex as his subject matter. Here the methodologies and knowledge generated by the social sciences are both complemented and subverted by the experience of city life as portrayed in literature. With its diverse narrative tactics and shifting points of view which can be as disorienting to the reader as a foreign city is to an arriving immigrant literature reinforces the importance of method and outlook in the social sciences. Ultimately Ahearn suggests neither literature nor the social sciences can capture the experience of urban misery.

Cities and Fascination Wolf-Dietrich Sahr, 2016-05-23 Bringing together leading urban

scholars this book discusses the linkages between the economic social and psychological factors of the urban environment It focuses on the growth of private urbanity that has led to a spectacularization of the city the most extreme component of attention being the fascination which is aroused by attractions and state managed events The complex characteristics of this fascination are examined under the dimensions of aesthetics emotions lived experiences and power structures and governance The interdisciplinary nature of this collection has wide international appeal and will be of interest to academics of social and cultural geography and cultural and media studies

From Enslavement to COVID-19 Joe William Trotter Jr., 2025-10-07 During the COVID 19 pandemic commentators opined that the high concentration of African Americans in dangerous and unsafe work and living environments exposed them to the virus at higher and deadlier rates than their Euro American counterparts In *From Enslavement to COVID 19* Joe William Trotter Jr delves into the historical context of this phenomenon Focusing on four historical periods enslavement emancipation the industrial era and the digital age Trotter argues that rather than being anomalous the fight for adequate health care and beneficial social service policies follows a similar trajectory as the movement of Black people from enslavement to freedom Trotter emphasizes how the labor requirements of work shaped the African American encounter with disease how white medical professionals developed stereotypes about the susceptibility of Black people to sickness and how those professionals denied essential medical care to the country's most vulnerable *From Enslavement to COVID 19* also highlights how people of African descent drew on their legacy of activism and community building to improve their physical and mental conditions by creating programs and strategies to combat inequality and discrimination in the nation's health care system

Chocolate Cities Marcus Anthony Hunter, Zandria Robinson, 2018-01-16 When you think of a map of the United States what do you see Now think of the Seattle that begot Jimi Hendrix The Dallas that shaped Erykah Badu The Holly Springs Mississippi that compelled Ida B Wells to activism against lynching The Birmingham where Martin Luther King Jr penned his most famous missive Now how do you see the United States *Chocolate Cities* offers a new cartography of the United States a Black Map that more accurately reflects the lived experiences and the future of Black life in America Drawing on cultural sources such as film music fiction and plays and on traditional resources like Census data oral histories ethnographies and health and wealth data the book offers a new perspective for analyzing mapping and understanding the ebbs and flows of the Black American experience all in the cities towns neighborhoods and communities that Black Americans have created and defended Black maps are consequentially different from our current geographical understanding of race and place in America And as the United States moves toward a majority minority society *Chocolate Cities* provides a broad and necessary assessment of how racial and ethnic minorities make and change America's social economic and political landscape
