Man of Secrets Matthew Wright, 2015-01-30 Donald McLean The hard tempered Scot whose policies shaped New Zealand's colonial age race relations and gave rise to grievances that echo into the twenty first century The government official who used his position to get land for his personal ventures and provoked war between Maori along the way The man who rumour insists used his power as our Minister of Defence to order the shooting of his own illegitimate son the right hand man of religious leader Te Kooti McLean's role as the powerhouse behind some of the most heated land controversies of settler era New Zealand is well known But the man behind those deeds has remained largely hidden *Man of Secrets* an absorbing new biography by Matthew Wright goes behind the public persona revealing the private Donald McLean A man dogged by his upbringing wrestling with his insecurities a devout and fearful

The Battlecruiser New Zealand Matthew Wright, 2022-07-08 This book tells the story of HMS New Zealand a battlecruiser paid for by the government of New Zealand at the height of its pro Imperial jingo era in 1909 when Britain's ally Japan was perceived as a threat in Australasia and the Pacific Born of the collision between New Zealand's patriotic dreams and European politics the tale of HMS New Zealand is further wrapped in the turbulent power plays at the Admiralty in the years leading up to the First World War The ship went on to have a distinguished First World War career when she was present in all three major naval battles Heligoland Dogger Bank and Jutland in the North Sea The book busts many of the myths associated with the ship and her construction including the intent of the gift New Zealand's ability to pay deployment and the story behind the piupiu skirt and tiki pendant that the crew believed bestowed special protection upon the vessel All is interwoven with the human and social context to create a biography of the ship as an expression of human endeavour in significantly more detail than any of the summaries available in prior accounts Extensively illustrated this is a book with appeal to a wide audience from naval enthusiasts and historians to the general reader with a wider interest in the story of Empire The use of archival material available only in New Zealand including the Ship's Book adds a dimension and novelty not previously included in histories of this great battlecruiser

Hidden History Jim Willis, 2020-05-01 Investigates and questions the scientific consensus on the origins of civilization Do we the human species really know who we are or where we came from or how we originated or our place in the cosmos Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to keep people in power and everyone else in line Exploring alternative theories on the establishment of society and civilization Hidden History Ancient Aliens and the Suppressed Origins of Civilization looks at a variety of dissenting suppressed and forbidden accounts of history and the origins of humanity It takes a broad and inclusive survey of historical documents

various theories and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong. The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization. It combines cutting edge science with metaphysical spiritual and even paranormal views daring to ask whether there might be a better explanation for humanity's existence and the origins of civilization than the current scientific consensus. *Hidden History* looks at the multiverse and parallel dimensions, the ancient alien theory, metaphysics and hypotheses beyond physical perception, the eleven dimensions of string theory, radio telescopes that penetrate to the event horizon of our universe, mathematical equations that take us where no one has gone before, and the world wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths. With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography provides sources for further exploration, and an extensive index adds to its usefulness. This fascinating book is a thorough investigation and examination of the mysteries surrounding early civilizations, their myths, legends, histories, monuments, and lasting legacies.

Guns and Utu Matthew Wright, 2011-08-01. So they went forth and they were given over to death by the guns. Rangipito of Ngati Rahiri. In the two decades before the Treaty of Waitangi, New Zealand was ripped asunder by island spanning waves of warfare, extreme violence, and cannibalism. Great war parties surged the length of the land to avenge historic grievances, killing and burning as they went. Whole peoples were uprooted and found new homes. Despite the name given them by history, one thing we can be certain about is that these dramatic conflicts were not simply musket wars. This was an age of courage, of heroism, of great character and of astonishing deeds. And they are not dead history. Twenty first century New Zealand has been profoundly shaped by them, not least in the location of most of the major cities. In *Guns and Utu*, historian Matthew Wright disputes the many mythologies of these wars, examining some of the whys and wherefores of this generation long culture collision. A spectacular book. Don Rood, Radio New Zealand National.

Hidden History of Salem Susanne Saville, 2010-02-12. There's more to this Massachusetts seaside town than witches, including a past rich in maritime exploits, literary endeavors, and even ghost cats. Salem, nestled along the rocky coast of Massachusetts, has long been synonymous with witches, despite efforts to emphasize other aspects of the city's rich history. In this fascinating collection of stories, author Susanne Saville sheds light on the forgotten moments of this noteworthy New England community. Discover Salem's profitable Age of Sail, the important role coffeehouses played during the American Revolution, the scandalous life of Richard Crowninshield Jr. and the unforgettable writer Nathaniel Hawthorne. These revealing stories will not leave the history of Salem in the shadows for long. Includes photos.

Blood and Dirt Jared Davidson, Picture for a minute every artwork of colonial New Zealand, you can think of. Now add a chain gang. Hard labour, men guarded by other men with guns. Men moving heavy metal. Men picking at the earth. Over and over again. This was the reality of nineteenth century New Zealand. Forced labour haunts the streets we walk today and the spaces we take for granted. The unfree work of prisoners has shaped New Zealand's urban centres and rural landscapes, and Te Moana nui a

Kiwa the Pacific in profound and unsettling ways Yet these stories are largely unknown a hidden history in plain sight Blood and Dirt explains for the first time the making of New Zealand and its Pacific empire through the prism of prison labour Jared Davidson asks us to look beyond the walls of our nineteenth and early twentieth century prisons to see penal practice as playing an active central role in the creation of modern New Zealand Journeying from the Hohi mission station in the Bay of Islands through to Milford Sound vast forest plantations and on to Parliament itself this vivid and engaging book will change the way you view New Zealand

Hidden History Gerry Docherty,James MacGregor,2013-07-04 Think you know about British history and the causes of the First World War Think again This fascinating and gripping study of events at the turn of the Twentieth Century is a remarkable insight into how political and social factors that we widely accept to be the causes of The Great War were really just a construct put together by a very small but powerful political elite Thought provoking Docherty and Macgregor do not mince their words their arguments are powerful Britain at War Simply astonishing Reader review Very illuminating Reader review You simply MUST read this book Reader review This is a page turner Reader review Hidden History uniquely exposes those responsible for the First World War It reveals how accounts of the war s origins have been deliberately falsified to conceal the guilt of the secret cabal of very rich and powerful men in London responsible for the most heinous crime perpetrated on humanity For ten years they plotted the destruction of Germany as the first stage of their plan to take control of the world The assassination of Archduke Franz Ferdinand was no chance happening It lit a fuse that had been carefully set through a chain of command stretching from Sarajevo through Belgrade and St Petersburg to that cabal in London Our understanding of these events has been firmly trapped in a web of falsehood and duplicity carefully constructed by the victors at Versailles in 1919 and maintained by compliant historians ever since The official version is fatally flawed warped by the volume of evidence they destroyed or concealed from public view Hidden History poses a tantalising challenge The authors ask only that you examine the evidence they lay before you
