Martin,David A. Copeland,2003-06-30 The demise of the newspaper has long been predicted Yet newspapers continue to survive globally despite competition from radio television and now the Internet because they serve core social functions in successful cultures Initial chapters of this book provide an overview of the development of modern newspapers Subsequent chapters examine particular societies and geographic regions to see what common traits exist among the uses and forms of newspapers and those artifacts that carry the name newspaper but do not meet the commonly accepted definition The conclusion suggests that newspapers are of such core value to a successful society that a timely and easily accessible news product will succeed despite or perhaps because of changes in reading habits and technology **Ancient History: Key Themes and Approaches** Neville Morley,2002-09-09 Ancient History Key Themes and Approaches is a sourcebook of writings on ancient history It presents over 500 of the most important stimulating and provocative arguments by modern writers on the subject and as such constitutes an invaluable reference resource The first section deals with different aspects of life in the ancient world such as democracy imperialism slavery and sexuality while the second section covers the ideas of key ancient historians and other writers on classical antiquity Overall this book offers an invaluable introduction to the most important ideas theories and controversies in ancient history and a thought provoking survey of the range of views and approaches to the subject **Espionage in the Ancient World** R.M. Sheldon,2015-09-03 Intelligence activities have always been an integral part of statecraft Ancient governments like modern ones realized that to keep their borders safe control their populations and keep abreast of political developments abroad they needed a means to collect the intelligence which enabled them to make informed decisions Today we are well aware of the damage spies can do Here for the first time is a comprehensive guide to the literature of ancient intelligence The entries present books and periodical articles in English French German Italian Spanish Polish and Dutch with annotations in English These works address such subjects as intelligence collection and analysis political and military counterintelligence espionage cryptology Greek and Latin tradecraft covert action and similar topics it does not include general battle studies and general discussions of foreign policy Sections are devoted to general espionage intelligence related to road building communication

From Pigeons to News Portals David D. Perlmutter,John Maxwell Hamilton,2007-11-01 Ever since the invention of the telegraph journalists have sought to remove the barriers of time and space Today we readily accept that reporters can jet quickly to a distant location and broadcast instantly from a satellite connected video enabled cell phone hanging from their belts But now that live news coverage is possible from virtually anywhere is foreign correspondence better And what are the implications of recent changes in journalistic technology for policy makers and their constituents In *From Pigeons to News Portals* edited by David D Perlmutter and John Maxwell Hamilton scholars and journalists survey probe and demystify the new foreign correspondence that has emerged from rapidly changing media technology These distinguished authors challenge long held beliefs about foreign news coverage not the least of which is whether in our interconnected world such a thing as foreign news even exists anymore Essays explore the ways people have used new media technology from satellites and cell phones to the Internet to affect content delivery modes and amount and style of coverage They examine the ways in which speedy reporting conflicts with in depth reporting the pros and cons of parachute journalism the declining dominance of mainstream media as a source of foreign news and the implications of this new foreign correspondence for foreign policy

Entertainment media such as film television and video gaming form worldwide opinions about America often in negative ways Meanwhile live reporting abroad is both a blessing and curse for foreign policy makers Because foreign news is so vital to effective policy making and citizenship we imperil our future by failing to understand the changes technology brings and how we can wrest the best practice out of those changes This provocative volume offers valuable insights and analyses to help us better understand the evolving state of foreign news News and Frontier Consciousness in the Late Roman Empire Mark

W. Graham,2006 A novel interpretation of Roman frontier policy **Invention of Journalism Ethics** Stephen J.A.

Ward,2005-02-08 Does objectivity in the news media exist In **The Invention of Journalism Ethics** Stephen Ward argues that given the current emphasis on interpretation analysis and perspective journalists and the public need a new theory of objectivity He explores the varied ethical assertions of journalists over the past few centuries focusing on the changing relationship between journalist and audience This historical analysis leads to an innovative theory of pragmatic objectivity that enables journalists and the public to recognize and avoid biased and unbalanced reporting Ward convincingly demonstrates that journalistic objectivity is not a set of absolute standards but the same fallible but reasonable objectivity used for making decisions in other professions and public institutions **The Oxford Handbook of Hellenic Studies**

George Boys-Stones,Barbara Graziosi,Phiroze Vasunia,2009-08-20 **The Oxford Handbook of Hellenic Studies** is a unique collection of some seventy articles which together explore the ways in which ancient Greece has been is and might be studied It is intended to inform its readers but also importantly to inspire them and to enable them to pursue their own research by introducing the primary resources and exploring the latest agenda for their study The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena and also upon its relevance to the way we think about ourselves today **The Cambridge Companion to the Age of Pericles** Loren J. Samons II,2007-01-15 Mid fifth

century Athens saw the development of the Athenian empire the radicalization of Athenian democracy through the empowerment of poorer citizens the adornment of the city through a massive and expensive building program the classical age of Athenian tragedy the assembly of intellectuals offering novel approaches to philosophical and scientific issues and the end of the Spartan Athenian alliance against Persia and the beginning of open hostilities between the two greatest powers of ancient Greece The Athenian statesman Pericles both fostered and supported many of these developments Although it is no longer fashionable to view Periclean Athens as a social or cultural paradigm study of the history society art and literature of mid fifth century Athens remains central to any understanding of Greek history This collection of essays reveal the political religious economic social artistic literary intellectual and military infrastructure that made the Age of Pericles possible

Organised Crime in Antiquity Keith Hopwood,2009-12-31 What are states but large bandit bands and what are bandit bands but small states So asked St Augustine reflecting on the late Roman world Here nine original studies by established historians of Greece Rome and other ancient civilisations explore the activities and the images of ancient criminal groups

comparing them closely and provocatively with the Greek and Roman government which the criminals challenged **The Economics of Friendship** Tazuko van Berkel,2019-12-09 In *The Economics of Friendship* Tazuko Angela van Berkel offers an account of the notion of reciprocity in 5th and 4th century Greek inception social theory The preoccupation with the norms of *philia* and *charis* conspicuous in sources from the Classical Period is a symptom of changes in the shape of ancient economic activities the ubiquitous norm that one should reciprocate benefit with benefit becomes a source of conceptual confusion in the Classical Period where other forms of exchange become conceptually available This confusion and tension between different models of mutuality is productive it is the impetus for folk theory in comedy tragedy and oratory as well as philosophical reflection Xenophon Plato Aristotle on what it is that binds people together *The Invention of Journalism Ethics, Second Edition* Stephen J.A. Ward,2015-09-01 Does objectivity exist in the news media In *The Invention of Journalism Ethics* Stephen Ward argues that given the current emphasis on interpretation analysis and perspective journalists and the public need a new theory of objectivity He explores the varied ethical assertions of journalists over the past few centuries focusing on the changing relationship between journalist and audience This historical analysis leads to an innovative theory of pragmatic objectivity that enables journalists and the public to recognize and avoid biased and unbalanced reporting Ward convincingly demonstrates that journalistic objectivity is not a set of absolute standards but the same fallible but reasonable objectivity used for making decisions in other professions and public institutions Considered a classic in the field since its first publication in 2004 this second edition includes new chapters that bring the book up to speed with journalism ethics in the twenty first century by focusing on the growing dominance of online journalism and calling for a radical approach to journalism ethics reform Ward also addresses important developments that have occurred in the last decade including the emergence of digital journalism ethics and global journalism ethics Civic Obligation and Individual Liberty in Ancient Athens Peter Liddel,2007-10-11 A fresh approach to the old problem of the nature of individual liberty in ancient Athens Using modern political theory as a springboard Peter Liddel argues that the ancient Athenians held liberty to consist of the substantial obligations political financial and military of citizenship Historical Dictionary of Journalism Ross Eaman,2021-04-15 This book covers the history of journalism as an institutionalized form of discourse from the *acta diurna* in ancient Rome to the news aggregators of the 21st century It traces how journalism gradually distinguished itself from chronicles history and the novel in conjunction with the evolution of news media from news pamphlets newsletters and newspapers through radio film and television to multimedia digital news platforms like Google News *Historical Dictionary of Journalism Second Edition* covers 46 countries it contains a chronology an introduction an extensive bibliography the dictionary section has more than 300 cross referenced entries on a wide array of topics such as African American journalism the historiography of the field the New Journalism and women in journalism This book is an excellent resource for students researchers and anyone wanting to know more about journalism *Mercury's Wings* Richard J. A. Talbert,Fred S.

Naiden, 2017-04-27 *Mercury's Wings* marks a milestone as the first ever volume devoted to ancient communications. Its eighteen wide-ranging essays by art historians, Assyriologists, Classicists, and Egyptologists explore communications as a powerful vehicle not just for the transmission of information but also for the conduct of religion, commerce, diplomacy, culture, and more.

Letters and Communities Paola Ceccarelli, Lutz Doering, Thorsten Fögen, Ingo Gildenhard, 2018-08-16 The writing of letters often evokes associations of a single author and a single addressee who share in the exchange of intimate thoughts across distances of space and time. This model underwrites such iconic notions as the letter representing an image of the soul of the author or constituting one half of a dialogue. However, justified this conception of letter writing may be in particular instances, it tends to marginalize a range of issues that were central to epistolary communication in the ancient world and have yet to receive sustained and systematic investigation. In particular, it overlooks the fact that letters frequently presuppose and were designed to reinforce communities or indeed to constitute them in the first place. This volume explores the interrelation of letters and communities in the ancient world, examining how epistolary communication aided in the construction and cultivation of group identities and communities, whether social, political, religious, ethnic, or philosophical. A theoretically informed Introduction establishes the interface of epistolary discourse and group formation as a vital but hitherto neglected area of research and is followed by thirteen case studies offering multi-disciplinary perspectives from four key cultural configurations: Greece, Rome, Judaism, and Christianity. The first part opens the volume with two chapters on the theory and practice of epistolary communication that focus on ancient epistolary theory and the unavoidable presence of a letter carrier who introduces a communal aspect into any correspondence, while the second comprises five chapters that explore configurations of power and epistolary communication in the Greek and Roman worlds from the archaic period to the end of the Hellenistic age. Five chapters on letters and communities in Ancient Judaism and Early Christianity follow in the third part, before the volume concludes with an envoi examining the trans-historical or indeed timeless philosophical community Seneca the Younger construes in his *Letters to Lucilius*.

Networked Media, Networked Rhetorics Damien Smith Pfister, 2014-11-04 In *Networked Media, Networked Rhetorics*, Damien Pfister explores communicative practices in networked media environments, analyzing in particular how the blogosphere has changed the conduct and coverage of public debate. Pfister shows how the late modern imaginary was susceptible to deliberation traps related to invention, emotion, and expertise, and how bloggers have played a role in helping contemporary public deliberation evade these traps. Three case studies at the heart of *Networked Media, Networked Rhetorics* show how new intermediaries, including bloggers, generate publicity, solidarity, and translation in the networked public sphere. Bloggers flooding the zone in the wake of Trent Lott's controversial toast to Strom Thurmond in 2002 demonstrated their ability to invent and circulate novel arguments; the pre-2003 invasion reports from the Baghdad blogger illustrated how solidarity is built through affective connections; and the science blog RealClimate continues to serve as a rapid response site for the translation of expert claims for public audiences.

Networked Media Networked Rhetorics concludes with a bold outline for rhetorical studies after the internet
