**Nicaragua, Revolution Under Siege** Mike Gonzalez, 1985      *Nicaragua* Richard L. Harris, 1986      The Undermining of the Sandinista Revolution Gary Prevost, Harry E. Vanden, 2016-04-30 The Sandinista revolution brought dramatic social economic and political changes to Nicaragua in the 1980s but in the wake of the electoral defeat of the FSLN in 1990 the revolution has struggled to survive in the face of challenges from the Chamorro administration the US government and the International Monetary Fund Gains of the revolution in health care education Atlantic Coast autonomy agrarian reform and other areas have been systematically eroded However significant efforts have also been mounted especially in grass roots organizing and by women s organizations to protect the revolution s achievements Through a series of articles based on current research seven experts on contemporary Nicaragua draw a balance sheet on the gains of Sandinista revolution achieved by 1990 and assess the current status of the revolutionary project      *What Went Wrong? The Nicaraguan Revolution* Dan La Botz, 2016-09-07 This volume is a valuable re assessment of the Nicaraguan Revolution by a Marxist historian of Latin American political history It shows that the FSLN the Sandinistas with politics principally shaped by Soviet and Cuban Communism never had a commitment to genuine democracy either within the revolutionary movement or within society at large that the FSLN s lack of commitment to democracy was a key factor in the way that revolution was betrayed from the 1970s to the 1990s and that the FSLN s lack of rank and file democracy left all decision making to the National Directorate and ultimately placed that power in the hands of Daniel Ortega Pursuing his narrative into the present La Botz shows that once their would be bureaucratic ruling class project was defeated Ortega and the FSLN leadership turned to an alliance with the capitalist class      **A Hispanic Heritage, Series III** Isabel Schon, 1988 The books listed are intended to provide students in kindergarten through high school with an understanding and appreciation of the people history and art and political social and economic problems of Argentina Bolivia Chile Colombia Costa Rica Cuba Ecuador El Salvador Guatemala Honduras Mexico Nicaragua Panama Peru Puerto Rico Spain Venezuela and the Hispanic heritage people of the US Annotation copyrighted by Book News Inc Portland OR      Liberators, Patriots and Leaders of Latin America Jerome R. Sandinistas and the subsequent U S supported contra war He chronicles the politically vindictive destruction of many of the best murals and the rise and fall of Managua s Mural School a unique institution in the world Kunzle also refers to other Nicaraguan public media such as billboards and graffiti the great mural precedent in Mexico and the attempts at socialist art in revolutionary Cuba and Chile

*The Foreign and Domestic Dimensions of Modern Warfare* Howard Mumford Jones,2018-12-11 An exploration of the nuclear arms race and the dangers arising with the advent of limited warfare After the development of the atomic bomb in 1945 Americans became engaged in a

new kind of war against totalitarianism Enemies and objectives slipped out of focus causing political and military aims to mesh as a struggle to contain communism both at home and abroad encompassed civilians as well as soldiers In matters relating to Vietnam Central America and the nuclear arms race the domestic and foreign dimensions of each issue became inseparable Policymakers in Washington had to formulate strategies dictated by limited war in their search for peace Contributors to this volume demonstrate the multifaceted nature of modern warfare Robert H Ferrell establishes the importance of studying military history in understanding the post World War II era On Vietnam Colonel Harry G Summers Jr gives an intriguing argument regarding the U S Army George C Herring examines how America s decisions in 1954 assured deepened involvement and Captain Mark Clodfelter uncovers new evidence concerning Linebacker I On the home front Robert F Burk analyzes the impact of the Cold War on the battle for racial justice Charles DeBenedetti puts forth a challenging interpretation of the antiwar movement and James C Schneider provides perspective on the relationship between the Vietnam War and the Great Society On Central America two writers downplay communism in explaining the region s troubles Ralph Lee Woodward Jr fits the Nicaraguan revolution in the long span of history and Thomas M Leonard shows how the Reagan administration forced Costa Rica to side with the United States s anti Sandinista policy Finally on nuclear strategy Donald M Snow offers a thought provoking assessment of the star wars program and Daniel S Papp recommends measures to promote understanding among the superpowers These essays demonstrate that the making of foreign policy is immensely complicated not subject to easy solution or to simple explanation Despite these complexities the central objective of policymakers remained clear to safeguard what was perceived as the national interest

**Transforming Rural Water Governance** Sarah T Romano, 2019-11-05 The most acute water crises occur in everyday contexts in impoverished rural and urban areas across the Global South While they rarely make headlines these crises characterized by inequitable access to sufficient and clean water affect over one billion people globally What is less known though is that millions of these same global citizens are at the forefront of responding to the challenges of water privatization climate change deforestation mega hydraulic projects and other threats to accessing water as a critical resource In Transforming Rural Water Governance Sarah T Romano explains the bottom up development and political impact of community based water and sanitation committees CAPS in Nicaragua Romano traces the evolution of CAPS from rural resource management associations into a national political force through grassroots organizing and strategic alliances Resource management and service provision is inherently political charging residents fees for service determining rules for household water shutoffs and reconnections and negotiating access to water sources with local property owners constitute just a few of the highly political endeavors resource management associations like CAPS undertake as part of their day to day work in their communities Yet for decades in Nicaragua this local work did not reflect political activism In the mid 2000s CAPS collective push for social change propelled them onto a national stage and into new roles as they demanded recognition from the government Romano argues

that the transformation of Nicaragua's CAPS into political actors is a promising example of the pursuit of sustainable and equitable water governance particularly in Latin America Transforming Rural Water Governance demonstrates that when activism informs public policy processes the outcome is more inclusive governance and the potential for greater social and environmental justice
