Air Defense Artillery ,1992 I Served by Don C. Hall and Annette R. Hall,2001-01-31 I SERVED was written differently from most other Vietnam memoirs Instead of being a chronological recitation of my experiences growing up in the orphanage and then going to Vietnam and serving with Co F 51st Long Range Patrol Airborne Infantry I made its focus be the characters in the story That is its greatest strength and what makes it such a good read Because I focused so closely on character you really get to care about the person Don Hall because you know what makes him tick what is important to him and what drives him You are also engaged by the other people you meet in the story because they are so clearly drawn You don t have to be a military buff to enjoy the book I SERVED is a factual story backed up by official U S Army records Col William C Maus the man who formed F 51st LRP told me where to find that documentation I also have copies of handouts we received when we went to Recondo School Before he died he told me how much he enjoyed reading the book He praised me for having written such a great story about a unit he was proud to have commanded He was a visionary who knew our unit was the vanguard for future U S Army military strategy and tactics I remember his telling me at the time that F 51st LRP was making history Being just a na ve 19 year old staff sergeant I didn t understand the significance of that statement I do now The current print and ebook versions of I SERVED are a second edition to the original 1994 hardbound edition with a revised preface and afterword a new War Stories section with stories from other men with whom I served and new photographs

The Encyclopedia of the Vietnam War Bloomsbury Publishing,2011-05-20 Now in its second edition this comprehensive study of the Vietnam War sheds more light on the longest and one of the most controversial conflicts in U S history The Vietnam War lasted more than a decade was the longest war in U S history and cost the lives of nearly 60 000 American soldiers as well as millions of Vietnamese many of whom were uninvolved civilians The lessons learned from this tragic conflict continue to have great relevance in today s

world Now in its second edition *The Encyclopedia of the Vietnam War: A Political, Social, and Military History* adds an entire additional volume of entries to the already exhaustive first edition making it the most comprehensive reference available about one of the most controversial events in U.S. history. Written to provide multidimensional perspectives into the conflict, it covers not only the American experience in Vietnam but also the entire scope of Vietnamese history, including the French experience and the Indochina War, as well as the origins of the conflict, how the United States became involved, and the extensive aftermath of this prolonged war. It also provides the most complete and accurate order of battle ever published, based upon data compiled from Vietnamese sources. This latest release delivers even more of what readers have come to expect from the editorship of Spencer C. Tucker and the military history experts at ABC-CLIO.

Time in the Barrel James P. Coan, 2018-11-13 A Marine's highly personal memoir reliving the hellish days of a pivotal conflict of the Vietnam War. Con Thien, located only two miles from the demilitarized zone dividing North and South Vietnam, was a United States Marine Corps firebase that was the scene of fierce combat for months on end during 1967. Staving off attacks and ambushes while suffering from ineffectual leadership from Washington, as well as media onslaughts, courageous American Marines protected this crucial piece of land at all costs. They would hold Con Thien, but many paid the ultimate price. By the end of the war, more than 1,400 Marines had died, and more than 9,000 sustained injuries defending the Hill of Angels. For eight months, James P. Coan's five-tank platoon was assigned to Con Thien while attached to various Marine infantry battalions. A novice second lieutenant at the time, the author kept a diary recording the thoughts, fears, and frustrations that accompanied his life on The Hill. *Time in the Barrel: A Marine's Account of the Battle for Con Thien* offers an authentic firsthand account of the daily nightmare that was Con Thien. An enticing and fascinating read featuring authentic depictions of combat, it allows readers to fully grasp the enormity of the fierce struggle for Con Thien. The defenders of Con Thien were bombarded with hundreds of rounds of incoming rockets, mortars, and artillery that pounded the beleaguered outpost daily. Monsoon downpours turned the red laterite clay soil into a morass of oozing mud, flooded bunkers and trenches, and made Con Thien a living hell. Being at Con Thien came to be ruefully referred to by the Marines stationed there as *time in the barrel* because they were targets as easy as fish in a barrel. More than a retelling of military movements, Coan's engrossing narratives focus on the sheer sacrifice and misery of one Marine's experience in Vietnam. Through his eyes, we experience the abysmal conditions the Marines endured, from monsoon rainstorms to the constant threat of impending attack. Climatic moments in history are captured through the rare personal perspective of one particularly astute and observant participant.

Increasing Small Arms Lethality in Afghanistan: Taking Back The Infantry Half-Kilometer Major Thomas P. Ehrhart, 2015-11-06 Operations in Afghanistan frequently require United States ground forces to engage and destroy the enemy at ranges beyond 300 meters. These operations occur in rugged terrain and in situations where traditional supporting fires are limited due to range or risk of collateral damage. With these limitations, the infantry in Afghanistan requires a precise lethal fire capability that exists only

in a properly trained and equipped infantryman While the infantryman is ideally suited for combat in Afghanistan his current weapons doctrine and marksmanship training do not provide a precise lethal fire capability to 500 meters and are therefore inappropriate Comments from returning non commissioned officers and officers reveal that about fifty percent of engagements occur past 300 meters The enemy tactics are to engage United States forces from high ground with medium and heavy weapons often including mortars knowing that we are restricted by our equipment limitations and the inability of our overburdened soldiers to maneuver at elevations exceeding 6000 feet Current equipment training and doctrine are optimized for engagements under 300 meters and on level terrain There are several ways to extend the lethality of the infantry A more effective 5.56 mm bullet can be designed which provides enhanced terminal performance out to 500 meters A better option to increase incapacitation is to adopt a larger caliber cartridge which will function using components of the M16 M4 The 2006 study by the Joint Service Wound Ballistics Integrated Product Team discovered that the ideal caliber seems to be between 6.5 and 7 mm This was also the general conclusion of all military ballistics studies since the end of World War I

Military Review, 1993

Con Thien James P. Coan, 2004-08-10 *Con Thien* is a memoir history of a much beleaguered Marine outpost of the DMZ Throughout much of 1967 a remote United States Marine firebase only two miles from the demilitarized zone DMZ captured the attention of the world's media That artillery scarred outpost was the linchpin of the so called McNamara Line intended to deter incursions into South Vietnam by the North Vietnamese Army As such the fighting along this territory was particularly intense and bloody and the body count rose daily *Con Thien* combines James P. Coan's personal experiences with information taken from archives interviews with battle participants and official documents to construct a powerful story of the daily life and combat on the red clay bulls eye known

as The Hill of Angels As a tank platoon leader in Alpha Company 3d Tank Battalion 3d Marine Division Coan was stationed at Con Thien for eight months during his 1967-68 service in Vietnam and witnessed much of the carnage Con Thien was heavily bombarded by enemy artillery with impunity because it was located in politically sensitive territory and the U S government would not permit direct armed response from Marine tanks Coan like many other soldiers began to feel as though the government was as much the enemy as the NVA yet he continued to fight for his country with all that he had In his riveting memoir Coan depicts the hardships of life in the DMZ and the ineffectiveness of much of the U S military effort in Vietnam
