Accountability Of Peace Support Operations M. C. Zwanenburg, 2005-01-01 Quis custodiet ipsos custodies In other words who guards the guardians At a time when the mandate of many peace support operations includes halting violations of international humanitarian law by third parties there is still a lack of clarity concerning accountability of peace support operations themselves This book addresses that accountability focusing on peace support operations under the command and control of the United Nations and the North Atlantic Treaty Organization It is concerned with the accountability of international organizations as well as troops contributing and member states but not of individuals Drawing on existing and emerging doctrines of international law including the law of state responsibility the law of responsibility of international organizations international institutional law and international humanitarian law and on the basis of state practice this book makes a strong plea for improving mechanisms to implement the accountability of peace support operations under international humanitarian law The Paul Reuter Prize 2006 was awarded to Marten Zwanenburg for this book

Documents on the Law of UN Peace Operations Bruce Oswald, Helen Durham, Adrian Bates, 2019 Providing students and those working in the field with a comprehensive overview of the law regulating peace operations this volume sets out the different legal instruments and sources that govern the planning management and conduct of these missions

Convention on the Privileges and Immunities of the Specialized Agencies entered into force more than 60 years ago This Commentary offers for the first time a comprehensive discussion covering both Conventions in their entirety providing an overview of academic writings and jurisprudence for a legal field of particular practical relevance and gives both the academic researcher as well as the practitioner a unique source to understand the complexity of legal issues that the UN its Specialized Agencies their officials Member States representatives and experts face in today s world **Fathom** ,1988

The Third-Party Liability of International Organisations Thomas S.M. Henquet,2023-07-10 In the broader context of the accountability of international organisations this book focuses on the obligation of the United Nations like many other organisations to make provisions for appropriate modes of settlement of disputes of a private law character to which it is a party The book advocates a systematic approach in conformity with the rule of law in discharging that obligation That is needed to increase the legitimacy of international organisations while bolstering their jurisdictional immunity The work also develops the basic features of a comprehensive dispute settlement mechanism complemented by a new United Nations convention *Why Paramilitary Operations Fail* Armin Krishnan,2018-04-25 This book analyzes U S pro insurgency

paramilitary operations PMOs or U S proxy warfare from the beginning of the Cold War to the present and explains why many of these operations either failed entirely to achieve their objective or why they produced negative consequences that greatly diminished their benefits The chapters cover important aspects of what PMOs are the history of U S PMOs how they function the dilemmas of secrecy and accountability the issues of control criminal conduct and disposal of proxies as well as newer developments that may change PMOs in the future The author argues that the general approach of conducting PMOs as covert operations is inherently flawed since it tends to undermine many possibilities for control over proxies in a situation where the interests of sponsors and proxies necessarily diverge on key issues **Authorizations** United States.
