Print Manuscript And Performance The Changing Relations Of Media In Early Modern England:

Print, Manuscript & Performance Arthur F. Marotti, Michael D. Bristol, 2000 The eleven essays in this volume explore the complex interactions in early modern England between a technologically advanced culture of the printed book and a still powerful traditional culture of the spoken word spectacle and manuscript Scholars who work on manuscript culture the history of printing cultural history historical bibliography and the institutions of early modern drama and theater have been brought together to address such topics as the social character of texts historical changes in notions of literary authority and intellectual property the mutual influence and tensions between the different forms of publication and the epistemological and social implications of various communications technologies Although canonical literary writers such as Shakespeare Jonson and Rochester are discussed the field of writing examined is a broad one embracing political speeches coterie manuscript poetry popular pamphlets parochially targeted martyrdom accounts and news reports Setting writers audiences and texts in their specific historical context the contributors focus on a period in early modern England from the late sixteenth through the late seventeenth century when the shift from orality and manuscript communication to print was part of large scale cultural change Arthur F. Marotti's and Michael D. Bristol's introduction analyzes some of the sociocultural issues implicit in the collection and relates the essays to contemporary work in textual studies bibliography and publication history

Printing and Parenting in Early Modern England Douglas A. Brooks, 2017-05-15 The relation between procreation and authorship between reproduction and publication has a long history indeed that relationship may well be the very foundation of history itself The essays in this volume bring into focus a remarkably important and complex phase of this long history In this volume some of the most renowned scholars in the field persuasively demonstrate that during the early modern period the awkward incomplete transition from manuscript to print brought on by the invention of the printing press temporarily exposed and disturbed the epistemic foundations of English culture As a result of this cultural upheaval the discursive field of parenting was profoundly transformed Through an examination of the literature of the period this volume illuminates how many important conceptual systems related to gender sexuality human reproduction legitimacy maternity kinship paternity dynasty inheritance and patriarchal authority came to be grounded in a range of anxieties and concerns directly linked to an emergent publishing industry and book trade In exploring a wide spectrum of historical and cultural artifacts produced during the convergence of human and mechanical reproduction of parenting and printing these essays necessarily bring together two of the most vital critical paradigms available to scholars today gender studies and the history of the book Not only does this rare interdisciplinary coupling generate fresh and exciting insights into the literary and cultural production of the early modern period but it also greatly enriches the two critical paradigms themselves

Reading Material in Early Modern England Heidi Brayman Hackel, 2005-02-17 Reading Material in Early Modern England rediscovers the practices and representations of sixteenth and seventeenth century English readers By telling their stories and insisting

upon their variety Brayman Hackel displaces both the singular ideal reader of literacy theory and the elite male reader of literacy history

Literary Sociability in Early Modern England Paul Trolander, 2014-05-29 This study represents a significant reinterpretation of literary networks during what is often called the transition from manuscript to print during the early modern period It is based on a survey of 28 000 letters and over 850 mainly English correspondents ranging from consumers to authors significant patrons to state regulators printers to publishers from 1615 to 1725 Correspondents include a significant sampling from among antiquarians natural scientists poets and dramatists philosophers and mathematicians political and religious controversialists The author addresses how early modern letter writing practices sometimes known as letteracy and theories of friendship were important underpinnings of the actions and the roles that seventeenth and early eighteenth century authors and readers used to communicate their needs and views to their social networks These early modern social conditions combined with an emerging view of the manuscript as a seedbed of knowledge production and humanistic creation that had significant financial and cultural value in England s mercantilist economy Because literary networks bartered such gains in cultural capital for state patronage as well as for social and financial gains this placed a burden on an author s associates to aid him or her in seeing that work into print a circumstance that reinforced the collaborative formulae outlined in letter writing handbooks and friendship discourse Thus the author s network was more and more viewed as a tightly knit group of near equals that worked collaboratively to grow social and symbolic capital for its associates including other authors readers patrons and regulators Such internal methods for bartering social and cultural capital within literary networks gave networked authors a strong hand in the emerging market economy for printed works as major publishers such as Bernard Lintott and Jacob Tonson relied on well connected authors to find new writers as well as to aid them in seeing such major projects as Pope s *The Iliad* into print

Making Publics in Early Modern Europe Bronwen Wilson, Paul Yachnin, 2011-07-21 The book looks at how people things and new forms of knowledge created publics in early modern Europe and how publics changed the shape of early modern society The focus is on what the authors call making publics the active creation of new forms of association that allowed people to connect with others in ways not rooted in family rank or vocation but rather founded in voluntary groupings built on the shared interests tastes commitments and desires of individuals By creating new forms of association cultural producers and consumers challenged dominant ideas about just who could be a public person greatly expanded the resources of public life for ordinary people in their own time and developed ideas and practices that have helped create the political culture of modernity Coming from a number of disciplines including literary and cultural studies art history history of religion history of science and musicology the contributors develop analyses of a range of cases of early modern public making that together demonstrate the rich inventiveness and formative social power of artistic and intellectual publication in this period

Reading Shakespeare's Poems in Early Modern England S. Roberts, 2002-11-19 This is the first comprehensive study of early modern texts readings and readers of Shakespeare s

poems in print and manuscript Reading Shakespeare's Poems in Early Modern England makes a compelling contribution both to Shakespeare studies and the history of the book Examining gendered readerships and the use of erotic works reading practises and manuscript culture textual forms and transmission literary taste and the canonisation of Shakespeare this book argues that historicist criticism can no longer ignore histories of reading *St Paul's Cathedral Precinct in Early Modern Literature and Culture* Roze Hentschell, 2020-06-16 Prior to the 1666 fire of London St Paul's Cathedral was an important central site for religious commercial and social life in London The literature of the period both fictional and historical reveals a great interest in the space and show it to be complex and contested with multiple functions and uses beyond its status as a church St Paul's Cathedral Precinct in Early Modern Literature and Culture Spatial Practices animates the cathedral space by focusing on the every day functions of the building deepening and sometimes complicating previous works on St Paul's Cathedral Precinct in Early Modern Literature and Culture is a study of London's cathedral its immediate surroundings and its everyday users in early modern literary and historical documents and images with special emphasis on the late sixteenth and early seventeenth centuries It discusses representations of several of the seemingly discrete spaces of the precinct to reveal how these spaces overlap with and inform one another spatially and argues that specific locations should be seen as mutually constitutive and in a dynamic and ever evolving state The varied uses of the precinct including the embodied spatial practices of early modern Londoners and visitors are examined including the walkers in the nave sermon goers those who shopped for books the residents of the precinct the choristers and those who were devoted to church repairs and renovations **Pocket Maps and Public Poetry in the English Renaissance** Katarzyna Lecky, 2019-04-17 Katarzyna Lecky explores how early modern British poets paid by the state adapted inclusive modes of nationhood charted by inexpensive small format maps She explores chapbooks cheapbooks by Edmund Spenser Samuel Daniel Ben Jonson William Davenant and John Milton alongside the portable cartography circulating in the same retail print industry Domestic pocket maps were designed for heavy use by a broad readership that included those on the fringes of literacy The era's de facto laureates all banked their success as writers appealing to this burgeoning market share by drawing the nation as the property of the commonwealth rather than the Crown This book investigates the accessible world of small format cartography as it emerges in the texts of the poets raised in the expansive public sphere in which pocket maps flourished It works at the intersections of space place and national identity to reveal the geographical imaginary shaping the flourishing business of cheap print Its placement of poetic economies within mainstream systems of trade also demonstrates how cartography and poetry worked together to mobilize average consumers as political agents This everyday form of geographic poesis was also a strong platform for poets writing for monarchs and magistrates when their visions of the nation ran counter to the interests of the government **English Literature in Context** Paul Poplawski, 2017-05-18 From Anglo Saxon runes to postcolonial rap this undergraduate textbook covers the social and historical contexts of the

whole of the English literature *Shakespeare in the Marketplace of Words* Jonathan P. Lamb, 2017-07-06 This book explores the words forms and styles Shakespeare used to interact with the verbal marketplace of early modern England

Invisible Agents Nadine Akkerman, 2018-06-10 It would be easy for the modern reader to conclude that women had no place in the world of early modern espionage with a few seventeenth century women spies identified and then relegated to the footnotes of history If even the espionage carried out by Susan Hyde sister of Edward Hyde Earl of Clarendon during the turbulent decades of civil strife in Britain can escape the historiographer s gaze then how many more like her lurk in the archives Nadine Akkerman s search for an answer to this question has led to the writing of *Invisible Agents* the very first study to analyse the role of early modern women spies demonstrating that the allegedly male world of the spy was more than merely infiltrated by women This compelling and ground breaking contribution to the history of espionage details a series of case studies in which women from playwright to postmistress from lady in waiting to laundry woman acted as spies sourcing and passing on confidential information on account of political and religious convictions or to obtain money or power The struggle of the She Intelligencers to construct credibility in their own time is mirrored in their invisibility in modern historiography Akkerman has immersed herself in archives libraries and private collections transcribing hundreds of letters breaking cipher codes and their keys studying invisible inks and interpreting riddles acting as a modern day Spymistress to unearth plots and conspiracies that have long remained hidden by history **Shakespeare, Dissent and the Cold War**

Alfred Thomas, 2014-07-22 *Shakespeare Dissent and the Cold War* is the first book to read Shakespeare s drama through the lens of Cold War politics The book uses the Cold War experience of dissenting artists in theatre and film to highlight the coded religio political subtexts in *Hamlet* *King Lear* *Macbeth* and *The Winter s Tale* **Our Scene is London** James D.

Mardock, 2007-12-12 In this thought provoking study Mardock looks at Ben Jonson s epigrams prose and verse satire in order to focus on Jonson s theatrical appropriations of London space both in and out of the playhouse Through this critical analysis the author argues that the strategies of authorial definition that Jonson pursued throughout his career as a poet and playwright were in large part determined by two intersecting factors first his complicated relationship with London s physical places and its institutional topography and secondly challenging commonplace assumptions about Jonson s anti theatricality the distinctly theatrical model of spatial practice that he brought to bear on his representation of the urban experience Although much criticism has focused on Jonson s role in the emergence of modern definitions of authorship most has focused on the material contexts of the book trade on the politics of Jonson s patronage or on Jonson s self construction as a neoclassical and primarily textual poet Mardock engages with all these considerations but with a focus on the dramatic practices of urban space a growing concern among scholars of early modern drama as a consistent factor in Jonson s authorial claims **Politicians and Pamphleteers** Jason Peacey, 2017-03-02 The English civil wars radically altered many

aspects of mid seventeenth century life simultaneously creating a period of intense uncertainty and unheralded opportunity

Nowhere was this more apparent than in the printing and publishing industry which between 1640 and 1660 produced a vast number of tracts and pamphlets on a bewildering variety of subjects. Many of these were of a highly political nature, the publication of which would have been unthinkable just a few years before. Whilst scholars have long recognised the importance of these publications and have studied in depth what was written in them, much less work has been done on why they were produced. In this book Dr Peacey first highlights the different dynamics at work in the conception, publication and distribution of polemical works and then pulls the strands together to study them against the wider political context. In so doing, he provides a more complete understanding of the relationship between political events and literary and intellectual prose in an era of unrest and upheaval. By incorporating into the political history of the period some of the approaches utilized by scholars of book history, this study reveals the heightened importance of print in both the lives of members of the political nation and the minds of the political elite in the civil wars and Interregnum. Furthermore, it demonstrates both the existence and prevalence of print propaganda with which politicians became associated and traces the processes by which it came to be produced, the means of detecting its existence, the ways in which politicians involved themselves in its production, the uses to which it was put and the relationships between politicians and propagandists.

Knowledge, Information, and Business Education in the British Atlantic World, 1620-1760 Siobhan Talbott, 2025-02-10

Accurate information is essential to successful business activity. The early modern period saw an increase in printed commercial information, including newspapers, printed exchange rates and educational texts, part of the print revolution that permeated all aspects of the early modern world. Rather than relying on externally produced printed works, commercial agents retained agency in creating and sharing their own business and educational information, which was shared in other forms and prioritised and valued over printed material. This book explores the ways that merchants and other commercial agents learned about business in the early modern British Atlantic World. It considers how they acquired dispersed, stored and used information, as well as considering their contribution to creating and shaping that information. Prioritising a wide range of manuscript material held in disparate collections, including merchants' correspondence, letter books, notebooks, family papers, exercise books and ships' logs, Talbott explores the ways that knowledge, information and business education was created, circulated and used in the early modern British Atlantic World. It offers a new perspective on the exchange of business information in a period dominated by discussions of print, prioritising manuscript and oral forms of exchange. In doing so, it presents a more holistic account of the ways that networks of knowledge operated in early modern business, centralising the creation, circulation and use of business information specifically by those individuals most involved in and most affected by its production.
