Timely and comprehensive this state of the art overview of major issues related to heritage community and Native American languages in the United States based on the work of noted authorities draws from a variety of perspectives the speakers use of the languages in the home community and wider society patterns of acquisition retention loss and revitalization of the languages and specific education efforts devoted to developing stronger connections with and proficiency in them Contributions on language use programs and instruction and policy focus on issues that are applicable to many heritage language contexts Offering a foundational perspective for serious students of heritage community and Native American languages as they are learned in the classroom transmitted across generations in families and used in communities the volume provides background on the history and current status of many languages in the linguistic mosaic of U S society and stresses the importance of drawing on these languages as societal community and individual resources while also noting their strategic importance within the context of globalization      New Trends in Early Foreign Language Learning Maria González Davies, 2012-01-17 This volume is the result of the presentations and discussions carried out at the Conference on Early Foreign Language Learning in Educational Contexts Bridging Good Practices and Research organized by the University Ramon Lull the University of Bari and LEND Lingua e Nuova Didattica in March 2010 At the Conference both teachers and researchers met to examine recent language teaching theories and practices from a transnational and intercultural perspective on the one hand and on the other to fill the gap in the field of English as a Foreign Language EFL in schools and to pave the way for a wider platform of discussion between School and University Since these two institutions have often had little contact and as there is excellent work carried out in both our attempt was to build more solid bridges across their contexts engaging school teachers in ongoing research and bringing everyday classroom practice nearer to university theoreticians in an open exchange forum so that the reflection on teaching and learning becomes relevant and rewarding for the participants involved in Early Foreign Language Learning in 21st century contexts Drawing on the main topics presented throughout the Conference this book has been structured around three main thematic areas 1 the Age Factor 2 CLIL and Content based research and practices and 3 developing intercultural competence use of the L1 and translation as mediation skills Each of these sections encompasses high quality contributions all informed by salient and recent research clear and justified theoretical standpoints and good practices which are appealing to an international audience and setting The editors sincerely hope that this volume contributes to widen the field of foreign language teaching and learning to include studies on young learners perceptions and performance At the same time they would like to highlight the decisive new focus on language learning adopted in the 21st century the inclusion of a wider vision of language acquisition one that highlights the

relevance of using languages not only to communicate but more relevantly to mediate between cultures as a means to bring together the plurilingual and pluricultural citizens of our future
