Realms of Philosophy William S. Sahakian, Ph. D.,1974 **Realms of Philosophy** William S. Sahakian,Mabel Lewis Sahakian,1981-01-01 **The Realm of Essence** George Santayana,1927 Realms of Being George Santayana,1972

The Realm of Matter George Santayana,1937 *COLLECTED SUPERNOTES* John O'Loughlin,2022-03-16 With his Collected Supernotes author John O Loughlin has combined on a highly abstract basis material derived from the independently published titles *Devil and God* *The Omega Book* *From Materialism to Idealism Towards the Supernoumenon* *Elemental Spectra* *Critique of Post Dialectical Idealism* *Philosophical Truth* *Veritas Philosophicus* and *Last Judgements* which span the period 1985 93 with a view to bringing some kind of strict chronology to bear on a series of writings dubbed supernotational to distinguish them from essays on the one hand and aphorisms on the other thereby allowing him to establish a kind of intermediate position between essays and aphorisms in the interests of what became a gradual progression towards an enhanced sense of philosophical logic commensurate so he believes with Supertruth and ultimately with a kind of plateau of aphoristic purism A Centretruths Editorial **Metaphorical Metaphysics in Chinese Philosophy** Derong Chen,2011-08-16 In *Metaphorical Metaphysics in Chinese Philosophy* Illustrated with Feng Youlan s New *Metaphysics* Derong Chen examines Chinese philosophy through a critical analysis of Feng Youlan s new metaphysics He views metaphysics in Chinese philosophy as a metaphorical metaphysics separate from Western metaphysics In examining the historical influences and contemporary reaction to Feng s work he identify s Feng s system as the continuation of the Chinese philosophical tradition This approach is most applicable to scholars of comparative philosophy and Chinese philosophy

Ruminations: Selected Philosophical, Historical, and Ideological Papers: Volume 1, Part 1, The Infinite Eric v.d. Luft,2019-06-14 Since the 1970s I have pursued three separate but overlapping and sometimes simultaneous careers 1 philosopher writer teacher historian of the long nineteenth century 1789 1914 2 editor translator photographer publisher biographer encyclopedist 3 cataloging librarian rare books and special collections librarian historian of medicine Somehow these three vocations have garnered me some acclaim even an entry in *Who s Who in America* Each of them has resulted in some published or presented works Because these works have been scattered in a wide variety of venues some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given I have thought it wise to select epitomize and bring them together in one place here Thus what follows in these volumes is what I consider to be the most important of my shorter works The Philosophical Review Jacob Gould Schurman,James Edwin Creighton,Frank Thilly,Gustavus Watts Cunningham,1914 An international journal of general philosophy **Collected Supernotational Writings Vol.I** John O'Loughlin,2022-03-18 In Volume 1 of a projected two volume philosophy project author John O Loughlin has combined the titles *Devil and God* *From Materialism to Idealism Towards the Supernoumenon* and *Elemental Spectra* all of which date from the mid late 1980s with a

view to bringing some kind of strict chronology to bear on a series of writings that he dubs supernotational to distinguish them from essays on the one hand and strictly aphoristic or maximistic material on the other hand thereby treading a kind of half way path between essays and aphorisms in the interests of what became a gradual progression towards an enhanced sense of philosophical logic commensurate so he believes with Supertruth and ultimately a kind of plateau of aphoristic purism A Centretruths Editorial **The Diplomat** ,1929 Vols for 1943 48 contain list of Diplomates of the National Board of Medical Examiners for 1941 47 **The Realm of Reason** Christopher Peacocke,2003-11-27 The Realm of Reason develops a new general theory of what it is for a thinker to be entitled to form a given belief The theory locates entitlement in the nexus of relations between truth content and understanding Peacocke formulates three principles of rationalism that articulate this conception The principles imply that all entitlement has a component that is justificationaly independent of experience The resulting position is thus a form of rationalism generalized to all kinds of content To show how these principles are realized in specific domains Peacocke applies the theory in detail to several classical problems of philosophy including the nature of perceptual entitlement induction and the status of moral thought These discussions involve an elaboration of the structure of entitlement in ways that have applications in many other areas of philosophy He also relates the theory to classical and recent rationalist thought and to current issues in the theory of meaning reference and explanation In the course of these discussions he proposes a general theory of the a priori The focus of the work lies in the intersection of epistemology metaphysics and the theory of meaning and will be of interest both to students and researchers in these areas and to anyone concerned with the idea of rationality **The Secret of Swedenborg** Henry James,1869

The Realm of Essence George Santayana,1974 **George Santayana's Philosophy of Religion** Edward W. Lovely,2012-09-28 George Santayana 1862 1952 of Spanish descent and generally claimed to be in the canon of American philosophers was substantially influenced by his Roman Catholic origins in his philosophical disposition toward the value of tradition religious symbols and dogma His philosophical project sustained a respectful attitude toward the spiritual value of orthodox religion while the thrust of his philosophy was naturalistic and materialistic throughout There is a perception by some scholars that Santayana s philosophy evolved from a humanistic perspective to a more spiritual one in his later years It is the position of this thesis that his philosophy at the core depicting a harmonious striving toward individual happiness remained essentially consistent from his earliest publication of Interpretations of Poetry and Religion and The Life of Reason through his later works of Scepticism and Animal Faith Realms of Being Dominations and Powers and The Idea of Christ in the Gospels Santayana s philosophical approach is both phenomenological and social constructionist in its methodology significantly preempting the methodology of social constructionist theology and a post modern interpretation of religion His idiosyncratic phenomenological approach is compared with a benchmark methodology of Edmund Husserl the generally accepted founder of the phenomenological method There are also important similarities between Santayana s

phenomenological approach and those of Charles Sanders Peirce and Alfred North Whitehead The basis for the comparison of the phenomenological methodology of Santayana and Husserl is their mutually similar fundamental theory of intuited essence Santayana's contribution to religious studies is not only philosophical but also theological where he has utilized Christian theological language in transposing and interpolating his philosophy of religion to the Christian drama of the salvational Christ Santayana's essay *Ultimate Religion* reflects his perspective of a disillusioned but still spiritual vision incorporating the piety discipline and spirituality of a life of reason Within the framework of this model Santayana's philosophy of religion is developed and explored Finally the relevance of Santayana's philosophy of religion to contemporary religious studies and selected religious issues is addressed with a delineation and discussion of some important aspects of his philosophical vision

Philosophy J. Bochenski, 2014-11-14 *Kant and Theology at the Boundaries of Reason* Chris L. Firestone, 2009 This book examines the transcendental dimension of Kant's philosophy as a positive resource for theology Firestone shows that Kant's philosophy establishes three distinct grounds for transcendental theology and then evaluate the form and content of theology that emerges when Christian theologians adopt these grounds To understand Kant's philosophy as a completed process Firestone argues theologians must go beyond the strictures of Kant's critical philosophy proper and consider in its fullness the transcendental significance of what Kant calls rational religious faith This movement takes us into the promising but highly treacherous waters of Kant's *Religion within the Boundaries of Mere Reason* to understand theology at the transcendental bounds of reason
