Reason and the Question of God Richard Schaeffler, 1999 A masterful presentation of the basic themes of the

philosophy of religion and the various philosophical approaches to the question of religion *Faith and Reason* Paul Helm,1999-01-01 The philosophy of religion is an intrinsic part of the richness of western philosophy This Oxford Reader displays in historical perspective some of the rich dialogue between religion and philosophy over two millennia beginning with Greek reflections about God and the gods and ending with twentieth century debate about faith in a world which tends to reserve its reverence for science Paul Helm takes as a case study the question of whether the world is eternal or whether it was created out of nothing and follows this theme from Plato through medieval thought to modern scientific speculation about the beginnings of the universe The Reader also includes discussion of many other fundamental issues raised by the juxtaposition of faith and reason and including arguments for and against the existence of God the relation between religion and ethics the contrast between reason and revelation as sources of knowledge and the implications of religious belief for freedom of the will **Reason in Religion** ,1979 Rationality and Religion Roger Trigg,1998 **Reason & the Contours of Faith** Richard Rice,2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God s existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it **Reason in religion** George Santayana,1945 Reflections on Reason, Religion, and Tolerance Klass Grinell,2015-06-07 This is an attempt to reflect on Islam as it appears in the context of Fethullah Gulen s teachings an influential Turkish Muslim scholar who inspired a movement of education and interfaith dialogue Grinell s extensive study of Islam and of Gulen allows him to pinpoint a unique expression of values and beliefs that could alter the typical understanding of Islam and Muslims in the West He draws upon his previous studies of the Gulen Movement and comparatively places Gulen in a wider context of faith and society What is the concept of knowledge in Islam as understood by Gulen How is faith and service to people connected Is Gulen after building a sultanate Does the Gulen movement have a hidden political agenda How traditional or modern is Gulen These are some of the questions Grinell attempts to answer from his perspective As a humanistic researcher on Islam Grinell believes we definitely have something to learn from Islam An Earnest Appeal to Men of Reason and Religion.
