Reason In Human Affairs:

Reason in Human Affairs Herbert Simon, 1990-07-01 What can reason or more broadly thinking do for us and what can it do This is the question examined by Herbert A Simon who received the 1978 Nobel Prize in Economic Sciences for his pioneering work on decision making processes in economic organizations The ability to apply reason to the choice of actions is supposed to be one of the defining characteristics of our species In the first two chapters the author explores the nature and limits of human reason comparing and evaluating the major theoretical frameworks that have been erected to explain reasoning processes He also discusses the interaction of thinking and emotion in the choice of our actions In the third and final chapter the author applies the theory of bounded rationality to social institutions and human behavior and points out the problems created by limited attention span human inability to deal with more than one difficult problem at a time He concludes that we must recognize the limitations on our capabilities for rational choice and pursue goals that in their tentativeness and flexibility are compatible with those limits

Reason in Human Affairs Herbert Alexander Simon, 1990

Reason, Revelation, and Human Affairs James V. Schall, 2001-01-01 This book is intended to serve as an introduction to the thought of James V Schall arguably one of the best perhaps even the only authentically Thomistic political scientist writing today In contrast to main currents in contemporary Thomism Schall remains conversant with the great tradition of political philosophy and therefore appreciates the complex and relatively imprecise nature of political reflection In this book the distinguished theorist addresses a wide range of subjects including the question of overpopulation the thought of Charles McCoy and Leo Strauss the role of Christianity in political philosophy and the challenges that the democratic project pose to human beings perception of the truth As a meditation on practical and theoretical political questions self consciously proceeding from the perspectives of both nature and grace the book provides a unique picture of what a genuine Thomistic political science might look like

Final Causality in Nature and Human Affairs Richard F. Hasting, 2018-03-02

Teleology the inquiry into the goals or goods at which nature history God and human beings aim is among the most fundamental yet controversial themes in the history of philosophy Are there ends in nonhuman nature Does human history have a goal Do humanly unintended events of great significance express some sort of purpose Do human beings have ends prior to choice The essays in this volume address the abiding questions of final causality The chapters are arranged in historical order from Aristotle through Hegel to contemporary anthropic principle cosmology

Schall,2023-05-02 In this wise and witty book acclaimed author James Schall illuminates a fundamental truth that will shock ceaselessly busy and ambitious Americans human affairs are unserious Following Plato Schall shows why singing dancing playing contemplating and other useless human activities are not merely forms of escape but also indications of the freedom in and for which men and women were created The joy that accompanies leisure festivity and conviviality he demonstrates gives us a glimpse of the eternal On the Unseriousness of Human Affairs offers a vital message that is truly countercultural *The Philosophy of Human Affairs* Aristotle,2019-02-06 Aristotle s Ethics and Politics are two separate works dealing with the same subject This subject is what Aristotle calls in one place the philosophy of human affairs but more frequently Political or Social Science In the two works taken together we have their author s whole theory of human conduct or practical activity that is of all human activity which is not directed merely to knowledge or truth The proem to the Ethics is an introduction to the whole subject not merely to the first part the last chapter of the Ethics points forward to the Politics and sketches for that part of the treatise the order of enquiry to be pursued Psychology, Science, And Human Affairs Frank Kessel,2019-07-05 These original essays written by prominent scholars pay tribute to the work of William Bevan In the course of his distinguished career Bevan has exhibited an almost unique capacity to focus a clear eyed critical gaze on operating assumptions and actions his own and those of others and to initiate consequential constructive steps forward both

The Rhetoric of Intention in Human Affairs Gary C. Woodward,2013-09-12 The Rhetoric of Intention in Human Affairs is an insightful account of the rhetorical and psychological habits we exhibit when we must explain the reasons others act The assumption that we can know what motivates another person is fed by more hope than certainty and yet it is evidence of a very human impulse Beginning with a clear template for defining various tiers of motives talk this innovative and accessible study moves through a series of chapters exploring the unique demands imposed by different circumstances These sections cut a wide swath of analysis across a diverse range of human actors including conspiracy theorists who find the designs of coordinated agents behind random events theater performers creating backstories for their characters journalists grasping to name the motives of newsmakers prosecutors who must establish another s intent in order to prove a criminal act and the devout who grapple with what divine intervention can mean in a cruel world Readers will recognize themselves in these pages gaining an appreciation for the rhetorical analysis of human behavior Decision Order and Time
