

REASONED FREEDOM

JOHN LOCKE
AND
ENLIGHTENMENT

Peter A. Schouls

Reasoned Freedom

Grant Gilmore

Reasoned Freedom:

Reasoned Freedom Peter A. Schouls, 2018-07-05 Although John Locke has often been called the Enlightenment's great progenitor his use of the concepts that characterize Enlightenment thought has rarely been examined In this lucid and penetrating book Peter A Schouls considers Locke's major writings in terms of the closely related ideas of freedom progress mastery reason and education The resulting intellectual portrait provides a historically nuanced interpretation of a thinker crucial to the development of Western political philosophy and philosophy of education Schouls centers his analysis on Locke's Essay concerning Human Understanding but he also reexamines the often ignored texts on education Stressing the originality of Locke's enterprise Schouls first explores Locke's reliance on Descartes for a method for the pursuit of general knowledge He then examines Locke's thinking on self mastery and the importance of reason to its achievement For Locke a human being has a radically autonomous nature that enables him or her to attain mastery nurture may help or hinder this achievement Turning to the critical role of freedom in the struggle for self liberation from passions and prejudices Schouls concludes that although wrong education explains widespread failure to achieve mastery right education cannot guarantee its achievement It is rather in the interplay of education reason and freedom that Schouls locates the revolutionary promise of Locke's account of human self fulfillment

The Self, Ethics & Human Rights Joseph Indaimo, 2015-02-11 This book explores how the notion of human identity informs the ethical goal of justice in human rights Within the modern discourse of human rights the issue of identity has been largely neglected However within this discourse lies a conceptualisation of identity that was derived from a particular liberal philosophy about the true nature of the isolated self determining and rational individual Rights are thus conceived as something that are owned by each independent self and that guarantee the exercise of its autonomy Critically engaging this subject of rights this book considers how recent shifts in the concept of identity and more specifically the critical humanist notion of the other provides a basis for re imagining the foundation of contemporary human rights Drawing on the work of Jacques Lacan and Emmanuel Levinas an inter subjectivity between self and other always already marks human identity with an ethical openness And this book argues it is in the shift away from the human self as a sovereign individual that human rights have come to reflect a self identity that is grounded in the potential of an irreducible concern for the other

Development as Freedom Amartya Sen, 2011-05-25 By the winner of the 1988 Nobel Prize in Economics an essential and paradigm altering framework for understanding economic development for both rich and poor in the twenty first century Freedom Sen argues is both the end and most efficient means of sustaining economic life and the key to securing the general welfare of the world's entire population Releasing the idea of individual freedom from association with any particular historical intellectual political or religious tradition Sen clearly demonstrates its current applicability and possibilities In the new global economy where despite unprecedented increases in overall opulence the contemporary world denies elementary freedoms to vast numbers perhaps even the majority of people he concludes it is still

possible to practically and optimistically retain a sense of social accountability Development as Freedom is essential reading

The Quality of Life Martha Craven Nussbaum, Amartya Sen, 1993-03-11 Commentator Ruth Anna Putnam **John Locke's Political Philosophy and the Hebrew Bible** Yechiel M. Leiter, 2018-06-28 John Locke whose ideas helped give birth to the United States predicated his political theory on the Hebrew Bible Why The Tools to Be Free Stephen Minicucci, 2024-06-10 Linking broad based public service to post secondary education is the best way to make our society more free Access to college ought to be a social right of citizenship The core idea in T H Marshall s concept of social citizenship is that in addition to civil and political rights people hold social rights including guarantees to housing health care basic income and especially an adequate education These are resources we all need to participate in society as full and equal members In America opponents of these guarantees have effectively mobilized deeply held liberal ideas arguing that state action is a threat to freedom Against this progressive arguments about fairness have fallen flat Looking outside liberalism this book offers a new approach It argues first the civic republican tradition provides an authentically American basis for the social rights of citizenship Republicanism understands that true freedom requires a degree of personal independence The ultimate justification for egalitarian policies especially in education is that they make us more free Second our first major policy step in this direction ought to be adopting a large scale service to school program designed to increase access to post secondary education The Biopolitics of Development Sandro Mezzadra, Julian Reid, Ranabir Samaddar, 2013-12-27 This book offers an original analysis and theorization of the biopolitics of development in the postcolonial present and draws significantly from the later works of Michel Foucault on biopolitics Foucault s works have had a massive influence on postcolonial literatures particularly in political science and international relations and several authors of this book have themselves made significant contributions to that influence While Foucault s thought has been inspirational for understanding colonial biopolitics as well as governmental rationalities concerned with development his works have too often failed to inspire studies of political subjectivity Instead they have been used to stoke the myth of the inevitability of the decline of collective political subjects often describing an increasingly limited horizon of political possibilities and provoking a disenchantment with the political itself in postcolonial works and studies Working against the grain of current Foucauldian scholarship this book underlines the importance of Foucault s work for the capacity to recognize how this degraded view of political subjectivity came about particularly within the framework of the discourses and politics of development and with particular attention to the predicaments of postcolonial peoples It explores how we can use Foucault s ideas to recover the vital capacity to think and act politically at a time when fundamentally human capacities to think know and to act purposively in the world are being pathologized as expressions of the hubris and underdevelopment of postcolonial peoples Why and how it is that life in postcolonial settings has been depoliticized to such dramatic effect The immediacy of these themes will be obvious to anyone living in the South of the world But within the academy they remain heavily under addressed In thinking

about what it means to read Michel Foucault today this book tackles some significant questions and problems Not simply that of how to explain the ways in which postcolonial regimes of governance have achieved the debasements of political subjectivity they have nor that of how we might better equip them with the means to suborn the life of postcolonial peoples more fully but that of how such peoples in their subjection to governance can and do resist subvert escape and defy the imposition of modes of governance which seek to remove their lives of those very capacities for resistance subversion flight and defiance

The Four Freedoms under Siege Marcus Raskin, Robert Spero, 2006-11-30 The authors address the hard questions of individual freedom versus national security that are on the minds of Americans of all political stripes They bring together the pivotal events leaders policies and fateful decisions often path breaking more often ending in folly that have subverted our constitutional government from its founding You reach the inescapable conclusion the authors write that the United States is a warrior nation has been addicted to war from the start and is able to sustain its warfare habit only by mugging American taxpayers and believing in its mission as God's chosen FDR's Four Freedoms Freedom of Speech Freedom to Worship Freedom from Want and Freedom from Fear were presented to the American people in his 1941 State of the Union address and they became the inspiration for a second bill of rights extending the New Deal and guaranteeing work housing medical care and education Although the bill never was adopted in a legal sense in this country its principles pervaded the political landscape for an entire generation including the War on Poverty and the Great Society reforms of the 1960s Furthermore the ideas expressed in the Four Freedoms speech inspired the Universal Declaration of Human Rights But since the late 1970s and early 1980s these freedoms have been under assault from presidential administrations of both parties economic pressures and finally the alleged requirements of national security After 9 11 this process accelerated even more rapidly

Judge Not André Gide, 2003 André Gide's lifelong fascination with the conventions of society led naturally to a strong interest in France's judicial system At the age of sixty Gide published *Judge Not* a collection of writings detailing his own experiences with the law as well as his thoughts on truth justice and judgment Gide's obsession with crime and punishment was not just a morbid hobby rather it struck at the heart of his themes as a writer In the literary tradition of Dostoyevsky and Conrad Gide frequently used criminals as central characters to explore human nature and the individual's place in society In the first essay in *Judge Not* A Memoir of the Assize Court Gide writes about his experience as a juror in several trials including that of an arsonist Gide actively sought jury duty so great was his interest in legal matters In *The Redureau Case* and *The Confined Woman of Poitiers* Gide analyzes two famous crimes of his day an inexplicable slaughter by Marcel Redureau a docile fifteen year old vineyard laborer who violently murdered his employer's family and the respected Monnier family's confinement of their daughter Blanche Both cases fascinated Gide elements of each would appear in his later fiction and he looks closely at the facts of each as they came out in court In addition in *News Items* Gide analyzes the way newspapers present crime narratives drawing from the hundreds of press clippings he collected throughout his life Andr

Gide 1869 1951 wrote *The Counterfeiters* several brief works of fiction including *Strait Is the Gate* and *The Immoralist* a number of plays and several works of literary criticism He won the Nobel Prize for literature in 1947 and in 1950 was made an honorary corresponding member of the American Academy of Arts and Letters Benjamin Ivry has translated from the French *Vanished Splendors The Memoirs of Balthus Raoul Dufy's My Doctor Wine* and Jules Verne's *Magellania* among other books He is the author of the poetry collection *Paradise for the Portuguese Queen* as well as the biographies *Francis Poulenc Arthur Rimbaud and Maurice Ravel A Life*

Diary Witold Gombrowicz, 2012-06-19 A landmark autobiography written by a Polish expatriate living in Argentina is presented in a single volume edition now with previously unpublished pages restored Original

Of Liberty and Necessity James A. Harris, 2005-05-19 In *Of Liberty and Necessity* James A Harris presents the first comprehensive account of the free will problem in eighteenth century British philosophy Harris proposes new interpretations of the positions of familiar figures such as Locke Hume Edwards and Reid He also gives careful attention to writers such as William King Samuel Clarke Anthony Collins Lord Kames James Beattie David Hartley Joseph Priestley and Dugald Stewart who while well known in the eighteenth century have since been largely ignored by historians of philosophy Through detailed textual analysis and by making precise use of a variety of different contexts Harris elucidates the contribution that each of these writers makes to the eighteenth century discussion of the will and its freedom In this period the question of the nature of human freedom is posed principally in terms of the influence of motives upon the will On one side of the debate are those who believe that we are free in our choices A motive these philosophers believe constitutes a reason to act in a particular way but it is up to us which motive we act upon On the other side of the debate are those who believe that on the contrary there is no such thing as freedom of choice According to these philosophers one motive is always intrinsically stronger than the rest and so is the one that must determine choice Several important issues are raised as this disagreement is explored and developed including the nature of motives the value of indifference to the will's freedom the distinction between moral and physical necessity the relation between the will and the understanding and the internal coherence of the concept of freedom of will One of Harris's primary objectives is to place this debate in the context of the eighteenth century concern with replicating in the mental sphere what Newton had achieved in the philosophy of nature All of the philosophers discussed in *Of Liberty and Necessity* conceive of themselves as experimental reasoners and when examining the will focus primarily upon what experience reveals about the influence of motives upon choice The nature and significance of introspection is therefore at the very centre of the free will problem in this period as is the question of what can legitimately be inferred from observable regularities in human behaviour

Principle and Prudence in Western Political Thought Christopher Lynch, Jonathan Marks, 2016-03-01 Reflections on principle and prudence in the thoughts and actions of great thinkers and statesmen Discussions of the place of moral principle in political practice are haunted by the abstract and misleading distinction between realism and its various principled or idealist alternatives This volume argues that such

discussions must be recast in terms of the relationship between principle and prudence as Nathan Tarcov maintains that relationship is not dichotomous but complementary In a substantive introduction the editors investigate Leo Strauss s attack on contemporary political thought for its failure to account for both principle and prudence in politics Leading commentators then reflect on principle and prudence in the writings of great thinkers such as Homer Machiavelli and Hegel and in the thoughts and actions of great statesmen such as Pericles Jefferson and Lincoln In a concluding section contributors reassess Strauss s own approach to principle and prudence in the history of political philosophy Principle and Prudence in Western Political Thought contains a series of first rate essays on a if not the central problem of political thought how should and can abstract and general principles inform contingent particularistic political life Catherine H Zuckert coauthor of Leo Strauss and the Problem of Political Philosophy **Freedom of Expression in the Marketplace of Ideas** Douglas M.

Frleigh, Joseph S. Tuman, 2010-05-19 A comprehensive guide to effective participation in the public debate about our most indispensable right freedom of expression Encouraging readers to think critically about freedom of speech and expression and the diverse critical perspectives that challenge the existing state of the law this text provides a comprehensive analysis of the historical and legal contexts of the First Amendment from its early foundations all the way to censorship on the Internet Throughout the book authors Douglas M Frleigh and Joseph S Tuman use the Marketplace of Ideas metaphor to help readers visualize a world where the exchange of ideas is relatively unrestrained and self monitored The text provides students with the opportunity to read significant excerpts of landmark decisions and to think critically about the issues and controversies raised in these cases Students will appreciate the treatment of contemporary issues including free speech in a post 9 11 world free expression in cyberspace and First Amendment rights on college campuses Features Demystifies free speech law encouraging readers to grapple with the complexities of significant ethical and legal issues Sparks student interest in big picture issues while simultaneously covering important foundational material including incitement fighting words true threats obscenity indecency child pornography hate speech time place and manner restrictions symbolic expression restrictions on the Internet and terrorism Includes significant excerpts from landmark freedom of expression cases including concurring or dissenting opinions where applicable to help students become active learners of free expression rights Offers critical analysis and alternative perspectives on free expression doctrines to demonstrate that existing doctrine is not necessarily ideal or immutable Includes a global perspective on free expression including a chapter on international and comparative perspectives that helps students see how the values of different cultures influence judicial decisions Security Interests in Personal Property Grant Gilmore, 1999 Gilmore Grant Security Interests in Personal Property Boston Little Brown xiii 653 1508 pp Reprinted 1999 by The Lawbook Exchange Ltd LCCN 99 10258 ISBN 1 886363 81 1 Cloth 195 Written by the late Grant Gilmore Co Reporter for Article 9 of the Uniform Commercial Code this landmark work often cited is extremely well respected as an acknowledged authority in this area Combines an engrossing

account of the drafting of Article 9 as it emerged in its final form with important interpretive data relating to security interests This title is the recipient of both the Order of the Coif and the James Barr Ames award Now back in print and of continued relevance today **The Growth of the Liberal Soul** David Walsh,1997 The widespread abandonment of the search for foundations by John Rawls Richard Rorty Michael Oakeshott and the deconstructionists has been interpreted as signifying the absence of any sustaining inner resources The result has been the confusion of contemporary liberal democratic self understanding which cannot make sense of its own extraordinary historical success nor apparently prevent the evident unraveling of its own moral code *Reason and Self-Enactment in History and Politics* F.M. Barnard,2006-03-03 Reason and Self Enactment in History and Politics also offers a reappraisal of basic political principles and constructs Barnard argues for bridging differences among a plurality of truths and forming practical judgments through cultivation of a sense of situational appropriateness Taking Well-Being and Quality of Life for Granted? Isabella Bertmann,2017-10-27 Isabella Bertmann investigates the connection between disability poverty and quality of life and how social protection measures can influence this relationship The focus of this study is on South Africa On the basis of qualitative interviews conducted with individuals affected as well as with local disability and social policy professionals the author provides enlightening insights into the contemporary discourse on inclusive social protection systems By combining theoretical considerations on well being and quality of life based on the Capability Approach with her empirical data she opens new perspectives on the multidimensionality of poverty social inclusion and self determined living Rousseau's Daughters Jennifer J. Popiel,2008 Provocative assessment of how new ideas about motherhood and domesticity in pre Revolutionary France helped women demand social and political equality later on **John Locke and the Ethics of Belief** Nicholas Wolterstorff,1996-01-26 A new view of Locke s ethics of belief and his contribution to modern philosophy Development Ethics Asuncion Lera St. Clair,2017-05-15 The traditional definition of development ethics considers the ethical and value questions posed by development theory planning and practice Goulet 1977 5 The field parallels the traditional question of ethics How ought one to live as an individual by asking in addition How ought a society exist and move into the future This interdisciplinary field is well represented by a substantial collection of previously published articles and papers The volume illustrates a wide range of academic and practitioner writings on the theories and concepts of development ethics as well as ethical development policy and practice
