**Learning from Shanghai** Charlene Tan, 2012-11-27 The Shanghai school system has attracted worldwide attention since its impressive performance in the Programme for International Student Assessment PISA in 2009 The system ranks as a stunning success according to standards of the Organisation for Economic Co-operation and Development OECD Shanghai also stands out for having the world's highest percentage of resilient students students from socio-economically disadvantaged backgrounds who emerge as top performers Learning From Shanghai Lessons on Educational Success offers a close up view of the people and the policies that have achieved such world class performance Based on research and personal observation gathered during the author's recent field work with school principals teachers and students this book explores the factors that explain Shanghai's exceptional success in education The approach combines high standards of scholarly research and analysis with the author's unique personal insights as evidenced by chapters entitled Education is Filling a Bucket and Lighting a Fire and Tiger Mothers Dragon Children Drawing on her experience as an education professional and a teacher of teachers Charlene Tan thoroughly examines and analyzes the people the policies and the

practices that distinguish Shanghai educators The contents include comprehensive details on the Shanghai approach to quality education from discussion of the balance between centralization and decentralization to school autonomy and accountability to testing policy and professional development for teachers The book includes detailed tables on curriculum and school performance targets sample appraisal forms for teachers and students and dozens of photographs The author is an Associate Professor at the National Institute of Education Nanyang Technological University Singapore

**Bulletin of the Atomic Scientists** ,1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

[Social Studies for the Twenty-First Century](#) Jack Zevin,2015-01-09 Now in its 4th edition this popular text offers practical interesting exciting ways to teach social studies and a multitude of instructional and professional resources for teachers Theory curriculum methods and assessment are woven into a comprehensive model for setting objectives planning lessons units and courses choosing classroom strategies and constructing tests for some of the field s most popular and enduring programs The reflective and integrative framework emphasizes building imagination insight and critical thinking into everyday classrooms encourages problem solving attitudes and behavior and provokes analysis reflection and debate The text includes separate chapters on teaching each of the major areas of the social studies curriculum Throughout the text all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic factual reflective analytical and affective judgmental components These three components are seen as supporting one another building the groundwork for taking stands on issues past and present At the center is the author s belief that the heart and soul of social studies instruction perhaps all teaching lies in stimulating the production of ideas looking at knowledge from others viewpoints and formulating for oneself a set of goals values and beliefs that can be explained and justified in open discussion New in the Fourth Edition Clear links to the The National Council for the Social Studies College Career and Civic Life C3 Framework for Social Studies State Standards Attention to impact of high stakes testing Common Core State Standards and related ongoing developments Expanded and critical review of the use of internet web and PowerPoint technologies Coverage of how to incorporate the many social science humanities and STEM fields to enrich the social studies Updates and revisions throughout including new research reports reflecting current findings new examples more media and materials resources particularly digital resources new and updated pedagogical features Companion Website new for this edition

*Numbers* Henry F. De Francesco,2015-02-12 In preparing this monograph I had three objectives First I wanted to introduce the reader to some topics in mathematics that seldom receive coverage in typical high school and college math programs The topics include axioms sets logic truth tables and plausible reasoning In the sections on logic and plausible reasoning I wanted the reader to see how to transition from formal mathematical logic to plausible logic when analyzing the reliability of a source and the credibility of its information

content Readers whose formal education did not cover these topics were not given the opportunity to develop the skills necessary to compete successfully in the world of finance business and management These readers will find the information on sets logic truth tables and plausible reasoning especially useful Included are examples that show how the new analysis skills can help analysts draw conclusions and make important decisions from subjective information supplied by less than reliable sources Second I wanted the reader to see how subjects in the foundations area of mathematics are used to develop the real number system and its extension through transfinite cardinal numbers The development of the number system starts with a description of the history of numbers Readers will find the history both interesting and understandable The real number continuum is identified as consisting of seven sets of numbers Each set of numbers can stand alone The number sets include the simple to understand natural numbers to the more abstract transcendental numbers Each set is defined and included in a vocabulary consisting of the natural numbers  $N$  integers  $Z$  the rational numbers  $F$  the algebraic numbers  $A$  transcendental numbers  $T$  irrational numbers  $I$  and real numbers  $R$  Venn diagrams are used to explain the relationships existing among the seven sets The relationships allow the reader to understand the role played by sets and logic in the development of the number system Included In the development of the real number system are examples of base2 numbers and the algorithms used to convert between base 2 and base 10 numbers Power Sets are introduced to show how the size of sets can be increased exponentially beyond the cardinal numbers  $N_0$  and  $c$  Finally through exponentiation cardinal numbers are generated beyond the  $N_0$

**McGraw-Hill's GED Short Course** , *Introduction to Teaching* Gene E. Hall,Linda F. Quinn,Donna M. Gollnick,2023-10-11 Grounded in the realities and complexities of today s schools *Introduction to Teaching Making a Difference in Student Learning* Fourth Edition is the ideal text for aspiring teachers Acclaimed authors Gene E Hall Linda F Quinn and Donna M Gollnick thoroughly prepare students to make a difference as teachers presenting first hand stories and evidence based practices while offering a student centered approach to learning From true to life challenges that teachers will face reduced funding low retention and changing standards to the inspiration and joy they will discover throughout their teaching careers this text paints a realistic picture of the real life of a teacher in a post pandemic era

*Handbook of Teaching Philosophy to Economists* Giancarlo Ianulardo,John B. Davis,Ricardo F. Crespo,2025-09-10 In recent years there have been increasing calls for a revision of the economics curriculum to address the most pressing and challenging issues facing society This erudite Handbook bridges the gap between a flourishing body of scholarship in the philosophy of economics literature and an economics education in need of a deeper rethinking as felt by both students and educators It provides practical pedagogical insights on how to structure courses in the philosophy of economics and how to link them to students economics backgrounds
