## Reasons And Faiths:

**Reasons and Faiths** Ninian Smart,2000      *Faith, Reason and the Existence of God* Denys Turner,2004-09-16 The proposition that the existence of God is demonstrable by rational argument is doubted by nearly all philosophical opinion today and is thought by most Christian theologians to be incompatible with Christian faith This book argues that on the contrary there are reasons of faith why in principle the existence of God should be thought rationally demonstrable and that it is worthwhile revisiting the theology of Thomas Aquinas to see why this is so The book further suggests that philosophical objections to proofs of God s existence rely upon an attenuated and impoverished conception of reason which theologians of all monotheistic traditions might wish to reject Denys Turner proposes that on a broader and deeper conception of it human rationality is open to the sacramental shape of creation as such and in its exercise of rational proof of God it in some way participates in that sacramentality of all things      Reasons for Faith; in a Letter to a Friend ,1830      Faith and Reason Anthony Fisher,Hayden Ramsay,2004 The first in a new series with Australian Catholic University this collection of essays deals with two important themes Faith and reason are heavily weighted words They point to elemental aspects of human existence The papers and discussions presented strive to clarify and correlate these basic activities or dimensions of human beings In all the complexities of the possible relationships and interweaving of faith and reason two kinds of questions keep recurring One the one hand what is the value of human intelligence and how is it endorsed and supported by faith On the other hand what is the distinctive intelligence or rationality of faith and how does it relate to the perennial search for wisdom represented in it various philosophical forms Contributors include Marilyn McCord Adams Raimond Gaita John Haldane John McDermott SJ Kevin Hart and Anthony Kelly CSsR      **Reasons for Faith** John H. Gerstner,2017-10 This book has been written because a friend whose suggestions have always carried the force of commands with me a long time ago urged me to write it He knows this field far better than I and since he said that there was a need for such a work I assumed it was true It did not follow that I was the one to attempt to meet this need My friend for one was far better qualified than I as I told him more than once But since his suggestions are my commands not mine his I wrote the book I laid down one stipulation however that he read and criticize the manuscript This he has done for which I am most grateful He has also done me another and still greater favor in permitting me to dedicate the book to him He disavows that he deserves the honor but since I think it is the book not he that is honored the matter stands There were others who have encouraged me helped me by criticisms and by their over all contribution kept the volume from being even more unworthy than it is I refer to the one who is my helpmate in every thing my wife no mean apologist I may add Also I would thank my dear friend Addison H Leitch for his good offices Nor would I forget to acknowledge those academic guinea pigs at Campus in the Woods Ontario Canada August 1958 who very graciously read several chapters to let me know whether I was speaking non technically to mid twentieth century collegians They thought that I was I hope that they were right for though this book is meant for everyone

in general it is meant for college students in particular One technical note needs to be added Those learned in philosophy and theology will immediately recognize that this book takes the position of the older rather than the more recent Christian apologists This I do not because I prefer the old as such and certainly not because I have not read and wrestled with the new but simply because I am not persuaded by the less rational approaches of today I do not much discuss these intramural differences not because they are not important but simply because they seem to have no proper place in a volume meant for the general thinking public and not for the specialists

**Faith and Rationality** Alvin Plantinga, Nicholas Wolterstorff, 1983  
A collection of essays by contemporary Calvinist philosophers of religion that examine the epistemology of religious belief between Reformed and Roman Catholic philosophers *Faith and Reason* Richard Swinburne, 2005-09-29 Richard Swinburne presents a new edition of the final volume of his acclaimed trilogy on philosophical theology Faith and Reason is a self standing examination of the implications for religious faith of Swinburne's famous arguments about the coherence of theism and the existence of God By practising a particular religion a person seeks to achieve some or all of three goals that he worships and obeys God gains salvation for himself and helps others to attain their salvation But not all religions commend worship and different religions have different conceptions of salvation Faced with these differences Richard Swinburne argues that we should practice that religion which has the best goals and is more probably true than the creeds of other religions He proposes criteria by which to determine the probabilities of different religious creeds and he argues that while requiring total commitment faith does not demand fully convinced belief While maintaining the same structure and conclusions as the original classic this second edition has been substantially rewritten both in order to relate its ideas more closely to those of classical theologians and philosophers and to respond to more recent views In particular he discusses and ultimately rejects the view of Alvin Plantinga that the warrant of a belief depends on the process which produced it and John Hick's contention that all religions offer valid paths to salvation *Faith, Reason, and Theosis* Aristotle

Papanikolaou, George E. Demacopoulos, 2023-10-03 Theosis shapes contemporary Orthodox theology in two ways positively and negatively In the positive sense contemporary Orthodox theologians made theosis the thread that bound together the various aspects of theology in a coherent whole and also interpreted patristic texts which experienced a renaissance in the twentieth century even in Orthodox theology In the negative sense contemporary theologians used theosis as a triumphalistic club to beat down Catholic and Protestant Christians claiming that they rejected theosis in favor of either a rationalistic or fideistic approach to Christian life The essays collected in this volume move beyond this East West divide by examining the relation between faith reason and theosis from Orthodox Catholic and Protestant perspectives A variety of themes are addressed such as the nature grace debate and the relation of philosophy to theology through engagement with such diverse thinkers as Thomas Aquinas John Wesley Meister Eckhart Dionysius the Areopagite Symeon the New Theologian Panayiotis Nellas Vladimir Lossky Martin Luther Martin Heidegger Sergius Bulgakov John of the Cross Delores Williams Evagrius of

Pontus and Hans Urs von Balthasar The essays in this book are situated within a current thinking on theosis that consists of a common albeit minimalist affirmation amidst the flow of differences The authors in this volume contribute to the historical theological task of complicating the contemporary Orthodox narrative but they also continue the theological achievement of thinking about theosis so that all Christian traditions may be challenged to stretch and shift their understanding of theosis even amidst an ecumenical celebration of the gift of participation in the life of God **Faith and Reason** Nigel

Zimmermann, Sandra Lynch, 2021-10-12 What is the fruit of a searching dialogue between faith and reason This book collects theological and philosophical perspectives on the richness of the faith reason dialogue including examples from literature continental and analytic philosophy worship and liturgy and radical approaches to issues of racism and prejudice The authors strongly resist the temptations to either disregard the faith reason dialogue or take it for granted Through their explorations and reflections they open up new vistas and horizons on a topic more necessary than ever Reason and Faith Henry

Rogers, 1866 *Faith and Reason* Donald A. Crosby, 2012-01-02 Few words are as widely misconceived as the word faith Faith is often set in stark opposition to reason considered antithetical to scientific thought and heavily identified with religion Donald Crosby's revealing book provides a more complex picture discussing faith and its connection to the whole of human life and human knowledge Crosby writes about that existential faith that underlies shapes and supports a person's life and its sense of purpose and direction Such faith does not make a person religious and being secular does not mean one rejects all forms of faith Throughout the book Crosby makes the case that faith is fundamentally involved in all processes of reasoning and that reason is an essential part of all dependable forms of faith Crosby elaborates the major components of faith and goes on to look at the mutually dependent relationships between faith and knowledge faith and scientific knowledge and faith and morality The work's final chapters examine crises of faith among several noted thinkers as well as the author's own journey of faith from plans for the ministry to pastor to secular philosopher and religious naturalist *Reason and the Rule of Faith* Christopher J. Thompson, Steven A. Long, 2010-11-04 Inspired by the Catholic intellectual tradition these essays are the fruit of a series of seminars sponsored by the Center for Catholic Studies and the Saint Paul Seminary School of Divinity at the University of St Thomas in Saint Paul Minnesota With a special focus on the works of John Paul II especially *Veritatis Splendor* and *Fides et Ratio* the authors bring to light a host of considerations that set the work of his pontificate within the illuminating light of the living intellectual tradition Reason, Faith and Authority in Christianity Alfred Magill

**Faith and Reason Through Christian History** Grant Kaplan, 2022-08-29 It is impossible to understand the history of Christian theology without taking into account the relationship between faith and reason Many works give an overview of faith and reason or outline key principles while others put forward a thesis about how one should understand the relationship between faith and reason In this theological essay Grant Kaplan revisits the key figures and debates that shape how faith and reason relate Divided into three parts Kaplan invites readers into a conversation rather than a drive by Readers will encounter the words and arguments of some of Christianity's greatest thinkers some well known Augustine Aquinas Newman and others nearly forgotten Readings of these figures bring them to life in an accessible manner In Faith and Reason through Christian History the roughly fifty figures treated are given sufficient room to breathe Rather than simply summarizing their thought Kaplan traces their arguments through key texts This book will appeal to a range of audiences theologians and philosophers instructors graduate students seminarians lay study groups and undergraduate theology majors No book today accomplishes what this book does

*Faith, Reason, and Compassion* James Earl Gilman, 2007 What is the relationship between faith and reason How should faith and reason situate themselves in relation to each other These are the chief questions that James Gilman seeks to address in Faith Reason and Compassion A Philosophy of the Christian Faith An innovative new book in philosophy of religion it treats the problems typical of the discipline in an untypical way with a methodology that presupposes a particular religious tradition in this case Christianity and that reenfrenchises emotions e.g. compassion as crucial to shaping solutions to philosophical problems Developing a methodology on the basis of three principles the principle of symmetry asymmetry and supersymmetry Gilman confiscates these three terms from physics and deploys them collectively as a metaphor in service to a method whereby the problems belonging to philosophy of religion can be critically and constructively treated While ideal for courses in philosophy of religion this book stretches across disciplines and is also ideal for use in Christian ethics and theology courses es across disciplines and is also ideal for use in Christian ethics and theology courses es across disciplines and is also ideal for use in Christian

### **Postmodernism, Reason and Religion**

Ernest Gellner, 1992 First Published in 1992 On questions of faith Ernest Gellner believes three ideological options are available to us today One is the return to a genuine and firm faith in a religious tradition The other is a form of relativism which abandons the notion of unique truth altogether and resigns itself to treating truth as relative to the society or culture in question The third which Gellner calls enlightenment rationalism upholds the idea that there is a unique truth but denies that any society can ever possess it definitively Learned and stimulating Professor Gellner's book is an important contribution to our understanding of postmodernism and the relations between Islam and the West It will be of great interest to anyone concerned with the ideological condition of contemporary society

### Essays on Culture, Religion and Rights

Peter Jones, 2020-10-09 Culture and religion are overlapping phenomena cultures are normally understood to subsume religions and religions are very often central to cultures The two are particularly closely associated when we focus on the kinds of difference that generate issues for public policy The world has always been culturally and religiously diverse but recent movements of population have intensified the internal diversity of societies That increased diversity has presented societies with a number of pressing questions How much should cultural differences matter Can they and should they be treated impartially Should they receive equal recognition and what sort of recognition might that be Are cultural and religious differences at odds with human rights thinking or do universal human rights demand respect for those differences When the demands of a religious faith clash with those of a society's rules which should take precedence Should the religious have to endure whatever burdens their beliefs bring their way or should they be accommodated so that their religious faith does not become a source of social disadvantage Should they have to put up with unwelcome treatments of their beliefs or should they be protected from the offensive and the disrespectful These are some of the many issues examined in Culture Religion and Rights
