Reasons And Purposes Human Rationality And The Teleological Explanation Of Action:

Reasons and Purposes G. F. Schueler, 2003 **Explanation in Action Theory and Historiography** Gunnar

Schumann, 2019-05-29 Is the appropriate form of human action explanation causal or rather teleological While this is a central question in analytic philosophy of action it also has implications for questions about the differences between methods of explanation in the sciences on the one hand and in the humanities and the social sciences on the other Additionally this question bears on the problem of the appropriate form of explanations of past human actions and therefore it is prominently discussed by analytic philosophers of historiography This volume brings together causalists and anti causalists to address enduring philosophical questions at the heart of this debate as well as their implications for the practice of historiography Part I considers the quarrel between causalism and anti causalism in recent developments in the philosophy of action Part II presents papers by causalists and anti causalists that are more narrowly focused on the philosophy of historiography

Reasons and Purposes G. F. Schueler, 2003-01-16 People do things for reasons But philosophers have disagreed sharply about how reasons explanations of actions actually work and hence about their implications for human freedom and autonomy The dominant view in contemporary philosophy is the Humean idea that the beliefs and desires that constitute our reasons for acting simply cause us to act as we do Fred Schueler seeks to replace such causal views arguing that they leave out two essential elements of these explanations Reasons explanations are inherently teleological in the sense that the agent's reasons always explain the purpose for which he acted They are also inherently normative since it is always possible that an agent's reasons for doing something are not good reasons Schueler argues that causal accounts of reasons explanations make no sense of either of these features he argues instead for an account based on practical deliberation our ability to evaluate the reasons we accept Free Will and Action Explanation Scott Robert Sehon, 2016 Do we have free will and

moral responsibility Is free will compatible with determinism Scott Sehon addresses these key questions by focusing on an underlying issue the nature of action explanation He proposes a non causal account of action and agency according to which reason explanation of human behavior is teleological rather than causal **A Companion to the Philosophy of Action**

Timothy O'Connor, Constantine Sandis, 2012-08-02 A Companion to the Philosophy of Action offers a comprehensive overview of the issues and problems central to the philosophy of action The first volume to survey the entire field of philosophy of action the central issues and processes relating to human actions Brings together specially commissioned chapters from international experts Discusses a range of ideas and doctrines including rationality free will and determinism virtuous action criminal responsibility Attribution Theory and rational agency in evolutionary perspective Individual chapters also cover prominent historic figures from Plato to Ricoeur Can be approached as a complete narrative but also serves as a work of reference Offers rich insights into an area of philosophical thought that has attracted thinkers since the time of the ancient Greeks **New Essays on the Explanation of Action** C. Sandis, 2008-11-28 These previously unpublished essays present

the newest developments in the thought of philosophers working on action and its explanation focusing on a wide range of interlocking issues relating to agency deliberation motivation mental causation teleology interpretive explanation and the ontology of actions and their reasons **Causation and Explanation** Joseph Keim Campbell, Michael O'Rourke, Harry Silverstein, 2007 Leading scholars discuss the development and application of theories of causation and explanation offering a state of the art view of current work on these two topics *The ^ANature of Desire* Federico Lauria, Julien A.

Deonna, 2017-06-01 Desires are central to our lives yet we rarely understand them What are they And are they motivational or evaluative states Should philosophy adopt an alternative picture entirely Answering these questions is vital to a number of issues in philosophy of mind and ethics This volume comprehensively explores this neglected albeit crucial dimension of the mind Freedom, Teleology, and Evil Stewart Goetz, 2011-10-27 In *Freedom Teleology and Evil* Stewart Goetz defends the existence of libertarian freedom of the will He argues that choices are essentially uncaused events with teleological explanations in the form of reasons or purposes Because choices are uncaused events with teleological explanations whenever agents choose they are free to choose otherwise Given this freedom to choose otherwise agents are morally responsible for how they choose Thus Goetz advocates and defends the principle of alternative possibilities which states that agents are morally responsible for a choice only if they are free to choose otherwise Finally given that agents have libertarian freedom Goetz contends that this freedom is integral to the construction of a theodicy which explains why God allows evil

Dawes, 2012-09-10 In this timely study Dawes defends the methodological naturalism of the sciences Though religions offer what appear to be explanations of various facts about the world the scientist as scientist will not take such proposed explanations seriously Even if no natural explanation

were available she will assume that one exists Is this merely a sign of atheistic prejudice as some critics suggest Or are there good reasons to exclude from science explanations that invoke a supernatural agent On the one hand Dawes concedes the bare possibility that talk of divine action could constitute a potential explanation of some state of affairs while noting that the conditions under which this would be true are unlikely ever to be fulfilled On the other hand he argues that a proposed explanation of this kind would rate poorly when measured against our usual standards of explanatory virtue

The Complex Tapestry of Free Will Robert Kane, 2024 Robert Kane is one of the most prominent contributors to debates on free will over the last 50 years Here he discusses the evolution of his views since his 1996 volume *The Significance of Free Will* and provides responses to some of the latest critical literature on them He explains significant changes to his views on free will and related notions of moral responsibility agency and other related topics He connects his ideas on free will to ethical thought and to key ideas in the philosophy of religion The volume is accessible to those not already familiar with the free will literature while also developing novel and complex ideas on difficult subjects

Habits in Mind, 2017-04-11 The language of habit plays a central role in traditional accounts of the virtues yet it has received only modest attention among contemporary scholars of philosophy psychology and religion This volume explores the role of both mere habits and sophisticated habitus in the moral life Beginning with an essay by Stanley Hauerwas and edited by Gregory R Peterson James A Van Slyke Michael L Spezio and Kevin S Reimer the volume explores the history of the virtues and habit in Christian thought the contributions that psychology and neuroscience make to our understanding of habitus freedom and character formation and the relation of habit and habitus to contemporary philosophical and theological accounts of character formation and the moral life Contributors are Joseph Bankard Dennis Bielfeldt Craig Boyd Charlene Burns Mark Graves Brian Green Stanley Hauerwas Todd Junkins Adam Martin Darcia Narvaez Gregory R Peterson Kevin S Reimer Lynn C Reimer Michael L Spezio Kevin Timpe and George Tsakiridis

Neo-Aristotelian Perspectives in Metaphysics Daniel D. Novotný, Lukáš Novák, 2014-04-16 This volume re examines some of the major themes at the intersection of traditional and contemporary metaphysics The book uses as a point of departure Francisco Suarez's *Metaphysical Disputations* published in 1597 Minimalist metaphysics in empiricist pragmatist clothing have today become mainstream in analytic philosophy Independently of this development the progress of scholarship in ancient and medieval philosophy makes clear that traditional forms of metaphysics have affinities with some of the streams in contemporary analytic metaphysics The book brings together leading contemporary metaphysicians to investigate the viability of a neo Aristotelian metaphysics

Reading R. S. Peters Today Stefaan E. Cuypers, Christopher Martin, 2011-09-13 Reading R S Peters Today Analysis Ethics and the Aims of Education reassesses British philosopher Richard Stanley Peters educational writings by examining them against the most recent developments in philosophy and practice Critically reassesses R S Peters a philosopher who had a profound influence on a generation of educationalists Brings clarity to a number of key educational questions Exposes mainstream orthodox arguments to sympathetic critical scrutiny

Alasdair MacIntyre, George Lindbeck, and the Nature of Tradition David Trenery, 2014-11-06 What should we believe and why should we believe it This book addresses these questions through a critical exposition of the work of the contemporary philosopher Alasdair MacIntyre and of the theologian George Lindbeck the father of postliberal theology The book argues that MacIntyre's philosophical development can be seen as a response to the question of how belief in a comprehensive metaphysical system can be justified Such a system provides its believers with an account of the nature of the universe and human nature and a basis for their ethical reasoning and action The book draws on Lindbeck's cultural linguistic account of religion to argue that such a system is primarily a way of interpreting the world and the place of humanity within it rather than a speculative theory The justification of belief in such systems can be understood in terms of MacIntyre's account of tradition constituted rationality provided that this notion of rationality is made more specific by the incorporation of elements of Lindbeck's theology Equally the book argues that Lindbeck's theology can be strengthened by the incorporation of elements drawn from MacIntyre's work This book will be of value to students of philosophy and theology and to the general reader who is interested in the question of the grounds of belief

Action in Context Anton Leist, 2012-02-13 The book illustrates the concept of action in three different contexts the justification of actions people's life history and pragmatism The special feature of this book is that a comprehensive view of this kind marks a departure from the atomistic approach of action theory which in itself raises a number of questions If actions are not justified by mental states how can persons then act for reasons How can persons actions over time be described and what is the connection with the question of personal identity If there is to be a unified understanding of the person does the practical have to take precedence over the theoretical and what does this mean for epistemology for example The ten contributors to this volume engage in an instructive manner with these and similar questions in the three sections of the book
