**Rebel Women** Jane Eldridge Miller, 1997-03-15 With the rise of women's suffrage challenges to marriage and divorce laws and expanding opportunities for education and employment for women the early years of the twentieth century were a time of social revolution Examining British novels written in 1890-1914 Jane Eldridge Miller demonstrates how these social legal and economic changes rendered the traditional narratives of romantic desire and marital closure inadequate forcing Edwardian novelists to counter the limitations and ideological implications of those narratives with innovative strategies The original and provocative novels that resulted depict the experiences of modern women with unprecedented variety specificity and frankness Rebel Women is a major re-evaluation of Edwardian fiction and a significant contribution to literary history and criticism Miller's is the best account we have not only of Edwardian women novelists but of early 20th century women novelists the measure of her achievement is that the distinction no longer seems workable David Trotter The London Review of Books

**Kitchen Economics** Thomas Strychacz, 2020-08-11 An analysis of how nineteenth century women regional writers represent political economic thought WINNER OF THE ELIZABETH AGEE PRIZE IN AMERICAN LITERATURE Readers of late nineteenth century female American authors are familiar with plots characters and households that make a virtue of economizing Scholars often interpret these scenarios in terms of a mythos of parsimony frequently accompanied by a sort of elegiac republicanism whereby self sufficiency and autonomy are put to the service of the greater good a counterworld to the actual economic conditions of the period In Kitchen Economics Women's Regionalist Fiction and Political Economy Thomas Strychacz takes a new approach to the question of how female regionalist fictions represent the economic by situating them within traditions of classical political economic thought Offering case studies of key works by Sarah Orne Jewett Mary Wilkins Freeman Harriet Beecher Stowe Rose Terry Cooke and Alice Dunbar Nelson this study focuses on three complex cultural fables the island commonwealth stadialism or stage theory and feeding the body politic which found formal expression in political economic thought made their way into endless public debates about the economic turmoil of the late nineteenth century and informed female authors These works represent counterparts not counterworlds to modernity and their characteristic stance is captured in the complex trope of feminaeconomica This approach ultimately leads us to reconsider what we mean by the term economic for the emphasis of contemporary neoclassical economics on economic agents given over to infinite wants and complete self interest has caused the sufficiency and common good models of female regionalist authors to be misinterpreted and misvalued These fictions are nowhere more pertinent to modernity than in their alliance with today's important alternative economic discourses

**Kill You If You Cry: ,** *Bush Wives and Girl Soldiers* Chris Coulter, 2011-03-15 During the war in Sierra Leone 1991 2002 members of various rebel movements kidnapped thousands of girls and women some of whom came to take an active part in the armed conflict alongside the rebels In a stunning look at the life of women in wartime Chris Coulter draws on interviews with more than a hundred women to bring us inside the rebel camps in Sierra Leone When these girls and women returned to their home villages after the cessation of hostilities their families and peers viewed them with skepticism and fear while humanitarian organizations saw them primarily as victims Neither view was particularly helpful in helping them resume normal lives after the war Offering lessons for policymakers practitioners and activists Coulter shows how prevailing notions of gender both in home communities and among NGO workers led for instance to women who had taken part in armed conflict being bypassed in the demilitarization and demobilization processes carried out by the international community in the wake of the war Many of these women found it extremely difficult to return to their families and without institutional support some were forced to turn to prostitution to eke out a living Coulter weaves several themes through the work including the nature of gender roles in war livelihood options in war and peace and how war and postwar experiences affect social and kinship relations

**In Love and at War** Hilary Matfess, 2024-02-07 What does it mean to be in love while at war This Element demonstrates that whether rebel groups commit themselves to marriage bar it entirely or reinterpret the ceremonies and practices associated with marriage their decision has important implications for both the rebel organization and individual members This Element contributes to the literature on gender and politics by demonstrating that rebel marriages are an under appreciated driver of gendered conflict and post conflict dynamics This Element introduces frameworks for understanding how rebel groups approach the issue of marriage suggesting that variation between and within rebel groups over time is related to not only the rebels political project but also the anticipated effect of marriage on cohesion and retention and the rebels logistical concerns Furthermore the Element unpacks how wartime rebel marriages can complicate or improve women s prospects for post conflict reintegration by shaping whether rebel wives are depoliticized distrusted or reclaimed

**Living by the Gun in Chad** Marielle Debos, 2016-10-15 How do people live in a country that has experienced rebellions and state organised repressions for decades and that is still marked by routine forms of violence and impunity What do combatants do when they are not mobilised for war Drawing on over ten years of fieldwork conducted in Chad Marielle Debos explains how living by the gun has become both an acceptable form of political expression and an everyday occupation Contrary to the popular association of violence and chaos she shows that these fighters continue to observe rules frontiers and hierarchies even as their allegiances shift between rebel and government forces and as they drift between Chad Libya Sudan and the Central African Republic Going further she explores the role of the globalised politico military entrepreneurs and highlights the long involvement of the French military in the country Ultimately the book demonstrates that ending the war is not enough The issue is ending the inter war which is maintained and reproduced by state violence Combining ethnographic observation with in depth theoretical analysis Living by the Gun in Chad is a crucial contribution to our understanding of the intersections of war and peace
