Bowsher, 2011-09-19 NATIONAL CRISIS IN LEADERSHIP Ten years ago our nation was on the right road to fiscal stability with four years of surpluses totaling 560 billion Unfortunately private and public sector senior executives made serious mistakes during the past decade resulting in our federal government being on the road to a financial meltdown This could lead to a long term and deep economic depression like the 1930s In *Educating Voters for Rebuilding America* Jack Bowsher takes a deep investigative look into how Americans can turn the country around To avoid many tax increases being discussed in Washington DC Bowsher argues that there must be systemic changes in many areas of our government and in the free enterprise system Only then will Americans enjoy economic prosperity higher employment levels affordable education systems a balanced budget a modern nation wide energy system and much more Bowsher describes how these national goals can be achieved in this decade by implementing the required systemic changes and also shows how Social Security and Medicare benefits can be affordable in future years Voters must be educated on the major issues and challenges facing our nation Only they have the power to end the civil war between our two political parties by electing qualified candidates in the White House and Congress in 2012 Educate yourself today **Reconstruction** Stephanie Fitzgerald, 2010-07 Recounts the history of the Reconstruction as the United States government and people worked to recover from the effects of the Civil War

American Century both of whose leaders had been attempting covertly and separately to provoke a unilateral American invasion of Iraq since the end of the Cold War as a first step to world domination In pursuit of this shared objective Bin Laden christened the marriage with an October surprise that facilitated the closely contested millennial election of the hawkish American group's foremost representatives the Bush Administration After nine months of Bush's presidency Al Qaeda and an immaculately impregnated American administration gave birth to the march to war against Iraq when Bin Laden intentionally unleashed the Bush Administration's crusade in the Middle East on 9/11 The American occupation of Iraq would prove to be the greatest boon to Bin Laden's most vital war objective the global recruitment coup of transferring guilt for the war to the United States Al Qaeda supported President Bush's reelection in 2004 with another October surprise so that his administration would complete the global vilification of America that is intended to be the foundation of Bin Laden's messianic bid for world domination by nuclear terrorism
