Recasting Social Values In The Work Of Virginia Woolf:

Recasting Social Values in the Work of Virginia Woolf Judy S. Reese, 1996 She attempts to define and explore her value system using two fabricated measuring standards the public psychometer of great art and the private psychometer of instinct or taste These often conflicting standards however lead her into a maze of circular reasoning and contradiction In order to escape her cultural context Woolf needed an Archimedes point some distant position and objective perspective from which to view and judge the whole of society Virginia Woolf and Being-in-the-world Emma Simone, 2017-04-19 Breaking fresh ground in Woolfian scholarship this study presents a timely and compelling interpretation of Virginia Woolf's textual treatment of the relationship between self and world from the perspective of the philosophy of Martin Heidegger Drawing on Woolf's novels essays reviews letters diary entries short stories and memoirs the book explores the political and the ontological as the individual's connection to the world comes to be defined by an involvement and engagement that is always already situated within a particular physical societal and historical context Emma Simone argues that at the heart of what it means to be an individual making his or her way in the world the perspectives of Woolf and Heidegger are founded upon certain shared concerns including the sustained critique of Cartesian dualism particularly the resultant binary oppositions of subject and object and self and Other the understanding that the individual is a temporal being an emphasis upon intersubjective relations insofar as Being in the world is defined by Being with Others and a consistent emphasis upon average everydayness as both determinative and representative of the individual's relationship to and with the world

Virginia Woolf and the Power of Story Linda Nicole Blair, 2017-03-05 From novels to films our everyday lives are filled with stories that comfort and connect us and enable new ways of thinking One of the most innovative writers in modern history Virginia Woolf changed the landscape of fiction and challenged our notions of what it means to be human Her novels invite readers to envision a world in which stories have the power to effect positive change This book explores the phenomenon of Story as practiced by Woolf interpreting her work in the context of literary Darwinism a critical approach focusing on patterns of innate human behavior **Moonlighting** Nathan Waddell, 2019-06-27 How and why did the life and music of Ludwig van Beethoven 1770-1827 matter to experimental writers in the early twentieth century Previous answers to this question have tended to focus on structural analogies between musical works and literary texts charting the many different ways in which poetry and prose resemble Beethoven's compositions This book takes a different approach It focuses on how early twentieth century writers chief among them E M Forster Aldous Huxley Wyndham Lewis Dorothy Richardson Rebecca West and Virginia Woolf profited from the representational conventions associated in the nineteenth century and beyond with Beethovenian culture The emphasis of Moonlighting falls for the most part on how modernist writers made use of Beethovenian legend It is concerned neither with formal similarities between Beethoven's music and modernist writing nor with the music of Beethoven per se but with certain ways of understanding Beethoven's music which had long before 1900

taken shape as habit myth cliché and fantasy and with the influence they had on experimental writing up to 1930 Moonlighting suggests that the modernists drew knowingly and creatively on the conventional It proposes that many of the most experimental works of modernist literature were shaped by a knowing reliance on Beethovenian consensus in short that the literary modernists knew Beethovenian legend when they saw it and that they were eager to use it The Cambridge Companion to To The Lighthouse Allison Pease, 2015 Written by leading international scholars of Woolf and modernism The Cambridge Companion to To The Lighthouse will be of interest to students and scholars alike **The Servants of Desire in Virginia Woolf's Shorter Fiction** Heather Levy, 2010 The Servants of Desire in Virginia Woolf's Shorter Fiction proposes an insight into the ways in which Virginia Woolf engaged with the questions of how class influences working women's occupation of private and public space and how material privilege or economic distress inhibits or encourages their likelihood of obtaining their intellectual spiritual and physical desires This groundbreaking book uses class as the determining factor to assess how servants and working class women occupy private and public space and articulate or fail to realize their desires Drawing upon published and unpublished holograph and typescript drafts of the shorter fiction in The Monks House Papers as well as the Berg Collection this book examines Woolf's oscillating patterns of elision idealization and contempt for the voices and desires of female servants lesbians gypsies and other disenfranchised women The Servants of Desire in Virginia Woolf's Shorter Fiction also assesses how the portrayal of working class women in the shorter fiction becomes a vital template for the representation of working class women in Woolf's novels and essays This study of the cumulative portrayal of the working class woman in all of Virginia Woolf's shorter fiction will also be compelling for anyone interested in social justice especially for advocates of equality in gender race class sexuality conflicts **Modern British Women Writers** Vicki K. Janik, Del Ivan Janik, 2002-11-30 The 20th century witnessed several major cultural movements including modernism anti modernism and postmodernism These and other means of understanding and perceiving the world shaped the literature of that era and with the rise of feminism resulted in a particularly rich body of literature by women writers This reference includes alphabetically arranged entries on 58 British women writers of the 20th century Some of these writers were born in England while others such as Katherine Mansfield and Doris Lessing came from countries of the former Empire or Commonwealth The volume also includes entries for women of color such as Kamala Markandaya and Buchi Emecheta Each entry is written by an expert contributor and includes an overview of the writer's background an analysis of her works an assessment of her achievements and lists of primary and secondary sources The volume closes with a selected general bibliography **Woolf Studies Annual**, 1999 *The Best Books for Academic Libraries*, 2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers The Norton Anthology of Literature by Women: Early twentieth-century through contemporary Sandra M.
