A career spanning retrospective of one of the most successful British filmmakers in Hollywood's history. If I were pressed to describe my style, I'd have to say it is called reality. No matter how stylized it gets underneath it's real. Ridley Scott. Illustrated with images as iconic as they are stunning and including the author's first-hand experiences on set and interviews with Scott himself, this book charts the extraordinary journey of Britain's greatest living director. The stories behind many great films are revealed from science-fiction classics Alien, Blade Runner, and The Martian through timeless thrillers Hannibal and American Gangster to historical hits Kingdom of Heaven, Napoleon, and Gladiator II. The book explores the themes and motifs that unite such different films and the methods of Scott's approach to his medium. This is the account of a director who has never been less than stubbornly, brilliantly, unforgettably his own man. **Ridley Scott** Jorge Fonte, 2016-05-19. El de Ridley Scott es en principio un caso poco común en la historia del cine. Su filmografía con 23 títulos hasta el momento cuenta con dos obras, Alien el octavo pasajero 1979 y Blade Runner 1982, cuya fama y calidad artística han superado e incluso sobrepasado a su propio director. Nos encontramos ante una carrera amplia y variada con algunos altibajos y alguna que otra obra poco acertada, pero que en líneas generales nos presenta a uno de los directores más personales e interesantes del cine contemporáneo. Ya por sí sola esta dicotomía lo hace a nuestro entender un cineasta absolutamente relevante a la hora de adentrarnos en su cine con la intención de analizarlo en profundidad y darle forma a este estudio sobre su obra. **Kingdom of Heaven** J. Lewis Smith, 2005. The story of the production of the motion picture Kingdom of Heaven. *Ridley Scott* Paul Sammon, 1999. **Focus On: 100 Most Popular English-language Film Directors** Wikipedia contributors, **Ridley Scott: Promethean** Brian J. Robb, 2018-12-27. **Tony Scott** Larry Taylor, 2018-12-31. Tony Scott got his start as a film director when he joined his brother at the lucrative commercial directing company Ridley Scott Associates. After directing Top Gun, his second film, which changed not only the trajectory of his own life but of the entire action movie industry, Scott's career would be a roller coaster of blockbuster hits, personal films, and confounding failures. With extensive research and original interviews with actors, cinematographers, and writers, this book documents Tony Scott's larger-than-life persona from his early days to his untimely death, which left a hole in genre filmmaking yet to be filled. Future Noir: The Making of Blade Runner Paul M. Sammon, 1996-05-01. The 1992 release of

the Director's Cut only confirmed what the international film cognoscenti have known all along: Ridley Scott's *Blade Runner* based on Philip K. Dick's brilliant and troubling SF novel *Do Androids Dream of Electric Sheep?* still rules as the most visually dense, thematically challenging and influential SF film ever made. *Future Noir* is the story of that triumph. The making of *Blade Runner* was a seven-year odyssey that would test the stamina and the imagination of writers, producers, special effects wizards and the most innovative art directors and set designers in the industry. A fascinating look at the ever-shifting interface between commerce and the art that is modern Hollywood. *Future Noir* is the intense, intimate, anything-but-glamorous inside account of how the work of SF's most uncompromising author was transformed into a critical sensation, a commercial success and a cult classic.

[Off the Cliff](#) Becky Aikman, 2018-08-07 A lively and revealing behind-the-scenes look at the making of one of history's most controversial and influential movies, drawing on exclusive interviews with the cast and crew. 'You've always been crazy,' says Louise to Thelma shortly after she locks a police officer in the trunk of his car. This is just the first chance you've had to express yourself. In 1991, *Thelma & Louise*, the story of two outlaw women on the run from their disenchanted lives, was a revelation. Suddenly, a film existed in which women were in every sense behind the wheel. It turned the tables on Hollywood, instantly becoming a classic and continuing to electrify audiences as a cultural statement of defiance. In *Off the Cliff*, Becky Aikman tells the full extraordinary story behind this feminist sensation, which crashed through barricades and upended convention. Drawing on 130 exclusive interviews with the key players from this remarkable cast of actors, writers and filmmakers, Aikman tells an inspiring and important underdog story about creativity, the magic of cinema and the unjust obstacles that women in Hollywood continue to face to this day.
