Weaponry of the World's Armed Forces Col. Y Udaya Chandar (Retd.),2017-04-24 The Modern Weaponry of the World's
Armed Forces is a treatise of military weaponry It depicts about forty present day weapon systems possessed by various
nations describing three to four weapons of each category with images specifications origin development and design briefly
The weapon systems presented are almost all from the twenty first century or the weapons presently under development Only
a very few officers in the three services know the finer distinctions between say cruise missile and ballistic missile
fourth generation jet fighter and fifth generation jet fighter and howitzer and a field gun All such nuances are explained
clearly The beginning explains the history of military weapons briefly and ends with information on the missile shield erected
by most countries including India The missile shield destroys the hostile incoming aircraft or missile automatically The
missile shield presented is real existson the ground today and not fictitious The militaries win the war with the help of the
man who stands erect in the face of the enemy fire and the weapon that is in his hands All the students of military science
must read this invaluable book about the gun in the hands of a soldier what exactly it is and how much it matters **Sniping**
Rifles on the Eastern Front 1939-45 Martin Pegler,2019-03-21 The Soviet Union had developed a significant sniping force
by 1939 but the extraordinary skill and cunning displayed by Finnish snipers during the Winter War forced the Soviets to
innovate On the other side German sniping suffered from a lack of standardization of weapons and a lack of marksmen
deployed at the start of the Great Patriotic War 1941-45 There were few heroes in the conflict but on both sides the snipers
were idolized especially on the Soviet side gaining almost mythical status As well as traditional bolt action weapons both
sides used several types of semi automatic rifle such as the SVT 38 and the Gew 41 Offering greater firepower at the expense
of long range accuracy such weapons would be profoundly influential in the postwar world Fully illustrated this absorbing
study investigates the development of sniping weapons and techniques on World War II's Eastern Front **The G.I.**
Collector's Guide Henri-Paul Enjames,2022-09-21 In World War II the U S Army not only supplied its soldiers with the most
modern equipment and uniforms suitable for any combat situation but went as far as providing them with their favorite
drinks or candy bars and seemingly anything else they might require This comprehensive reference book brings together all
the equipment issued to American soldiers in the European Theater of Operations 1943-45 Each item is presented with its
catalog numbers described in detail and fully depicted in photographs including close ups of the labels to aid identification of
items Graphics and diagrams offer additional information and context There are chapters on everything from uniform
insignia and small arms issued to the individual through crew served weapons rations tents to sports and recreation
equipment There is full coverage of the specialist items issued to Airborne Armored and Mountain troops engineers
signallers Military Police medics chaplains and female personnel From the chewing gum included in K rations through to
artillery laying equipment mess trays to portable altars and field harmoniums this photographic reference gives a unique

insight into the world of the U S Army in World War II As a complete catalog with high quality photographs this book is invaluable to both family historians researching grandpa s kit found in the attic and to collectors in their quest to find authentic items among the reproductions that flood the modern market Hunter-trader-trapper ,1922 **The**
