Counterinsurgency Lessons from Malaya and Vietnam John Nagl,2002-10-30 Armies are invariably accused of preparing to fight the last war Nagl examines how armies learn during the course of conflicts for which they are initially unprepared in organization training and mindset He compares the development of counterinsurgency doctrine and practice

in the Malayan Emergency from 1948 1960 with that developed in the Vietnam Conflict from 1950 1975 through use of archival sources and interviews with participants in both conflicts In examining these two events he argues that organizational culture is the key variable in determining the success or failure of attempts to adapt to changing circumstances Differences in organizational culture is the primary reason why the British Army learned to conduct counterinsurgency in Malaya while the American Army failed to learn in Vietnam The American Army resisted any true attempt to learn how to fight an insurgency during the course of the Vietnam Conflict preferring to treat the war as a conventional conflict in the tradition of the Korean War or World War II The British Army because of its traditional role as a colonial police force and the organizational characteristics that its history and the national culture created was better able to quickly learn and apply the lessons of counterinsurgency during the course of the Malayan Emergency This is the first study to apply organizational learning theory to cases in which armies were engaged in actual combat

Soldiers of the Sea
Robert Debs Heinl, 1991 From the War of Independence through the dark days of the Cold War the Marines have fought in all the nation's wars Their readiness and prompt action at Harper's Ferry stopped John Brown's insurrection in its tracks In 1917 as the First to Fight slogan demonstrated its electric effect the 5th Marines sailed for France and joined up with the first convoy at sea anxious to get on with the war With courage discipline and typical small unit initiative the Marines triumphed at Belleau Wood a victory that was to advantageously affect the quality and thinking of the Marine Corps ever after Yet it is no accident that so much of the Marine Corps fighting and expeditionary service has taken place between the major wars Marines could be found detaining Abraham Lincoln's suspected assassins aboard the Montauk conducting minor landings in Nicaragua or Korea in the late nineteenth century or battling rebels in Haiti or Cuba in the twentieth century Their flexibility and adaptability has earned them a solid reputation as a preeminent fighting force Their contributions to America's military force have been many Development of amphibious warfare during World War II was undoubtedly one of the most important tactical innovations in our history As larger military services are reduced between wars the Corps traditional role as a force in readiness becomes more essential for peacetime strength And when the Marines are called to action their preparedness and effectiveness as a maritime fighting team is unequalled
