

- ▶ Should different genes be manipulated? Should humans be cloned? Those are important questions.
- ▶ Scientific knowledge should be used wisely. It is not just up to the scientific community to determine what that is, but society as a whole.

## ETHICAL ISSUES IN HUMAN GENETICS

# Right To Be Born Healthy The Ethical Problems Of Human Genetics In Hungary

**National Library of Medicine (U.S.)**

## **Right To Be Born Healthy The Ethical Problems Of Human Genetics In Hungary:**

The Right to be Born Healthy Endre Czeizel, 1988      *The Right to be Born Healthy* Endre Czeizel, 1988      *Ethics and Human Genetics* Dorothy C. Wertz, John C. Fletcher, 2012-12-06 Based in part on a survey of ethical decision making among 682 medical geneticists worldwide this book includes a chapter authored by a geneticist and an ethicist in 19 nations describing genetic services counselling screening prenatal diagnosis and major ethical problems and social controversies faced by geneticists The concluding chapter describes ethical and policy issues that exist worldwide and offers some possible resolutions      **Genetics and Ethics in Global Perspective** Dorothy C. Wertz, John C. Fletcher, 2012-12-06 Dorothy Wertz and John Fletcher pioneered the first international study of ethical and social issues in genetics in 18 nations This book reports and discusses their second and more representative study in 36 nations The survey focused on actual situations that occur in the practice of medical genetics presented as case vignettes that can also be used in teaching and policy discussion Among the issues discussed are privacy prenatal diagnosis patient autonomy directiveness in counseling sex selection forensic DNA banking genetic discrimination and eugenics This is Dorothy Wertz's final book as she died in April 2003 It is a one of a kind cross cultural study of complex ethical issues in the uses of genetic information No one else has attempted to look at the international aspects of medical genetics on such a broad scale The results provide a resource for discussion both within and among nations Much bioethical and policy discussion now occurs in an information vacuum The survey showed that what people would do and their reasons for doing it differed considerably from what ethicists think they should do Many will be surprised at the results especially in nations where bioethical discussion is just beginning *Genetics and Ethics in Global Perspective* is of interest to medical geneticists genetic counselors social scientists and anthropologists who study cross cultural issues bioethicists and bioethics centers and health policy makers      *Public Health Reports*, 1989      Issues in Reproductive Technology Helen B. Holmes, 1994-08 A remarkable collection of scholarly essays philosophical discussions and ethical arguments concerning reproductive choices Choice It seems as if every week there is a new case involving reproductive technologies that raises provocative often painful questions What policies should be followed by centers that preserve human embryos Are such innovations as Norplant improvements over established methods of contraception Should RU 486 be available in the U S Is prenatal diagnosis an ethically acceptable step to limiting the number of disabled people These are just some of the vital questions explored in this timely work which offers incisive analysis of the plethora of issues raised by advances in reproductive medicine The book's major sections cover abortion contraception cryopreservation of gametes and embryos surrogate motherhood and psychosocial issues of in vitro fertilization In each section introductory essays by recognized authorities such as Elizabeth Bartholet and Andrea L. Bonnicksen are followed by critical articles by professionals in such fields as women's health medicine biology sociology politics and philosophy In assessing a technology the authors present well argued analyses of problems created by that technology including views from advocates and

practitioners that raise attendant ethical and practical issues      **Genetics, Ethics, and Human Values** Zbigniew Bańkowski,1991      *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70      **Healing Technology** Kathryn Strother Ratcliff,1989 Provides a framework for understanding forces that produce and promote technologies that affect women's health      **Public health reports** ,1989      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1985      Bibliography of Bioethics LeRoy Walters,1975      *Shaping Genes; Ethics, Law and Science of Using Genetic Technology in Medicine and Agriculture* Macer, D. R. J.,1990      *Bibliography, Ethical Legal & Social Implications of the Human Genome Project* ,1992      **New Reproductive Technologies** Canada. Royal Commission on New Reproductive Technologies,1993 The first paper in this volume of studies presents the ethical framework the Commission adopted a modified ethic of care and a set of guiding principles that were used as a prism through which to view the technologies The volume then goes on to explore some of the ethical issues raised by the development and use of new reproductive technologies      *ELSI Bibliography* ,1993      *elsi bibliography* us department of energy office of energy research,1993      **Whitaker's Book List** ,1988      **Journal of Medical Genetics** ,1988      **Bibliography** ,1992
