Student Activism and Civil Rights in Mississippi James P. Marshall, 2013-03-11. In the 1890s, Mississippi society still drew a sharp line between its African American and white communities by creating a repressive racial system that ensured white supremacy by legally segregating black residents and removing their basic citizenship and voting rights. Over the ensuing decades, white residents suppressed African Americans who dared defy that system with an array of violence, terror, and murder. In 1960, students supporting civil rights moved into Mississippi and challenged this repressive racial order by encouraging African Americans to reassert the rights guaranteed under the Fourteenth and Fifteenth Amendments to the United States Constitution. The ensuing social upheaval changed the state forever. In *Student Activism and Civil Rights in Mississippi*, James P. Marshall, a former civil rights activist, tells the complete story of the quest for civil rights in Mississippi. Using a voluminous array of sources as well as his own memories, Marshall weaves together an astonishing account of student protestors and local activists who risked their lives for equality, standing between southern resistance and federal inaction. Their efforts and the horrific violence inflicted on them helped push many non-southerners and the federal government into action, culminating in the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act, measures that destroyed legalized segregation and disfranchisement. Ultimately, Marshall contends, student activism in Mississippi helped forge a consensus by reminding the American public of its forgotten promises and by educating the nation to the fact that African Americans in the South deserved to live as free and equal citizens.

Re-Membering and Surviving Shirley A. James Hanshaw, 2020-10-01. The first book-length critical study of the black experience in the Vietnam War and its aftermath, this text interrogates the meaning of heroism based on models from African and African American expressive culture. It focuses on four novels: *Captain Blackman* 1972 by John A. Williams, *Tragic Magic* 1978 by Wesley Brown, *Coming Home* 1971 by George Davis, and *De Mojo Blues* 1985 by A. R. Flowers. Discussions of the novels are framed within the historical context of all wars prior to Vietnam in which Black Americans fought. The success or failure of the hero on his identity quest is predicated upon the extent to which he can reconnect with African or African American cultural memory. He is engaged, therefore, in re-membering, a term laden with the specificity of race that implies a cultural history comprised of African retentions and an interdependent relationship with the community.

for survival The reader will find that a common history of racism and exploitation that African Americans and Vietnamese share sometimes results in the hero's empathy with and compassion for the so-called enemy a unique contribution of the black novelist to American war literature *Southern Black Women in the Modern Civil Rights Movement* Bruce A. Glasrud, Merline Pitre, 2013-03-28 Throughout the South black women were crucial to the Civil Rights Movement serving as grassroots and organizational leaders They protested participated sat in mobilized created energized led particular efforts and served as bridge builders to the rest of the community Ignored at the time by white politicians and the media alike with few exceptions they worked behind the scenes to effect the changes all in the movement sought Until relatively recently historians too have largely ignored their efforts Although African American women mobili **Africana Studies** James L. Conyers, 1997 Known variously as African studies black studies African American studies Afro American studies and Africology the academic study of the African diaspora as a holistic discipline is a relatively new phenomenon University programs have been created with reference to a disciplinary matrix retarding the development of appropriate theory and methods throughout Africana studies Fifteen leaders in the field of Africana studies provide the conceptual framework for establishing the field as a mature discipline The focus is on four basic areas administration and organizational structure disciplinary matrix Africana womanism and cultural aesthetics The work examines both the theory and the method of scholars in African and African diaspora studies **The Civil Rights Theatre Movement in New York, 1939-1966** Julie Burrell, 2019-03-27 This book argues that African American theatre in the twentieth century represented a cultural front of the civil rights movement Highlighting the frequently ignored decades of the 1940s and 1950s Burrell documents a radical cohort of theatre artists who became critical players in the fight for civil rights both onstage and offstage between the Popular Front and the Black Arts Movement periods The Civil Rights Theatre Movement recovers knowledge of little known groups like the Negro Playwrights Company and reconsiders Broadway hits including Lorraine Hansberry's *A Raisin in the Sun* showing how theatre artists staged radically innovative performances that protested Jim Crow and U.S. imperialism amidst a repressive Cold War atmosphere By conceiving of class and gender as intertwining aspects of racism this book reveals how civil rights theatre artists challenged audiences to reimagine the fundamental character of American democracy
