S. Reaney,2024-01-30 Reprint of the original first published in 1875 , **Dictionary of British**

Cartoonists and Caricaturists Mark Bryant, Simon Heneage, 2022-01-25 Originally published in 1994 this dictionary provides a unique who's who of the major figures in the world of British cartoons and caricatures. It was the first book to encompass the entire field from c 1730 when Hogarth published the first of his modern moral pictures to 1980. In addition to describing the careers and achievements of the artists and the characteristics of their styles, more than 500 entries give details of their publications, their illustrations to books and periodicals, exhibitions of their work, public collections in which their work is represented, and literature on or referring to them. More than 150 illustrations are included. This is a comprehensive reference work and will be of interest to social and political historians as well as cartoon and caricature enthusiasts.

Childhood into Adolescence John Newson, Elizabeth Newson, 2018-10-25 This book is about the lives of 11 year old children growing up in a Midlands city in the late 60s and early 70s. Based on interviews with their parents, it describes family life at the time as well as the experiences, hopes, and concerns of the children as they themselves become adolescents. The book reflects upon the changes that occur for children in the transitional period between childhood and adolescence. It looks at the friendship patterns of eleven year olds, their special interests and activities, and how they spend their leisure time, as well as describing the children's worries and concerns as perceived by their parents. It also considers family life and parental issues in the context of children's growing independence and their developing sexual maturity. Originally written in the 1980s but recently discovered and published now for the first time, this is the fifth book in the series of long term investigations of child up-bringing by John and Elizabeth Newson, distinguished child psychologists at the University of Nottingham. Their research began in the late 1950s when the cohort of children was a year old; their mothers were subsequently interviewed at intervals as the children grew up. This fifth volume draws links between the material from interviews with parents when their sons and daughters were seven, eleven, sixteen, and nineteen years, and also invites comparison with the lives of children growing up now. The final chapter reviews the book series and the Newsons' research programme. This exceptional book will be of interest to psychologists and other academics interested in child development, as well as professionals involved in work with children and adolescents, such as teachers, doctors, nurses, and social workers. It also has great historical significance with its potential for comparisons between the lives of children and adolescents now with those growing up some 50 years ago.

Dress Codes Noelle Howey, 2003-05-02 An intensely felt and extraordinary family memoir by Noelle Howey who characterizes her touching and confusing sexual journey into womanhood as influenced by her relationship with her transgendered father and tomboy mother. Throughout her childhood in suburban Ohio, Noelle struggled to gain love and affection from her distant father. In compensating for her father's brusqueness, Noelle idolized her nurturing tomboy mother and her conservative grandma who tried to turn her into a little lady. At age fourteen, Noelle's mom told her the family secret: Dad likes to wear women's clothes. As Noelle copes with a turbulent adolescence, her father begins to metamorphose into the loving parent she had always longed for, only now outfitted in pedal pushers and pink lipstick. With

edgy humor courage and remarkable sensitivity Noelle Howey challenges all of our beliefs in what constitutes gender and a normal family
