Right Wing Individualist Tradition In Am:

The American as Anarchist David DeLeon, 2019-12-01 Originally published in 1978 When compared with socialist and communist systems in other nations the impact of radicalism on American society seems almost nonexistent David DeLeon challenges this position however by presenting a historical and theoretical perspective for understanding the scope and significance of dissent in America From Anne Hutchinson in colonial New England to the New Left of the 1960s DeLeon underscores a tradition of radical protest that has endured in American history a tradition of native anarchism that is fundamentally different from the radicalism of Europe the Soviet Union or nations of the Third World DeLeon shows that a profound resistance to authority lies at the very heart of the American value system The first part of the book examines how Protestant belief capitalism and even the American landscape itself contributed to the unique character of American dissent DeLeon then looks at the actions and ideologies of all major forms of American radicalism both individualists and communitarians from laissez faire liberals to anarcho capitalists from advocates of community control to syndicalists In the book s final part DeLeon argues against measuring the American experience by the standards of communism and other political systems Instead he contends that American culture is far more radical than that of any socialist state and the implications of American radicalism are far more revolutionary than forms of Marxism Leninism [An Analysis of Georges](#)

[Lefebvre's The Coming of the French Revolution](#) Tom Stammers, 2017-07-05 Georges Lefebvre was one of the most highly regarded historians of the 20th century and a key reason for the high reputation he enjoys can be found in *The Coming of the French Revolution* Lefebvre s key contribution to the debate over what remains arguably one of history s most contentious and significant events in history was to deploy the critical thinking skill of evaluation to reveal weaknesses in existing arguments about the causes of the Revolution and analytical skills to expose hidden assumptions in them Rather than seeing events as driven by the aristocracy and the bourgeoisie which then lost power to the urban workers as was usual at the time Lefebvre deployed years of research in regional archives to argue that the Revolution had had a fourth pillar the peasantry Painting the upheaval as complex and multi layered while still privileging a predominantly economic interpretation Lefebvre provides a compelling new narrative to explain why the French monarchy collapsed so suddenly in 1789 one that stressed the significance of a popular revolution in the rural countryside *America Right or Wrong : An Anatomy of American*

Nationalism Anatol Lieven Senior Associate for Foreign and Security Policy Carnegie Endowment for International Peace, 2004-10-15 America keeps a fine house Anatol Lieven writes but in its cellar there lives a demon whose name is nationalism In this controversial critique of America s role in the world Lieven contends that U S foreign policy since 9 11 has been shaped by the special character of our national identity which embraces two contradictory features One The American Creed is a civic nationalism which espouses liberty democracy and the rule of law It is our greatest legacy to the world But our almost religious belief in the Creed creates a tendency toward a dangerously messianic element in American nationalism

the desire to extend American values and American democracy to the whole world irrespective of the needs and desires of others The other feature populist or what is sometimes called Jacksonian nationalism has its roots in an aggrieved embittered and defensive White America centered largely in the American South Where the Creed is optimistic and triumphalist Jacksonian nationalism is fed by a profound pessimism and a sense of personal social religious and sectional defeat Lieven examines how these two antithetical impulses have played out in recent US policy especially in the Middle East and in the nature of U S support for Israel He suggests that in this region the uneasy combination of policies based on two contradictory traditions have gravely undermined U S credibility and complicated the war against terrorism It has never been more vital that Americans understand our national character This hard hitting critique directs a spotlight on the American political soul and on the curious mixture of chauvinism and idealism that has driven the Bush administration **Instead of a Book**

Theodore De Bary,William Theodore De

Bary,2008 Wm Theodore de Bary offers a selection of essential readings from his immensely popular anthologies Sources of Chinese Tradition Sources of Korean Tradition and Sources of Japanese Tradition so readers can experience a concise but no less comprehensive portrait of the social intellectual and religious traditions of East Asia A Voice Still Heard Irving Howe,2014-10-28 Man of letters political critic public intellectual Irving Howe was one of America s most exemplary and embattled writers Since his death in 1993 at age 72 Howe s work and his personal example of commitment to high principle both literary and political have had a vigorous afterlife This posthumous and capacious collection includes twenty six essays that originally appeared in such publications as the New York Review of Books the New Republic and the Nation Taken together they reveal the depth and breadth of Howe s enthusiasms and range over politics literature Judaism and the tumults of American society A Voice Still Heard is essential to the understanding of the passionate and skeptical spirit of this lucid writer The book forms a bridge between the two parallel enterprises of culture and politics It shows how politics justifies itself by culture and how the latter prompts the former Howe s voice is ever sharp relentless often scathingly funny revealing Howe as that rarest of critics a real reader and writer one whose clarity of style is a result of his disciplined and candid mind

Libertarian Thought in Nineteenth Century Britain William R. McKercher,2016-07-22 This book first published in 1987 aims to characterise and identify the intellectual heritage of the proponents of the libertarian tradition To set this within a theoretical framework these ideas will be examined by using the pragmatic and conceptual formulations of freedom

and authority two notions which are central to any understanding of political philosophy in the nineteenth and twentieth century This title will be of interest to students of history philosophy and politics *Nietzsche & Anarchism: An Elective Affinity and a Nietzschean reading of the December '08 revolt in Athens* Christos Iliopoulos,2019-10-15 This book aims to establish the bond between Friedrich Nietzsche and the anarchists through the apparatus of elective affinity and to challenge the boundaries of several anarchist trends especially classical and post anarchism and ideologies like anarchism and libertarian Marxism Moreover it highlights the importance of reading Nietzsche politically in a radical way to understand his utility for the contemporary anarchist movement The review of the literature concerning the Nietzsche anarchy relationship shows the previously limited bibliography and stresses the possibility of exploring this connection with the methodological help of Michael L wy s concept of elective affinity The significance of this finding is that the relevant affinity may contribute to an alternative to the dominant perception of anarchism as an ideology It may also designate its special features together with its weaknesses meaning the objections of Nietzsche to certain aspects of the anarchist practices and worldview violence resentment bad conscience thus opening a whole new road of self criticism for the anarchists of the twenty first century In addition the location and analysis of the elective affinity serves the debunking of the Nietzschean concepts used by conservative and right wing readings in order to appropriate Nietzsche and of the accusations that the German philosopher had unleashed against anarchists which reveals his misunderstanding of anarchist politics The final part of this book applies the whole analysis above on a Nietzschean reading of the December 08 revolt in Athens based on the Of the Three Metamorphoses discourse from Thus Spoke Zarathustra offering an alternative view of the events that shook Greece and also had an important global impact

Education Policy and the Political Right Grant Rodwell,2021-12-28 This work attempts a comparative description and analysis focusing on the US the UK and Australia on the topic of the Right educational policy and schooling It adopts as its underlying theme the burning fuse in tracing the topic back to Joseph de Maistre a Rightist who fled revolutionary France to seek safety in the company of Tsar Alexander I s Russian Empire Here he had much to say about school education not for all but rather the deserving social elite During the past three or four decades in the US the UK and Australia the Right has been remarkably successful in amassing political power And in doing so the right of politics in these countries has reshaped school educational policy and practice a necessary step in securing the future of the Right as a political force Moreover even during the years the Right has been on the opposition benches in these countries such has been the strength of their political force that governments of the Left have acquiesced to much of their school educational policy A pioneering effort this book asserts that to understand school educational policy in the third decade of the 21st century we need to comprehend the politics of the Right This book will be of interest to researchers and postgraduate students interested in Education Studies Theory and Policy and International and Comparative Education

Human By Nature Peter Weingart,Sandra D. Mitchell,Peter J. Richerson,Sabine Maasen,2013-06-17 Representing a wide

range of disciplines biology sociology anthropology economics human ethology psychology primatology history and philosophy of science the contributors to this book recently spent a complete academic year at the Center for Interdisciplinary Research ZiF discussing a plethora of new insights in reference to human cultural evolution These scholars acted as a living experiment of interdisciplinarity in vivo The assumption of this experiment was that the scholars while working and residing at the ZiF would be united intellectually as well as socially a connection that might eventually enhance future interdisciplinary communication even after the research group had dispersed An important consensus emerged The issue of human culture poses a challenge to the division of the world into the realms of the natural and the cultural and hence to the disciplinary division of scientific labor The appropriate place for the study of human culture in this group's view is located between biology and the social sciences Explicitly avoiding biological and sociological reductionisms the group adopted a pluralistic perspective integrative pluralism that took into account both today's highly specialized and effective sub disciplinary research and the possibility of integrating the respective findings on a case by case basis Each sub group discovered its own way of interdisciplinary collaboration and submitted a contribution to the present volume reflecting one of several types of fruitful cooperation such as a fully integrated chapter a multidisciplinary overview or a discussion between different approaches A promising first step on the long road to an interdisciplinarily informed understanding of human culture this book will be of interest to social scientists and biologists alike

The Films of Stan Brakhage in the American Tradition of Ezra Pound, Gertrude Stein and Charles Olson R. Bruce Elder, 2011-08-26 Since the late 1950s Stan Brakhage has been in the forefront of independent filmmaking His body of work some seventy hours is one of the largest of any filmmaker in the history of cinema and one of the most diverse Probably the most widely quoted experimental filmmaker in history his films typify the independent cinema Until now despite well deserved acclaim there has been no comprehensive study of Brakhage's oeuvre The Films of Stan Brakhage in the American Tradition fills this void R Bruce Elder delineates the aesthetic parallels between Brakhage's films and a broad spectrum of American art from the 1920s through the 1960s This book is certain to stir the passions of those interested in artistic critique and interpretation in its broadest terms

Religious Education in a World of Religious Diversity Wilna A.J. Meijer, Siebren Miedema, Alma Lanser-van der Velde, 2009

This volume brings together a selection of papers presented at the Fifteenth Session of the International Seminar on Religious Education and Values ISREV which took place in 2006 in Driebergen the Netherlands addressing the theme Religious Education in a World of Religious Diversity The authors were invited to combine the concept of diversity with the dimensions of temporality of time and history in reworking their contributions for this book This temporal aspect is in a sense inherent in educational thinking On the one hand education as intergenerational transmission has a conservative aspect tradition being what is actually and presently transmitted from the past and or what is considered worthwhile to be passed on On the other hand acknowledging the activity of students themselves as a prerequisite for any education to happen brings the open endedness and therefore the future into the pedagogical arena in terms of development learning reflection edification et cetera So the question answered in this volume is what does this inherent historicity mean for religious education as well as for the concept religion and religious diversity In answering this question the contributions represent the global character of the concern with religious diversity in relation to religious education and originate respectively from the following countries Canada Bhikkhu English United States Moran Latvia Ilshko Russia Kozyrev Germany Pirner South Africa Roux du Preez Ferguson Japan Omori Australia de Souza Turkey Sel uk and the Netherlands Meijer Miedema
