The Rights of the Poor, and the Poor Laws, 1833 *Legal Rights of the Poor* Naresh Singh, 2014-11-10 This book seeks to be relevant to the call to address inequalities injustice human rights and social exclusion in a more integrated holistic and transformative manner It seeks to do so by looking at what we have learned in both the development and human rights communities Further it addresses fundamental obstacles that neither community has dealt with in this context such as changing power relations The book builds on the report of the Commission on Legal Empowerment of the Poor entitled Making the Law Work for Everyone and draws from a wide range of published literature on relevant issues not covered in the report Calls for holistic and transformative approaches are familiar in development circles but putting these approaches into practice require a knowledge base beyond that covered in the traditional development literature The book brings together this diverse literature in one place at a time when the international community is about to embark on a new era of development cooperation commonly referred to as the post 2015 agenda The subjects covered therefore include a review of successful and unsuccessful approaches to reducing poverty and inequality life in slums the informal sector where the majority of the poor live the legal empowerment of the poor changing power relations between the haves and the have nots and the holistic sustainable livelihoods approach in the development of which the author has played a lead role

The Extension of Legal Services to the Poor, 1964 **The Option for the Poor in Christian Theology** Daniel G. Groody, 2007-04-01 Since the publication of Gustavo Gutierrez's 1973 groundbreaking work *A Theology of Liberation* much has been written on liberation theology and its central premise of the preferential option for the poor Arguably this has been one of the most important yet controversial theological themes of the twentieth century As globalization creates greater gaps between the rich and the poor and as the situation for many of the world's poor worsens there is an ever greater need to understand the gift and challenge of Christian faith from the context of the poor and marginalized of our society This volume draws on the thought of leading international scholars and explores how the Christian tradition can help us understand the theological foundations for the option for the poor The central focus of the book revolves around the question How can one live a Christian life in a world of destitution The contributors are concerned not only with a social economic or political understanding of poverty but above all with the option for the poor as a theological concept While these essays are rooted in a solid grounding of our present reality they look to the past to understand some of the central truths of Christian faith and to the future as a source of Christian hope Following Gustavo Gutierrez's essay on the multidimensionality of poverty Elsa Tamez Hugh Page Jr Brian Daley and Jon Sobrino identify a central theological premise poverty is contrary to the will of God Drawing on scripture the writings of the early fathers the witness of Christian martyrs and contemporary theological reflection they argue that poverty represents the greatest

challenge to Christian faith and discipleship David Tracy and J Matthew Ashley carry their reflection forward by examining the option for the poor in light of apocalyptic thought Virgilio Elizondo Patrick Kalilombe Mar a Pilar Aquino M Shawn Copeland and Mary Catherine Hilkert examine the challenges of poverty with respect to culture Africa race and gender Casiano Florist n and Luis Maldonado explore the relationship between poverty sacramentality and popular religiosity The final two essays by Aloysius Pieris and Michael Signer consider the option for the poor in relationship to other major world religions particularly an Asian theology of religions and the meaning of care for the poor within Judaism

Humanities and Option for the Poor Clemens Sedmak,2005 The concept of a preferential option for the poor calls for a special attention to the weakest members of a particular society Such an option is a challenge for the ethics of science as well How can we pursue an option for the poor in the humanities Can we do that without generating ideologies This volume gives an account of these questions Representatives of sociology religious studies law economics theology history and philosophy try to answer this question It is manifest that the discussion of an option for the poor is also a matter of intellectual integrity

Common Pierre Dardot,Christian Laval,2019-01-24 Around the globe contemporary protest movements are contesting the oligarchic appropriation of natural resources public services and shared networks of knowledge and communication These struggles raise the same fundamental demand and rest on the same irreducible principle the common In this exhaustive account Pierre Dardot and Christian Laval show how the common has become the defining principle of alternative political movements in the 21st century In societies deeply shaped by neoliberal rationality the common is increasingly invoked as the operative concept of practical struggles creating

new forms of democratic governance In a feat of analytic clarity Dardot and Laval dissect and synthesize a vast repository on the concept of the commons from the fields of philosophy political theory economics legal theory history theology and sociology Instead of conceptualizing the common as an essence of man or as inherent in nature the thread developed by Dardot and Laval traces the active lives of human beings only a practical activity of commoning can decide what will be shared in common and what rules will govern the common s citizen subjects This re articulation of the common calls for nothing less than the institutional transformation of society by society it calls for a revolution

The Idea of Poverty Paul Spicker,2007-01-10 Paul Spicker examines views about what poverty is and what should be done about it Poverty means many different things to different people for example lack of money or dependency on benefits Here he makes an argument for a participative inclusive understanding of the term

Riches for the Poor: The Clemente Course in the Humanities Earl Shorris,2000-09-17 You ve been cheated Earl Shorris tells a classroom of poor people in New York City Rich people learn the humanities you didn t It is generally accepted in America that the liberal arts and humanities in particular belong to the elite I think you re the elite In this groundbreaking work Shorris examines the nature of poverty in America today Why are people poor and why do they stay poor Shorris argues that they lack politics or the ability to participate fully in the public world knowing only the immediacy and oppression of force the poor remain trapped and isolated To test his theory Shorris creates an experimental school teaching the humanities to poor people giving them the means to reflect and negotiate rather than react The results are nothing short of astonishing Originally published in hardcover under the title *New American Blues*
