

Patient Rights in Hospital

One of the best Patient rights in a hospital is essential to ensure their safety, well-being, and autonomy. Patient healthcare delivery is becoming very specialized for Medical Harm happens when this coordination lacks due to communication failure.

Privacy and Confidentiality:

These Patients have the right to expect that their medical information and records will be kept confidential.

Healthcare providers should only share this information with authorized individuals involved in their care. Patients have the right to refuse or discontinue treatment, even if it goes against medical advice.

Their Patient's healthcare providers include clear and understandable explanations about their condition, treatment options, and progress.
