Rights Of Others Aliens Residents And Citizens

Seyla Benhabib, Judith Resnik

Rights Of Others Aliens Residents And Citizens:

The Rights of Others Seyla Benhabib, 2004-11-25 The Rights of Others examines the boundaries of political community by focusing on political membership the principles and practices for incorporating aliens and strangers immigrants and newcomers refugees and asylum seekers into existing polities Boundaries define some as members others as aliens But when state sovereignty is becoming frayed and national citizenship is unravelling definitions of political membership become much less clear Indeed few issues in world politics today are more important or more troubling In her Seeley Lectures the distinguished political theorist Seyla Benhabib makes a powerful plea echoing Immanuel Kant for moral universalism and cosmopolitan federalism She advocates not open but porous boundaries recognising both the admittance rights of refugees and asylum seekers but also the regulatory rights of democracies The Rights of Others is a major intervention in contemporary political theory of interest to large numbers of students and specialists in politics law philosophy and international relations

An Analysis of Seyla Benhabib's The Rights of Others Burcu Ozcelik, 2018-05-14 In The Rights of Others Benhabib argues that the transnational movement of people across the globe has brought to the fore fundamental dilemmas facing liberal democracies tension between a state's commitment to universal human rights and to its sovereign self determination and its claims to regulate its national borders on the other Re conceptualises the boundaries of political membership in liberal democracies instead proposing porous borders rather than open ones and a right to just membership advocating cosmopolitan federalism in the tradition of Kant Banhabib's work goes to the heart of key issues faced in a world of forced displacement Brexit and increased protectionism *Citizenship as a Human Right* Gonçalo Matias, 2016-06-30 This book examines a stringent problem of current migration societies whether or not to extend citizenship to resident migrants Undocumented migration has been an active issue for many decades in the USA and became a central concern in Europe following the Mediterranean migrant crisis In this innovative study based on the basic principles of transnational citizenship law and the naturalization pattern around the world Matias purports that it is possible to determine that no citizen in waiting should be permanently excluded from citizenship Such a proposition not only imposes a positive duty overriding an important dimension of sovereignty but it also gives rise to a discussion about undocumented migration With its transnational law focus and cases from public international law courts European courts and national courts Citizenship as a Human Right The Fundamental Right to a Specific Citizenship may be applied to virtually anywhere in the world

The Human Right to Citizenship Rhoda E. Howard-Hassmann, Margaret Walton-Roberts, 2015-07-16 The Human Right to Citizenship provides an accessible overview of citizenship around the globe focusing on empirical cases of denied or weakened legal rights This wide ranging volume provides a theoretical framework to understand the particular ambiguities paradoxes and evolutions of citizenship regimes in the twenty first century **Citizenship** Elizabeth F. Cohen, Cyril Ghosh, 2019-07-09 Although we live in a period of unprecedented globalization and mass migration many contemporary western liberal democracies are asserting

their sovereignty over who gets to become members of their polities with renewed ferocity Citizenship matters more than ever In this book Elizabeth F Cohen and Cyril Ghosh provide a concise and comprehensive introduction to the concept of citizenship and evaluate the idea s continuing relevance in the 21st century They examine multiple facets of the concept including the classic and contemporary theories that inform the practice of citizenship the historical development of citizenship as a practice and citizenship as an instrument of administrative rationality as well as lived experience They show how access to a range of rights and privileges that accrue from citizenship in countries of the global north is creating a global citizenship based caste system This skillful critical appraisal of citizenship in the context of phenomena such as the global refugee crisis South North migration and growing demands for minority rights will be essential reading for students and scholars of citizenship migration studies and democratic theory

Contingent Citizenship Sandra Mantu,2015-09-07

In Contingent citizenship Sandra Mantu examines the changing rules of citizenship deprivation in the UK France and Germany from the perspective of international and European legal standards In practice two grounds upon which loss of citizenship takes place stand out fraud in the context of fraudulent acquisition of nationality and terrorism in the context of national security Newly naturalised citizens and citizens of immigrant origin are mainly targeted by these measures The resurrection of the importance attached to loyalty as the citizen s main duty towards his her state shows that the rules on loss of citizenship are capable of expressing ideals of membership and identity while the citizenship status of certain citizens remains contingent upon meeting these ideals

Citizenship and Genocide Cards Natalie Brinham,2024-10-30 This book draws on Rohingya oral histories and narratives about Myanmar s genocide and ID schemes to critique prevailing international approaches to legal identities and statelessness By centring the narratives of survivors of state crimes collected in the aftermath of the 2017 genocidal violence this book examines the multiple uses of state issued ID cards and registration documents in producing statelessness and facilitating genocide In doing so it challenges some of the international solutions put forward to resolve statelessness Rohingya narratives disrupt a simple linear understanding of documenting legal identity that marginalises experiences of these processes The richly layered accounts of the effects of citizenship laws and registration processes on the lives of Rohingya problematise the ways in which international actors have endorsed state ID schemes and by passed state led persecution of the group This book will be valuable for scholars studying global criminology state crime development studies refugee and migration studies statelessness and nationality citizenship studies and genocide studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution CC BY 4 0 license

Global Democracy and Exclusion Ronald Tinnevelt,Helder De

Schutter,2011-07-12 The essays in this book explore the consequences of globalization for democracy covering issues which include whether democracy implies exclusion or borders and whether it is possible to create a democracy on a global level Explores the consequences of globalization for democracy Discusses whether democracy implies exclusion or boundaries

Makes sense of democracy and human rights in a globalizing world Investigates what kind of common identity can and should support forms of global democracy Presents a state of the art analysis of the foundations of global democracy

Critical Theory and Contemporary Europe William Outhwaite, 2012-12-05 Critical Theory and Contemporary Europe introduces the major contributions critical theorists made to the study of Europe from the interwar years to the present time The work begins with theorists such as Adorno who addressed Nazism and the Holocaust then moves on to discuss the postwar affluence of capitalist Europe It proceeds to examine how critical theorists provided much of the analysis that motivated the student and youth movements of 1968 and subsequent alternative social movements Lastly it relates the development of a critical theory of state socialism looking at the works of thinkers such as Arato Offe and Habermas and how critical theory is now addressing social issues such as European xenophobia and the future of Europe This new volume in the Critical Theory and Contemporary Society series brings together critical theory and European studies in a clear accessible manner and shows the relevance of critical theory to practical political issues

The Bloomsbury Companion to Arendt Peter Gratton, Yasemin Sari, 2020-10-01 Hannah Arendt's 1906-1975 writings both in public magazines and in her important books are still widely studied today She made original contributions in political thinking that still astound readers and critics alike The subject of several films and numerous books colloquia and newspaper articles Arendt remains a touchstone in innumerable debates about the use of violence in politics the responsibility one has under dictatorships and totalitarianism and how to combat the repetition of the horrors of the past The Bloomsbury Companion to Arendt offers the definitive guide to her writings and ideas her influences and commentators as well as the reasons for her lasting significance with 66 original essays taking up in accessible terms the myriad ways in which one can take up her work and her continuing importance These essays written by an international set of her best readers and commentators provides a comprehensive coverage of her life and the contexts in which her works were written Special sections take up chapters on each of her key writings the reception of her work and key ways she interpreted those who influenced her If one has come to Arendt from one of her essays on freedom or from yet another bombastic account of her writings on Adolph Eichmann or as a student or professor working in the field of Arendt studies this book provides the ideal tool for thinking with and rediscovering one of the most important intellectuals of the past century But just as importantly contributors advance the study of Arendt into neglected areas such as on science and ecology to demonstrate her importance not just to debates in which she was well known but those touched off only after her death Arendt's approaches as well as her concrete claims about the political have much to offer given the current ecological and refugee crises among others In sum then the Companion provides a tool for thinking with Arendt but also for showing just where those thinking with her can take her work today

Semi-Citizenship in Democratic Politics Elizabeth F. Cohen, 2009-10-26 In every democratic polity there exist individuals and groups who hold some but not all of the essential elements of citizenship Scholars who study citizenship routinely grasp for shared concepts

and language that identify forms of membership held by migrants children the disabled and other groups of individuals who for various reasons are neither full citizens nor non citizens This book introduces the concept of semi citizenship as a means to dramatically advance debates about individuals who hold some but not all elements of full democratic citizenship By analytically classifying the rights of citizenship and their various combinations scholars can typologize semi citizens and produce comparisons of different kinds of semi citizenships and of semi citizenships in different states The book uses theoretical analysis historical examples and contemporary cases of semi citizenship to illustrate how normative and governmental doctrines of citizenship converge and conflict making semi citizenship an enduring and inevitable part of democratic politics

Redeeming Autonomy Christopher J. Insole, Benjamin R. DeSpain, 2025-06-26 What can theology offer philosophical discussions of autonomy In this distinctive collection of essays Insole and DeSpain lead a cadre of academics from across the world in answering this question In doing so they challenge the narrow conception of liberalism that has characterised much of the discussion around autonomy The contributions disrupt traditional methodologies by starting with analyses of urgent and concrete situations where the concept of autonomy is employed misappropriated or even challenged These scenarios include essays on trauma transgender issues disability and end of life debates This volume also explores broader political issues that relate to autonomy such as democracy the economy and migration Each chapter maintains a focused concern with social justice whilst demonstrating how a religious dimension can expand our understanding of the concept of autonomy This is sure to be a valuable resource for any theologians philosophers or intellectual historians looking to view autonomy from a fresh and contemporary angle

Closing the Rights Gap LaDawn Haglund, Robin Stryker, 2015-03-21 Do human rights as embodied in constitutions national laws and international agreements foster improvements in the lives of the poor or otherwise marginalized populations When where how and under what conditions Closing the Rights Gap From Human Rights to Social Transformation systematically compares a range of case studies from around the world in order to clarify the conditions under which and institutions through which economic social and cultural rights are progressively realized in practice It concludes with testable hypotheses regarding how significant transformative change might occur as well as an agenda for future research to facilitate rights realization worldwide

Human Rights and Ethics: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2014-09-30 In today s increasingly interconnected and global society the protection of basic liberties is an important consideration in public policy and international relations Profitable social interactions can begin only when a foundation of trust has been laid between two parties Human Rights and Ethics Concepts Methodologies Tools and Applications considers some of the most important issues in the ethics of human interaction whether in business politics or science and technology Covering issues such as cybercrime bioethics medical care and corporate leadership this four volume reference work will serve as a crucial resource for leaders innovators educators and other personnel living and working in

the modern world *Migrations and Mobilities* Seyla Benhabib, Judith Resnik, 2009-03 This work discusses the unprecedented challenges that the movement of peoples across national borders poses for the people involved as well as for the places to which they travel and their countries of origin **Rethinking Kant Volume 2** Pablo Muchnik, 2010-04-16 The goal of the series Rethinking Kant is to bear witness to the richness and vitality of Kantian studies in North America The collection is unique in its kind for it garners papers from a whole generation of Kantian thought ranging from doctoral students and recent Ph Ds to up and coming young scholars to some well established and influential players in the field This combination is designed to take the pulse of current Kantian scholarship in the U S and rethink its fundamentals This is the second volume in the series It contains papers from three regional study groups of the North American Kant Society Contributions tackle some of the most important and controversial themes in Kant s philosophy the relation between concepts and intuitions Hume s influence on Kant the strengths and weaknesses of moral constructivism Kant s theory of moral feeling the faultlines within Kant s political philosophy the role of cosmopolitanism in moral progress the systematic function of the Critique of Judgment and Kant s alleged racism Some critical other exegetical or apologetic these essays show a sustained effort to rethink Kant and explain his inescapable influence on contemporary philosophical debates *Sexual Orientation, Gender Identity and International Human Rights Law* Kerry O'Halloran, 2019-10-22 This book identifies analyses and discusses the nexus of legal issues that have emerged in recent years around sexuality and gender It audits these against specific human rights requirements and evaluates the outcomes as evidenced in the legislation and caselaw of six leading common law jurisdictions Beginning with a snapshot of the legal definitions and sanctions associated with the traditional marital family unit the book examines the subsequently evolving key concepts and constructs before outlining the contemporary international framework of human rights as it relates to matters of sexuality and gender It proceeds by identifying a set of themes including the rights to identity to form a family to privacy to equality and to non discrimination and undertakes a comparative evaluation of how these and other themes indicate areas of commonality and difference in the approaches adopted in those common law jurisdictions as illustrated by the associated legislation and caselaw It then considers why this should be and assesses the implications Citizenship Beyond Nationality Luicy Pedroza, 2019-06-28 In *Citizenship Beyond Nationality* Luicy Pedroza considers immigrants who have settled in democracies and who live indistinguishably from citizens working paying taxes making social contributions and attending schools yet lack the status gained either through birthright or naturalization that would give them full electoral rights Referring to this population as denizens Pedroza asks what happens to the idea of democracy when a substantial part of the resident population is unable to vote Her aim is to understand how societies justify giving or denying electoral rights to denizens Pedroza undertakes a comparative examination of the processes by which denizen enfranchisement reforms occur in democracies around the world in order to understand why and in what ways they differ The first part of the book surveys a wide variety of reforms

demonstrating that they occur across polities that have diverse naturalization rules and proportions of denizens The second part explores denizen enfranchisement reforms as a matter of politics focusing on the ways in which proposals for reform were introduced debated decided and reintroduced in two important cases Germany and Portugal Further comparing Germany and Portugal to long familiar cases she reveals how denizen enfranchisement processes come to have a limited scope or to even fail and yet reignite In the final part Pedroza connects her theoretical and empirical arguments to larger debates on citizenship and migration *Citizenship Beyond Nationality* argues that the success and type of denizen enfranchisement reforms rely on how the matter is debated by key political actors and demonstrates that when framed ambitiously and in inclusive terms these deliberations have the potential to redefine democratic citizenship not only as a status but as a matter of politics and policy

Democracy and Civil Society in a Global Era Scott Nicholas Romaniuk, Marguerite Marlin, 2016-03-31 *Democracy and Civil Society in a Global Era* addresses challenges to the strengthening of active citizenship In this highly structured work the themes presented are linked to fostering a culture of peace and non violence the lessening of fear and insecurity in political economic social and cultural terms inherently detached from the conceptualization of political delineations and physical boundaries and the ability to live dignified lives The various regions that are represented in the case studies include the Indian sub continent Malaysia Indonesia Turkey Iran China the Middle East Nigeria and the EU The commonality and universality of the topics allows readers from any region of the world to relate to them This book presents a dynamic combination of theory and field research and is an iconoclastic tour de force of studies in democracy Policy makers think tanks and development practitioners may be particularly be interested in this book because it is about action rather than mere ideas and processes It demonstrates how social movements can introduce and strengthen equality inclusion accountability and the free flow of information These elements in turn can contribute to the acculturation of freedom and social justice in the developed world just as much as in the developing world

Citizenship Acquisition and National Belonging G. Calder, P. Cole, J. Seglow, 2009-11-12 What does it take to become a citizen of a particular nation Is it justified to restrict membership of a society and if so on what grounds This book explores a series of pressing controversial issues surrounding the acquisition of citizenship in theory and practice

Rights Of Others Aliens Residents And Citizens Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Rights Of Others Aliens Residents And Citizens PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Rights Of Others Aliens Residents And Citizens PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms

offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Rights Of Others Aliens Residents And Citizens free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
