Crimes of Dissent Jarret S. Lovell, 2009-07 From animal rights to anti abortion from tax resistance to anti poverty activists from across the political spectrum often deliberately break the law to further their causes While not behaviors common to hardened or self seeking criminals the staging of civil disobedience non violent resistance and direct action can nevertheless trigger a harsh response from law enforcement with those arrested risking jail time and criminal records *Crimes of Dissent* features the voices of these activists presenting a fascinating insider's look at the motivations costs and consequences of deliberately violating the law as a strategy of social change *Crimes of Dissent* provides readers with an in depth understanding of why activists break the law and what happens to them when they do Using dynamic examples both historic and recent Jarret Lovell explores how seasoned protesters are handled and treated by the criminal justice system shedding light on the intersection between the political and the criminal By adopting the unique vantage of the street level activist *Crimes of Dissent* provides a fascinating view of protest from the ground giving voice to those who refuse to remain silent by risking punishment for their political actions *Criminology* Frances D. Fetz, 1969 **Year of the Heroic**

Guerrilla Robert Vincent Daniels, 1996 From Paris to Peking from Saigon to Washington the pillars of the postwar world tottered on the brink of collapse in 1968 This book is the first global analysis of that universal upheaval from the Tet offensive and the abdication of Lyndon Johnson to the cultural revolution in China and the convention and riots in Mayor Daley's Chicago **Dynamics of American Political Parties** Mark D. Brewer, Jeffrey M. Stonecash, 2009-07-31 In

Dynamics of American Political Parties Mark D Brewer and Jeffrey M Stonecash examine the process of gradual change that inexorably shapes and reshapes American politics Parties and the politicians that comprise them seek control of government in order to implement their visions of proper public policy To gain control parties need to win elections and winning elections requires assembling an electoral coalition that is larger than that crafted by the opposition Parties are always looking for opportunities to build such winning coalitions and opportunities are always there but they are rarely if ever without risk

Uncertainty rules and intra party conflict rages as different factions and groups within the parties debate the proper course of action and battle it out for control of the party Parties can never be sure how their strategic maneuvers will play out and even when it appears that a certain strategy has been successful party leaders are unclear about how long apparent success will last Change unfolds slowly in fits and starts

Our Enemies in Blue Kristian Williams, 2015-08-17 Let's begin with the basics violence is an inherent part of policing The police represent the most direct means by which the state imposes its will on the citizenry They are armed trained and authorized to use force Like the possibility of arrest the threat of violence is implicit in every police encounter Violence as well as the law is what they represent Using media reports alone the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States But such stories of police brutality only scratch the surface of a national epidemic Every year tens of thousands are framed blackmailed beaten sexually assaulted or killed by cops Hundreds of millions of dollars are spent on civil judgments and settlements annually Individual lives families and communities are destroyed In this extensively revised and updated edition of his seminal study of policing in the United States Kristian Williams shows that police brutality isn't an anomaly but is built into the very meaning of law enforcement in the United States From antebellum slave patrols to today's unarmed youth being gunned down in the streets peace keepers have always used force to shape behavior repress dissent and defend the powerful **Our Enemies in Blue** is a well researched page turner that both makes historical sense of this legalized social pathology and maps out possible alternatives Kristian Williams is the author of several books including *American Methods* *Torture and the Logic of Domination* He co edited *Life During Wartime* *Resisting Counterinsurgency* and lives in Portland Oregon

Vietnam War James H. Willbanks, 2017-11-16 This detailed two volume set considers the Vietnam War one of America's longest and bloodiest wars from a topical perspective addressing the main characters and key events of the war and supplying many relevant primary source documents The Vietnam War not only claimed the lives of nearly 60 000 Americans and more than a million Vietnamese but the prolonged conflict also resulted in a firestorm of protest at home that shook the foundations of the country and made U.S. citizens question the moral principles and motivations behind our foreign policy and military actions Written in a very accessible style by recognized authorities on the war *Vietnam War A Topical Exploration and Primary Source Collection* provides students and general readers with a complete overview of the conflict in Vietnam a broad topic that remains an important part of the American history and world history curriculum Using a topical approach to cover all aspects of the war the set enables students to see the complete picture of the conflict through its presentation of reference entries and documents arranged in cohesive compelling chapters Examples of the primary documents in the set include Communist Party Evaluation of the Tet Offensive 1968 and President Richard Nixon's Speech on Vietnamization 1969

These primary sources are augmented by oral histories of soldiers who fought in the Tet Offensive. Additionally, maps and images in each section enhance the aesthetic appeal of the book and heighten students' understanding of the material. Readers will come away with both a strong comprehension of the Vietnam War as well as an appreciation for how significant this proxy conflict was as a lead up event to the global Cold War. *Occupied Territory* Simon Balto, 2019-04-22. In July 1919, an explosive race riot forever changed Chicago. For years, black southerners had been leaving the South as part of the Great Migration. Their arrival in Chicago drew the ire and scorn of many local whites, including members of the city's political leadership and police department, who generally sympathized with white Chicagoans and viewed black migrants as a problem population. During Chicago's Red Summer, riot patterns of extraordinary brutality, negligence, and discriminatory policing emerged to shocking effect. Those patterns shifted in subsequent decades, but the overall realities of a racially discriminatory police system persisted. In this history of Chicago from 1919 to the rise and fall of Black Power in the 1960s and 1970s, Simon Balto narrates the evolution of racially repressive policing in black neighborhoods as well as how black citizen activists challenged that repression. Balto demonstrates that punitive practices by and inadequate protection from the police were central to black Chicagoans' lives long before the late century wars on crime and drugs. By exploring the deeper origins of this toxic system, Balto reveals how modern mass incarceration, built upon racialized police practices, emerged as a fully formed machine of profoundly antiblack subjugation. Democratic Policing in a Changing World Peter K. Manning, 2015-11-17. Democratic policing today is a widely used approach to policing, not only in Western societies but increasingly around the world. Yet it is rarely defined, and it is little understood by the public and even by many of its practitioners. Peter K. Manning draws on political philosophy, sociology, and criminal justice to develop a widely applicable, fundamental conception of democratic policing. In the process, he delineates today's relationship between democracy and policing. *Democratic Policing in a Changing World* documents the failure of police reform, showing that each new approach, such as crime mapping and hot spots policing, fails to alter any fundamental practice and has, in fact, increased social inequalities. He offers a new and better approach for scholars, policy makers, police, governments, and societies. **National Union Catalog**, 1968. Includes entries for maps and atlases. **Dawn Clark Netsch** Cynthia Grant Bowman, 2010-01-20. Bowman's eminently readable account discovers a *rara avis* in Illinois state politics: a woman of character who lost neither her genteel yet unpretentious demeanor nor her passion for the progressive politics she shared with her early mentor, Governor Adlai E. Stevenson. From book jacket: Communications and the law, 1988. **The National Union Catalogs, 1963-**, 1964.
