Annual of the University Club [for the Years ... University club, New York city,1907 Rowell's American Newspaper Directory ,1907 **The Prose Works of William Wordsworth Volume 1** W J B Owen,2008-06-28 Volume 1 of The Prose Works of William Wordsworth as edited by W J B Owen and Jane W Smyser This is a print version of the new searchable navigable electronic edition of this standard work Compared with the original Clarendon edition this one has two advantages textual notes are more clearly separated and are columnized and the existence of editorial commentary is indicated by marginal symbols in the text in the ebook of course these symbols are hyperlinked to the commentary While colour is used in the preview as in the ebook the print in the paperback is black and white The Contents include Wordsworth's famous poetical manifesto the Preface to Lyrical Ballads his Jacobinical defence of political terror in A Letter to the Bishop of Llandaff and an impassioned intervention in the peninsular wars protesting at British betrayal of Portuguese and Spanish allies at the Convention of Cintra **Debating Human Rights in China** Marina Svensson,2002-05-14 Tracing the concept of human rights in Chinese political discourse since the late Qing dynasty this comprehensive history convincingly demonstrates that contrary to conventional wisdom there has been a vibrant debate on human rights throughout the twentieth century Drawing on little known sources Marina Svensson argues that the concept of human rights was invoked by the Chinese people well before the adoption of the Universal Declaration of Human Rights in 1948 and that it has continued to have strong appeal after 1949 both in Taiwan and on the mainland These largely forgotten debates provide important perspectives on and contrasts to the official PRC line The author gives particular attention to the issues of power and agency in describing the widely divergent views of official spokespersons establishment intellectuals and dissidents Until quite recently the PRC dismissed human rights as a bourgeois slogan Yet the globalization of human rights and the growing importance of the issue in bilateral and multilateral relations have forced the regime to embrace or rather appropriate the language of human rights an appropriation that continues to be vigorously challenged by dissidents at home and abroad By exploring the relationship between domestic and international human rights discourses this study offers new insights not only into the Chinese but also into the Western human rights debate Students and scholars of China and of human rights will find this work an important tool for understanding one of the great issues of our time **Digital Futures for Cultural and Media Studies** John Hartley,2012-02-07 An ambitious rendering of the digital future from a pioneer of media and cultural studies a wise and witty take on a changing field and our orientation to it Investigates the uses of multimedia by creative and productive citizen consumers to provide new theories of communication that accommodate social media participatory action and user creativity Leads the way for new interdisciplinary engagement with systems thinking complexity and evolutionary sciences and the convergence of cultural and economic values Analyzes the historical uses of multimedia from print through broadcasting to the internet Combines conceptual innovation with historical erudition to present a high level synthesis of

ideas and detailed analysis of emergent forms and practices Features an international focus and global reach to provide a basis for students and researchers seeking broader perspectives **Animals in the Sociologies of Westermarck and Durkheim** Salla Tuomivaara,2019-09-04 This book explores why animals at some point disappeared from the realm and scope of sociology The role of sociology in the construction of a science of the human has been substantial building representations of the human sphere of life as unique Within the sociological tradition however animals have often been invisible even non existent Through in depth comparisons of the texts of prominent early sociologists Emile Durkheim and Edward Westermarck Tuomivaara shows that despite this exclusion representations of animals and human animal relations were far more varied in early works than in the later sociological cannon Addressing a significant gap in the interdisciplinary field of animal studies Tuomivaara presents a close reading of the historical treatment of animals in the works of Durkheim and Westermarck to determine how the human animal boundary was established in sociological theory The diverse forms in which animals and the animal appear in the works of early classical sociology are charted and explored alongside the sociological themes that bring animals into these texts Situated in contemporary theory from critical animal studies to posthumanism this important book lays the groundwork for a disciplinary shift away from this sharp human animal dualism
