

ÉMINENCE

CARDINAL RICHELIEU
AND THE RISE OF FRANCE

JEAN-VINCENT BLANCHARD

Rise Of Richelieu

Joseph Bergin

Rise Of Richelieu:

The Rise of Richelieu Joseph Bergin, 1997 Presents a biography of Richelieu up to the point where he took ministerial office for the second time in 1624 *The Rise of Richelieu* Joseph Bergin, 1991 This is a study devoted to the pre ministerial career of Cardinal Richelieu the chief minister to King Louis XIII who led France to become the foremost power in Europe Drawing on original sources some used for the first time Joseph Bergin discusses Richelieu s family history his reasons for choosing the church as a vocation his university studies his record as a bishop his writings and the milieu that he frequented both as a student and as a bishop

Éminence Jean-Vincent Blanchard, 2011-09-20 Chief minister to King Louis XIII Cardinal Richelieu was the architect of a new France in the seventeenth century and the force behind the nation s rise as a European power Among the first statesmen to clearly understand the necessity of a balance of powers he was one of the early realist politicians practicing in the wake of Niccol Machiavelli Truly larger than life he has captured the imagination of generations both through his own story and through his portrayal as a ruthless political mastermind in Alexandre Dumas s classic *The Three Musketeers* Forging a nation state amid the swirl of unruly grasping nobles widespread corruption wars of religion and an ambitious Habsburg empire Richelieu s hands were always full Serving his fickle monarch he mastered the politics of absolute power Jean Vincent Blanchard s rich and insightful new biography brings Richelieu fully to life in all his complexity At times cruel and ruthless Richelieu was always devoted to creating a lasting central authority vested in the power of monarchy a power essential to France s position on the European stage for the next two centuries Richelieu s careful understanding of politics as spectacle speaks to contemporary readers much of what he accomplished was promoted strategically through his great passion for theater and literature and through the romance of power minence offers a rich portrait of a fascinating man and his era and gives us a keener understanding of the dark arts of politics

Richelieu and His Age: Assertion of power and cold war Carl Jacob Burckhardt, 1970 **Richelieu: His Rise to Power** Carl J. Burckhardt, 2008-06-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

Richelieu's Army David Parrott, 2001-09-06 It is assumed widely that war made the state in seventeenth century France Yet this study of the French army during the ministry of Cardinal Richelieu 1624-42 shows how the expansion of the war effort was not matched by army reform but by a reliance on traditional mechanisms of control The army imposed a huge burden upon the French population but far from being an instrument of the emerging absolutist state its demands contributed to weakening Richelieu s hold upon France and heightened levels of political and social tension This is the first detailed account of the size organization recruitment financing and control of the troops during this formative period of French history The book also includes a detailed study of

foreign policy during Richelieu's ministry and places the training, deployment and fighting methods of the French army into the context of arguments for military change in early modern Europe. The title was runner up in the History Today Awards 2002. *Richelieu and the Growth of French Power* James Breck Perkins, 1900. *Government Leaders, Military Rulers and Political Activists* David W. Del Testa, 2014-01-27. In each volume an introductory essay outlines the history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives. The biographies that follow are organized in an A-Z format; each biography is divided into a life section describing the individual's life and influences and a legacy section summarizing the impact of that individual's work throughout history. These biographies cover a diverse group of men and women from around the globe and throughout history. Franklin Delano Roosevelt, Mao Tse-tung and Genghis Khan are among the 200 well-known historical figures included in this volume. Examples of other lesser-known yet important individuals covered in this work are Gustavus Adolphus, Swedish empire creator; Hatshepsut, queen of ancient Egyptian dynasty; and Jean Jaurès, French socialist leader and pacifist. Each synopsis provides information on each individual's enduring impact on the common understanding of fundamental themes of human existence.

The Divisions of French Catholicism, 1629-1645 Anthony D. Wright, 2016-03-23. For much of the sixteenth century France was wracked with religious strife as the Wars of Religion pitted Catholic against Protestant. Whilst the conversion of Henri IV to Catholicism ended much of the conflict, the ensuing peace highlighted the fractious nature of French Catholicism and the many competing threads that ran through it. This book investigates the gradual division of the French Catholic reform movement, often associated with those known as the devots during the first half of the seventeenth century. Such division, it is argued, was emerging before the publication in France 1641 of the posthumous *Augustinus* of Jansenius, not simply as a sequel to that. Those who were already distinguishing themselves from other devots before that date were thus not yet identifiable as Jansenists. Rather, the initial defining sentiment was increasing French hostility towards Jesuit involvement in Catholic Reform, both at home and abroad. Drawing on sources from the Jesuit archives in Rome and on Port Royal material in Paris, the book begins with an investigation into the development of Catholic Reform in France, showing the problems that emerged before 1629 and the degree to which these were or were not resolved. The second half of the book contrasts the fragmentation of the movement in the years beyond 1629 and the context of Richelieu's new directions in French foreign policy. Covering a crucial period in the lead up to the establishment of an absolute monarchy in France, this book provides a rich new explanation of the development of French political and ecclesiastical history. It will be of interest not only to those studying the early modern period but to anyone wishing to understand the roots of French secular society.

"The Transformation of European Politics, 1763-1848" Peter Krüger, Paul W. Schroeder (Eds.), in cooperation with Katja Wüstenbecker. This book takes up a question raised about the nature of the European international system in the late eighteenth and early nineteenth centuries by Paul W. Schroeder's pathbreaking and controversial work *The Transformation of*

European Politics 1763 1848 1994 Schroeder's central claim was that the European states system underwent a fundamental transformation in the revolutionary Napoleonic and Vienna eras from a system of competitive conflictual power politics based purely on a shifting balance of power to a more consensual stable and peaceful set of relations based on legality acknowledged rights and obligations and shared norms The contributors to this volume while examining this claim primarily extend the debate to the entire history of European and world international politics from the early seventeenth century to the present If this transformation was real they ask was it only a temporary episode or does it represent an example of other transformations or structural changes in international politics over the centuries down to the present day and a possible model for change in the future

Richelieu and the Growth of French Power (Classic Reprint) James Breck Perkins, 2016-08-30 Excerpt from Richelieu and the Growth of French Power The literature in reference to Richelieu is also very voluminous The great work Of M Hanotiaux when complete will contain the most valuable account of Richelieu's life that has appeared With such diligence and ability has M Hanotiaux studied his subject that his work will remain I think the permanent record of the career of the great Cardinal This Life of Richelieu when finished will comprise four large volumes and its size will perhaps deter the ordinary reader but it is none too full for any one who wishes to familiarise himself with French history during the important period covered by Richelieu's administration About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

A History of France from the Earliest Times to the Establishment of the Second Empire in 1852 Edited by William Smith William Smith, 1874 **1652** David Parrott, 2020-07-31 David Parrott's book offers a major re-evaluation of the last year of the Fronde the political upheaval between 1648 and 1652 in the making of seventeenth century France In late December 1651 Cardinal Mazarin defied the order for his perpetual banishment and re-entered France at the head of an army The political and military crisis that followed convulsed the nation and revived the ebbing fortunes of a revolt led by the cousin of the young Louis XIV the prince de Condé The study follows in detail the unfolding political and military events of this year showing how military success and failure swung between the two sides through the campaign driving both cardinal and prince into a progressive intensification of the conflict while simultaneously fuelling a quest for compromise and settlement which nonetheless eluded all the negotiators' efforts The consequences were devastating for France as civil war smashed into a fragile ecosystem that was already reeling under the impact of the global cooling of the Little Ice Age 1652 raises questions about established interpretations of French state building the rule of cardinal Mazarin and his predecessor Richelieu and

their contribution to creating the absolutism of Louis XIV **The Culture of Merit** Jay M. Smith,1996 A study of the paradoxical position of French nobility just before the French Revolution Richelieu and the Growth of French Power James Breck Perkins,1908 **Ridpath's Universal History** John Clark Ridpath,1897 *Ridpath's History of the World* John Clark Ridpath,1897 **Cyclopaedia of universal History: Volume II - Part I The Modern World** ,1885 *The New Makers of Modern Strategy* Hal Brands,2023-05-02 First published by Princeton in 1943 the collection of essays that constituted *Makers of Modern Strategy* has largely held the field as the key book that studied the means and ends of military power and thought and the historical figures that shaped that history The books in two editions have long been a staple of Princeton's backlist in international politics and strategic studies The first edition edited by Edward Mead Earle and subtitled *Military Thought from Machiavelli to Hitler* emerged out of a seminar of foreign policy and security experts organized between Princeton and the Institute of Advanced Study in reaction to World War II as a global conflict The subsequent edition edited by Peter Paret then at Stanford University was prepared in the early 1980s and subtitled *From Machiavelli to the Nuclear Age* In that edition three essays were reprinted from the earlier book four others were revised and the remainder twenty two essays were wholly new to reflect the updates in the field and also how the global political context had changed The two books together are regarded as the founding and leading text in military and strategic studies containing influential essays by many of the best known scholars of the subject The ambition of the new volume is to commission an entirely new edition of this classic reference work with 37 chapters organized into 5 sections covering key military leaders and the most important elements of strategic thinking since Thucydides and Sun Tzu The field of strategic and military history has witnessed an intellectual renaissance in recent decades as the number of strategic challenges faced by the world has grown enormously International politics has also changed The Cold War ended and the Soviet Union disappeared The United States entered a period of unipolarity only to see it challenged by the rise of new powers China in particular Terrorism civil wars so called rogue states insurgency and counter insurgency and cybersecurity all joined a growing list of strategic concerns New technologies promise to upend our understanding of conflict Furthermore scholars have learned more about earlier periods from the classic thinkers of strategy to the struggles of great power war to the dynamics of world politics during the Cold War Finally scholarship on international politics war and peace in the 20th century and after has become increasingly internationalized with the opening of new archives and the incorporation of new perspectives The aim of this volume is to serve as an overview and stimulant to research in this field one that encompasses the broader definitions of strategy in current research reflects the current state of world politics and also takes a more global and less Western perspective Publisher's description Richelieu and the Growth of French Power James Breck Perkins,2015-12-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the
