primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing. It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity. Volume I examines Peoples and Place assessing structural factors such as climate, printing and the revolution in information, social and economic developments and religion including chapters on Orthodoxy, Judaism and Islam.

**The World's First Full Press Freedom** Ulrik Langen, Frederik Stjernfelt, 2022-05-09 The book charts an extraordinary period in Danish history the Press Freedom Period of 1770-73 in which King Christian 7's physician J. F. Struensee introduced a series of radical enlightenment reforms beginning with the total abolishment of censorship. The book investigates the sudden avalanche of pamphlets and debates initiating the modern public sphere of Denmark. Norway Publications show a surprising variety from serious political, economic and philosophical treatises over criticism, polemics, ridicule, entertainment and to spin campaigns, obscenities, libel threats. A successful coup against Struensee led to his subsequent public execution in Copenhagen and the latter half of the period saw the gradual smothering of the new public sphere as well as an international pamphlet storm over what was happening in Denmark. Readers all over Europe proved curious to learn about the radical experiment with enlightened absolutism in Denmark; interest was heightened by the involvement of the Danish Queen, the English princess Caroline Matilda to whom Struensee had an intimate relation. The book is a detailed portrayal of a seminal event in the development of the public sphere in Europe.

*Columbia Rising* John L. Brooke, 2013-08-01 In *Columbia Rising*, Bancroft Prize winning historian John L. Brooke explores the struggle within the young American nation over the extension of social and political rights after the Revolution. By closely examining the formation and interplay of political structures and civil institutions in the upper Hudson Valley, Brooke traces the debates over who should fall within and outside of the legally protected category of citizen. The story of Martin Van Buren threads the narrative since his views profoundly influenced American understandings of consent and civil society and led to the birth of the American party system. Brooke's analysis of the revolutionary settlement as a dynamic and unstable compromise over the balance of power offers a window onto a local struggle that mirrored the nationwide effort to define American citizenship.

**A History of the European Restorations** Michael Broers, Ambrogio A. Caiani, Stephen Bann, 2019-11-14 The second volume shines a light on the cultural and social changes that took place during the epoch of European Restorations when the death of the Napoleonic empire existed as a crucial moment for contemporaries. Expanding the transnational approach of Volume I, the chapters focus on the transmutation of ordinary experiences of war into folklore and popular culture, the emergence of grassroots radical politics and conspiracies on the Left and Right and the relationship between literacy and religion with new cases included from Spain, Norway and Russia. A wide ranging and impressive work, this book completes a collection on the history of the European Restorations.
