Rise Of A Central Authority For English:

The Rise of a Central Authority for English Education A. S. Bishop, 1971-03-02 This book traces the nineteenth century formation growth and structure of the central authority for education in England The author uses a wide variety of published and unpublished material and describes the influences religious social political and economic and others that moulded the authority He considers the effect of the form of the three bodies that originally held authority for education the Education Department the Science and Art Department and the Charity commission on educational provision and progress throughout the Victorian era In particular the author considers the impact of the machinery of government on the developing educational system Dr Bishop discusses such questions as to what extent was the provision and content of institutionalized education determined by essentially administrative considerations What factors caused the fragmentation of such educational services as were then provided and was the lack of unity of supervision at the centre the product of chance or design
