Rites Of Ordinate Commitment:

Rites of Ordination and Commitment in the Churches of the Nordic Countries Hans Raun Iversen, 2006 A unique situation exists in the Nordic countries where there is a Lutheran majority living in ecumenical cooperation with other churches and ecclesiastical communities This book attempts to shed light on what the churches have discovered they hold in common and on areas where they recognise that there are divergencies between them both in relation to ordination and ministry and in particular to the theology and terminology of ordination The book brings together the research and insights of 23 researchers from all the Nordic countries studying more than 200 different kinds of ordination rites from the Orthodox and Roman Catholic as well as Lutheran and non Lutheran protestant traditions After an introduction to the churches in the Nordic countries the book presents 19 case studies from the Nordic countries The last part includes some general ecumenical and liturgical perspectives on ordination and rites presented by international researchers **Rites of**

Understanding the Diaconate W. Shawn McKnight,2018-07-13 What is a deacon More than fifty years since the restoration of the permanent diaconate by the Second Vatican Council the office of deacon is still in need of greater specificity about its purpose and place within the mission and organizational structure of the Church While the Church is more than a social reality the Church nonetheless has a social reality Our understanding of the diaconate therefore benefits from a theological discussion of the divine element of the Church and a sociological examination of the human element Understanding the Diaconate adds the resources of sociology and anthropology to the theological sources of scripture liturgy patristic era texts theologians and magisterial teachings to conclude that the deacon can be understood as social intermediary and symbol of *communitas* who serves the participation of the laity in the life and mission of the Church This research proposes the deacon as a servant of the bond of communion within the Church facilitating the relationship between the bishop priest and his people and between the People of God and the individual in need Thus authentic diaconal ministry includes a vast array of many concrete contexts of pastoral importance where one does more than simply serve at Mass

Ordination of a Tree Susan M. Darlington, 2012-11-15 Thai Buddhist monks wrap orange clerical robes around trees to protect forests. Ordaining a tree is a provocative ritual that has become the symbol of a small but influential monastic movement aimed at reversing environmental degradation and the unsustainable economic development and consumerism that fuel it. This book examines the evolution of this movement from the late 1980s to the present, exploring the tree ordination and other rituals used to resist destructive national projects. Susan M. Darlington explores monks' motivations, showing how they interpret their lived religion as the basis of their actions and provides an in-depth portrait of activist monk Phrakhu Pitak Nanthakhun. The obstacles monks face, including damage to their reputations, arrest, and even assassination, reveal the difficulty of enacting social justice. Even the tree ordination itself must now withstand its appropriation for state projects. Despite this, monks have gone from individual action to a loosely allied movement that now works with nongovernmental organizations. This is a fascinating firsthand account of engaged Buddhism. Continuing the Reformation

Ruth A. Meyers, 2000-01-01 This book documents the Episcopal Church's developing focus on baptism within the context of the liturgical movement, the emerging understanding of the eucharist, prayer book revision, and the confirmation dilemma. Drawing on historical and contemporary sources, the author presents a credible case in support of her belief that a baptismal ecclesiology is emerging from these events that have enabled people to accept a radically different initiatory pattern in the church. This book exhibits clarity on the issues discussed, with the support of solid scholarship and lucid writing. **Lutheran Salvationists?**

Gudrun Maria Lydholm, 2017-03-13 The idea of a state religion is seldom connected to religious freedom and liberal modern and democratic states. However, such a situation existed in Norway until 2012 when the Lutheran Church was the state church of Norway. A large majority of the population belonged to the church, even though the percentage in 2013 had fallen to well over seventy-five. The relationship between the church and minority religious movements demanded adaptation and compromises from the minority churches. The Salvation Army's enculturation and accommodation during its 128-year history in Norway illustrates such a situation. The book examines how the Salvation Army accommodated itself both doctrinally as well as practically to the situation of a dominant state church. The study reveals such a close affiliation of Salvationists to the Norwegian Church as a state institution that it raises the question of whether a concept of civil religion was implicitly present in Salvationists' view of the state church and their own adherence to the church. This situation also raises the question of what constitutes a real church. The book indicates the tension between Lutheran and Salvationist ecclesiology as well as the influence from the Lutheran Church. **Beyond Ritual**

Siobhán Garrigan, 2017-03-02 In *Beyond Ritual*, Siobhán Garrigan uses Habermas's theory of communicative action to suggest two things: first, a method by which theology can access the ritual symbols by which faith is formed; and secondly, a metaphor of intersubjectivity with which theology can propose an interpretative rather than an instrumental understanding of sacramentality and thus of God. Through fieldwork studies of both marginal and mainstream Christian Eucharists, Garrigan develops the conversation between

Habermas's philosophy and Christian theology showing how ritual interactions form and challenge our very idea of God
