Rome and The Guidebook Tradition Anna Blennow,Stefano Fogelberg Rota,2019-04-01 To this day no comprehensive academic study of the development of guidebooks to Rome over time has been performed This book treats the history of guidebooks to Rome from the Middle Ages up to the early twentieth century It is based on the results of the interdisciplinary research project Topos and Topography led by Anna Blennow and Stefano Fogelberg Rota From the case studies performed within the project it becomes evident that the guidebook as a phenomenon was formed in Rome during the later Middle Ages

and early Renaissance The elements and rhetorical strategies of guidebooks over time have shown to be surprisingly uniform with three important points of development a turn towards a more user friendly structure from the seventeenth century and onward the so called Baedeker effect in the mid nineteenth century and the introduction of a personalized guiding voice in the first half of the twentieth century Thus the guidebook tradition is an unusually consistent literary oeuvre which also forms a warranty for the authority of every new guidebook In this respect the guidebook tradition is intimately associated with the city of Rome with which it shares a constantly renovating yet eternally fixed nature *Musica Franca* Irene Alm, Alyson McLamore, Colleen Reardon, 1996 Twenty four essays attest to D Accone s wide interests and influence on several generations of musicologists The first three sections on the Florentine Renaissance archival studies and madrigal and carnival song deal with subjects central to his research Subsequent contributions deal with various aspects of Italian opera performance practice manuscript studies and music and image Annotation copyrighted by Book News Inc Portland OR
