Dornan,2024-07-18 The book you are about to read is a reference book that you can turn to for decades to come I made sure to add fifty true ghost stories from across the globe to spice up the book against the chapters of informative research I should mention that the ghost stories other than the London Tower are in a random order so as to eliminate country repetition You ll notice that no matter what country is being represented the stories all have similar backdrops meaning that ghosts are not only universal but far from unique to any specific culture Nor are they limited to a group of countries Every nation in the world has their own legends and haunted homes castles or battlefields I enjoyed every second of creating this reference book and I sincerely hope it is a learning experience for you as well as a thought provoking or creative muse to writers poets and filmmakers If you are someone considering a career in the paranormal or paranormal investigation you must read this book instead of relying on video nonsense Enjoy and try not to read too much before sleeping as many of these stories are not only engrossing but also horrifying

Radical Transformation Imants Barušs,2021-01-28 In *Radical Transformation* Imants Barušs leads the reader out of the receding materialist paradigm into an emerging post materialist landscape in which new questions present themselves If consciousness has nonlocal properties then how are boundaries between events established If consciousness directly modulates physical manifestation then what is the scope of such modulation If consciousness continues after physical death then how much interference is there from non physical entities As we face the threat of extinction on this planet is there anything in recent consciousness research that can help us Are there effective means of self transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises The author leads the reader through discussions of meaning radical transformation and subtle activism revealing the unexpected interplay of consciousness and reality along the way

It Won't Rain Because There's Nothing to Stop It Gary Holgate,2018-06-29 So why did I really write this book It dawned on me as I thought about my life in particular the early years how I demonstrated acts of spirituality without really knowing it This started with my acknowledgment of a force of energy larger than myself yet still small enough to make a difference in my life The use of the law of attraction or Secret was an interaction with the universe albeit for juvenile materialistic gain I am not ignorant enough to believe that I am alone with these stories I just don't think we realize or recognize our own spiritual interactions as they are often lost within the hustle and bustle of our lives This book covers many topics some mainstream others not so much but all relatable I wanted to demonstrate through my own experiences that you could explore your own adventure just by exploring your own untold stories that comprise your life

consciousness Sharing his more than three decades of research into the afterlife and paranormal phenomena award winning documentary filmmaker Daniel Drasin shows that the continuity of human consciousness beyond the physical body and after death constitutes a legitimate area of scientific inquiry and that it can be objectively demonstrated Drasin begins by revealing how our belief in materialism through its effects on our social norms taboos and even language has deeply constrained our civilization's understanding of the nature of space time life death and consciousness However as Drasin explains our deeply ingrained cultural habits tied to materialism have begun to change He explores 15 promising post materialist scientific investigations currently underway focusing in depth on three examples that offer the most objectively irrefutable evidence for the survival of consciousness including electronic audio and visual communications from the other side the groundbreaking five year Scole Experiment in physical mediumship and the profoundly evidential reincarnation case of James Leininger Looking at how language frames our perceptions about life and death the author presents thought experiments and simple exercises to help us see through materialist ideology and perceive a broader landscape of reality He provides a succinct account of the experience of transition to the next life and explores what the afterlife is made of where it is located how it works and what it is for Drasin shows how by thinking and speaking about death and the survival of consciousness in new ways we can facilitate a clearer more relaxed comfortable and rational conversation about what awaits us all sooner or later on the other side of life

Humankind's Fear of Death Michael Higgins, 2013-07-03 The book developed from my gradual realization that spirituality was a normal characteristic in the human race but that in recent millennia it had regressed in the everyday awareness of most people especially those belonging to what they regarded as a cultural society Only so called primitive peoples retained a spiritual outlook My book describes how this has come about especially the negative influence of organized religions on individual spirituality and the resulting deterioration in most human societies Finally I suggest how mankind can become again spiritual during their Earth lives Michael Higgins
