This book comprehensively examines religious faith in China from the perspective of cultural philosophy and cultural history. It explores the social, political, cultural, and spiritual meanings of religions, tracing their historical development and related paradigm shifts. It also analyzes the characteristics of the country's local religions and the process of indigenization of world religions and describes the peaceful co-existence and harmonious confluence of multiple religions in Chinese spiritual life, revealing the vibrant and diverse colors of its religious culture. Examining these religions' social and cultural functions in contemporary Chinese society, the book demonstrates the rich and complex intertwinement of religious faith, cultural spirit, and national disposition among the Chinese people.

Jehlen,Michael Warner,2013-12-19 The English Literatures of America redefines colonial American literatures sweeping from Newfoundland and Nova Scotia to the West Indies and Guiana. The book begins with the first colonization of the Americas and stretches beyond the Revolution to the early national period. Many texts are collected here for the first time; others are recognized masterpieces of the canon, both British and American, that can now be read in their Atlantic context. By emphasizing the culture of empire and by representing a transatlantic dialogue, The English Literatures of America allows a new way to understand colonial literature both in the United States and abroad.
