The Zama Codex Stephen Chensue,2007-04 The Zama Codex is a fictional novel set in Central America and structured as alternating chapters describing parallel stories one set during the fall of the Mayan classic age and the other at a present day archaeological excavation The reader is drawn into the life of Zama a scribe and noble living in a highland Mayan city state circa 800 A D When the city s high priest prophesizes the demise of Mayan civilization Zama becomes apprentice and scribe to Chaco a sorcerer with an ambitious plan to save the best of Mayan mystical knowledge from oblivion The parallel story follows events surrounding the discovery of Zama s codex containing instructions for the acquisition of mystical power on a cosmic scale *'The Real Scriptures' of God* James Platter,2012-08-14 Inside the covers of this book you will find the Real Scriptures of the Christian churches Many church leaders know that other Christian churches hold to these books but they are only willing to state what they have been brain washed to believe that is about the other inferior books It isnt in the canon of scripture formed of course by the early Catholic Church at various stages and Councils from the fourth century A D therefore no one has the right to change what is in the canon of scripture and the Catholic Church changed it in their councils not in agreement of other Christians but to hide their offence at the words of God They would not even imagine that different churches have different scriptures and assume that the correct canon of scripture must be the one first

declared by the Catholic Church and its priests but other priests must be considered demented or apostate but they are not affected by the changes they made to the canon of Scripture over many centuries They will not consider the canons of Orthodox Churches or others because they vary in different regions of the world So is European Christianity based in the Vatican City right about all its holy scriptures while everyone else's church scriptures are false scriptures Ethiopia it seems got most books of scripture right even with their translation into an ancient language

Poems: Dramatic scenes Walter Savage Landor, 1892 *The Siva Purana Part 4* J. L. Shastri, 2017-01-01

The Purana is a class of literature that treats of ancient religion philosophy history sociology politics and other subjects It is an encyclopedia of various branches of knowledge and ancient wisdom It has been defined as a class of literature that contains material on the topics of Creation Dissolution of Manus Ages of Manus Genealogies and the History of glorious kings For dealing primarily with these subjects it has been called Pancalaksana a title that was incorporated in the Puranas themselves and had become popular by the Fifth

Century A D for it was included by Amarasimha in his lexicon Amarakosa But as the process of interpolation continued the Pancalaksana definition was found inadequate The Puranic redactors adopted a Dasalaksana definition that suited the contemporary text Still the dynamic forces were at work and the process of insertion modification and abridgment went on and it was soon discovered that the Dasa laksana definition too fell short of an actual fact It was found that the puranas contained certain aspects that were not covered by any five or ten characteristics The Puranas are divided into two classes the Maha puranas and the Upapuranas Each class consists of eighteen puranas Thus the number of the Puranas is thirtysix Mahapuranas are classified into different categories Vaisnava Brahma Saiva etc Sivapurana has all the characteristics of a Mahapurana According to the ancients a Mahapurana contained five main characteristics that concerned either early religion or traditional history Sivapurana possesses the conventional characteristics of a Mahapurana in common with its other colleagues These entitle it to the status of a great Purana But its real greatness lies in expounding the philosophical background of Siva ritual The Purana conceives Siva as the eternal principle the supreme god the cosmic soul the support of all existence But the ignorant aspirant bound in the meshes of illusion goes in quest for knowledge and imagines that his lord has a personal form possessed of attributes distinct from his self who in moments of distress responds to his prayers and bestows grace House documents ,1886
