systems **The Ottoman Empire and Early Modern Europe** Daniel Goffman,2002-04-25 This text provides an introduction to the history and institutions of the Ottoman Empire and presents a claim for its inclusion in Europe as opposed to being apart from it due to its many cultural differences **Trans** Cliff Forshaw,2005 *Global Horizons* Hendrik Spruyt,2009-01-01 Spruyt has written an outstanding text that leaves students informed and motivated while at the same time providing splendidly balanced coverage of multiple issue areas and approaches Colin Elman Maxwell School Syracuse University Medieval Horizons Ian Mortimer,2023-02-23 The essential introduction to the Middle Ages by the author of The Time Traveller s Guide series the most remarkable medieval historian of our time The Times UK We tend to think of the Middle Ages as a dark backward and unchanging time characterized by violence ignorance and superstition By contrast we believe progress arose from science and technological innovation and that inventions of recent centuries created the modern world But as Ian Mortimer shows in this fascinating book we couldn t be more wrong In this revelatory history Mortimer shows how people s horizons their knowledge experience and understanding of the world were utterly transformed between 1000 and 1600 marking the transition from a warrior led society to that of Shakespeare Medieval Horizons sheds light on the enormous cultural changes that took place from literacy to living standards inequality and even the developing sense of self Mortimer demonstrates why this was a revolutionary age of fundamental importance in the development of the Western world **Turkey and Greece** Deniz Bölükbaşı,2012-12-06 The Aegean disputes between Turkey and Greece represent one of the longest standing contemporary conflicts in existence These disagreements encompass a wide range of issues including the seabed maritime areas and airspace of the Aegean The territorial status of a number of islands and rocks as well as specific demilitarization conferred upon Greek islands in the Eastern Aegean under international treaties is also a matter of dispute The Aegean disputes which still remain unresolved are a major source of tension and conflict in Turkish Greek relations The stalemate in reaching a settlement is liable to give rise to new frictions resulting in an acute strain on relations From time to time the disputes have erupted into crisis bringing the two countries to the verge of confrontation These disputes are immensely complex and involve a broad range of interrelated issues with complicated political and legal aspects This study represents the first attempt of its kind providing in a single volume a comprehensive review and analysis of the legal and political aspects of the Aegean disputes which constitute a unique case study in international law involving two neighbours in the Aegean that share a unique history and geography **Books on Turkey** ,2005 Eastward of Good Hope Dane A. Morrison,2021-11-30 How did news from the East carried in ship logs and mariners reports journals and correspondence shape early Americans understanding of the world as a map of dangerous and incoherent sites Winner of the John Lyman Book Award by the North American Society for Oceanic History Freed from restrictions of British mercantilism in the years following the War of Independence Yankee merchants embarked on numerous voyages of commerce and discovery into distant seas Through the news from the East carried in mariners reports ship logs journals and

correspondence Americans at home imagined the world as a map of dangerous and deranged places This was a world that was profoundly disordered hobbled by tyranny and oppression or steeped in chaos and anarchy often deadly always uncertain unpredictable and unstable yet amenable to American influence Focusing on four representative arenas the Ottoman Empire China India and the Great South Sea collectively the East Indies Oceania and the American continent's Northwest coast Eastward of Good Hope recasts the relationship between America and the world by examining the early years of the republic when its national character was particularly pliable and its foundational posture in the world was forming Drawing on recent scholarship in global ethnohistory Dane A Morrison recounts how reports of cannibal encounters shipboard massacres shipwrecks tropical fever and other tragedies in distant seas led Americans to imagine each region as a distinct set of threats to their republic He also demonstrates how the concept of justification through self doubt allowed for aggressive expansionism and for the foundations of imperialism to develop Morrison reconsiders American ideas about the world through three questions How did British Americans imagine the world before independence allowed them to travel Eastward of Good Hope What were the signal encounters that filled the public sphere in their early years of global encounter And finally how did Americans' contacts with other peoples inflect their ideas about the world and their place in it Written in a lively engaging style Eastward of Good Hope will appeal to scholars and the general public alike

The Rise of Political Islam in Turkey Kayhan Delibas, 2014-12-19 Turkey officially a secular state voted in an Islamist party in 2002 2007 and 2011 How far does this reflect the trend which has seen the rise of political Islam across the Middle East Does this indicate a growing tendency in the direction of Islamisation amongst the Turkish population If not what are the underlying reasons behind the electoral triumphs of the Islamist Justice and Development Party the AKP Kayhan Delibas seeks to answer these questions through an in depth examination of the appeal of this political party exploring its ideology the routes and motives which produce party activists and local party organisations Concluding that the AKP's success has been built on its criticism of growing inequalities widespread corruption unemployment poverty and lack of basic services Delibas draws a nuanced portrait of modern Turkish society and the relationship between religion and politics Delibas offers an explanation based on research carried out amongst grassroots activists for the rise of Islamic fundamentalism in Turkey Islamic movements are often described as anti modernist thought to be supported by fundamentalist groups living in a bygone age isolated from the rest of the modern world In recent years particularly since the events of 9 11 such movements have also been seen as a threat to the Western way of life But Delibas argues that these movements and particularly those in Turkey did not arise out of religious fervour or hatred of Western civilisation as is often claimed Rather they were founded and have thrived as a response to socio economic and political conditions that have been aggravated by neoliberal economic policies rapid urbanisation and the globalization of culture By exploring the structural conditions in which an Islamic movement emerged and became popular in a seemingly secular state The Rise of Political Islam in Turkey offers vital analysis for all those
