William Feigelman, John Jordan, John McIntosh, Beverly Feigelman, 2012-06-20 This book fills a critical gap in our scientific understanding of the grief response of parents who have lost a child to traumatic death and the psychotherapeutic strategies that best facilitate healing It is based on the results of the largest study ever conducted of parents surviving a child s traumatic death or suicide The book was conceived by William and Beverly Feigelman following their own devastating loss of a son and written from the perspective of their experiences as both suicide survivor support group participants and facilitators It intertwines data insight and critical learning gathered from research with the voices of the 575 survivors who participated in the study The text emphasizes the sociological underpinnings of survivors grief and provides data that vividly documents their critical need for emotional support It explains how bereavement difficulties can be exacerbated by stigmatization and by the failure of significant others to provide expected support Also explored in depth are the ways in which couples adapt to the traumatic loss of a child and how this can bring them closer or render their relationship irreparable Findings suggest that with time and peer support affiliations most traumatically bereaved parents ultimately demonstrate resilience and find meaningful new roles for themselves helping the newly bereaved or engaging in other humanitarian acts Key Features Offers researchers clinicians and parent survivors current information on how parents adapt initially and over time after the traumatic loss of a child Presents data culled from the largest survey ever conducted 575 individuals of parents surviving a child s suicide or other traumatic death Investigates the ways in which stigmatization complicates and prolongs the grieving process Addresses the tremendous value of support groups in the healing process Explores how married couples are affected by the traumatic loss of their child      *Medieval Manuscript Production in the Latin West* Eltjo Buringh, 2011 Drawing on statistical techniques and samples this book offers an estimate of medieval production rates of manuscripts in the Latin West Such information is a helpful production indicator for a period of which we have so little other quantitative data      **Grief You Can Survive It! Here's How!** Leslie Gorski, 2002-10 Grief You Can

Survive It Here s How Do you wake up in the morning feeling that showering and dressing require more energy than you have Are you wondering what happened to your old self and when or if it might be returning Does life feel overwhelming and at times convince you that you re going crazy Is time passing and the horrible imprints that you ve tried so hard not to recall still linger despite promises from others that time would heal your heart Are you keeping yourself busy doing anything so that thoughts about it won t fill you with anger or helplessness or Oh no not guilt Now for probably the first time in your life

are efforts to find your way through this unfamiliar territory that is your grief leaving you more confused and lost than when you initially embarked on this journey Then this book is the rudder the guide that you have been searching for You can survive the terrible event that has stolen your life This book gives you the emotional map needed to steer you through and beyond the troubling uncharted territory that is your loss and grief      *Loss, Survive, Thrive* Meryl Hershey Beck,2019-11-22 No one is prepared for the loss of a child No one It feels completely unnatural for children to predecease their parents Although it is not widely known each year there are over 135 000 under 40 year old deaths in the U S alone And according to one study 19% of parents outlive their children often carrying the weight of horrendous grief to their own graves Isolated and alone is how parents often describe the grief process Well meaning friends and family members usually rush to their side in the beginning Once the floral arrangements have wilted and the dinners from caring friends diminish there isn t really much that can be said to bring comfort to a suffering parent especially if those friends haven t experienced it themselves Unfortunately when these caring friends do bring up the loss quite often they say the wrong things Loss Survive Thrive offers a lifeline of hope Each chapter is an inspirational story written by a parent who also experienced the agony of losing a child reclaimed his her vitality and is now living a fulfilling life Every story is authentic and heartfelt designed to uplift and inspire The collective authors reach out through the pages to virtually hold hands with those who are suffering We the contributors have all been there We know their pain and we know about survival And now through our stories we offer comfort and support in helping them get through the toughest time of their lives Bereaved parents share an unspeakable bond And Loss Survive Thrive imparts insight from what s likely the only voices that grieving parents can hear others who have walked in their shoes This book is a giant step toward healing the grieving heart      **Multiple**
