Gut Feminism Elizabeth A. Wilson, 2015-09-17 In Gut Feminism Elizabeth A. Wilson urges feminists to rethink their resistance to biological and pharmaceutical data Turning her attention to the gut and depression she asks what conceptual and methodological innovations become possible when feminist theory isn't so instinctively antibiological She examines research on anti-depressants placebos transference phantasy eating disorders and suicidality with two goals in mind to show how pharmaceutical data can be useful for feminist theory and to address the necessary role of aggression in feminist politics Gut Feminism's provocative challenge to feminist theory is that it would be more powerful if it could attend to biological data and tolerate its own capacity for harm

Those Who Come After Stephen Frosh, 2019-04-10 This book explores the legacies of suffering in relation to those who come after the descendants of victims survivors and perpetrators of traumatic events It draws on recent discussions of postmemory and haunting that are concerned mainly with the transgenerational impact of personal and social trauma It examines how we are connected to past events for which we have no direct responsibility yet in which we might in some way be implicated and it asks how we might attain a position of active witnessing that helps resolve the suffering of others Those Who Come After includes vivid accounts of witnessing from a variety of perspectives ranging from Biblical and Jewish stories to contemporary art and music The book draws on psychosocial studies and psychoanalysis to help make sense of this material and to develop an understanding of acknowledgment and responsibility that is both ethical and emancipatory Those Who Come After will be of great interest to readers in psychosocial studies and psychoanalysis and to all who are concerned with the question of how to put past suffering to rest

The Conquest of Istanbul and the Manipulation of Architecture Berin F. Gür, 2025-08-15 This book explores the contemporary memory of the Ottoman conquest of Constantinople now Istanbul in 1453 It focuses on how the conquest is remembered by Islamist nationalist imagination in Turkey today and how architecture plays a role in shaping this memory underscoring its susceptibility to political manipulation Discussing Islamist nationalist rhetoric of Istanbul's conquest through the conceptual framework of melancholy a significant theme in the history of ideas the argument posits that this narrative is a politically driven endeavor fueled by paranoia producing melancholy over
