swindler in the land Be awed by the simple Potmaker whose foolishness thrust him to the front of a great army And yearn for Savitri the perfect princess whose relentless love would falter before none not even the god of Death These tales have been told by oral storytellers in villages across ancient India each time twisting and evolving Some might seem familiar given overlapping themes and the messiness of world history and geography But there s something about folk tales that are distinct from modern stories they reflect not only timeless themes and perhaps the personality of the storyteller but also say something of the nature of the people of the times     Angels' Work, Or, The Choristers of St. Mark's ,1860     Nedarim Jacob Neusner,1985-06 The purpose of this preliminary translation is to make possible a set of historical and religions historical studies on the formation of Judaism in the land of Israel from the closure of the Mishnah to the completion of the Talmud of the land of Israel and the time of the composition of the first midrashic compilations     **Something More** Alexander Kalenak M. **The Wealth of Nature** Donald Worster,1994-10-27 Hailed as one of the most eminent environmental historians of the West by Alan Brinkley in The New York Times Book Review Donald Worster has been a leader in reshaping the study of American history Winner of the prestigious Bancroft Prize for his book Dust Bowl Worster has helped bring humanity s interaction with nature to the forefront of historical thinking Now in The Wealth of Nature he offers a series of thoughtful eloquent essays which lay out his views on environmental history tying the study of the past to today s agenda for change The Wealth of Nature captures the fruit of what Worster calls my own intellectual turning to the land History he writes represents a dialogue between humanity and nature though it is usually reported as if it were simple dictation Worster takes as his point of departure the approach expressed early on by Aldo Leopold who stresses the importance of nature in determining human history Leopold pointed out that the spread of bluegrass in Kentucky for instance created new pastures and fed the rush of American settlers across the Appalachians which affected the contest between Britain France and the U S for control of the area Worster s own work offers an even more subtly textured understanding noting in this example for instance that bluegrass itself was an import from the Old World which supplanted native vegetation a form of environmental imperialism He ranges across such areas as agriculture water development and other questions examining them as environmental issues showing how they have affected and continue to affect human settlement Environmental history he argues is not simply the history of rural and wilderness areas cities clearly have a tremendous impact on the land on which they depend for their existence He argues for a comprehensive approach to understanding our past as well as our present in environmental terms Nostalgia runs all through this society Worster writes fortunately for it may be our only hope of salvation These reflective and engaging essays capture the fascination of environmental history and the beauty of nature lost or endangered underscoring the importance of intelligent action in the present

Belonging Gloria McCahon Whiting,2024-08-13 Explores how Black New Englanders maintained a sense of belonging among their kin in the face of slavery As winter turned to spring in the year 1699 Sebastian and Jane embarked on a campaign of persuasion The two wished to marry and they sought the backing of their community in Boston Nothing however could induce Jane s enslaver to consent Only after her death did Sebastian and Jane manage to wed forming a long lasting union even though husband and wife were not always able to live in the same household New England is often

considered a cradle of liberty in American history but this snippet of Jane and Sebastian's story reminds us that it was also a cradle of slavery From the earliest years of colonization New Englanders bought and sold people most of whom were of African descent In *Belonging* Gloria McCahon Whiting tells the region's early history from the perspective of the people like Jane and Sebastian who belonged to others and who struggled to maintain a sense of belonging among their kin Through a series of meticulously reconstructed family narratives Whiting traces the contours of enslaved people's intimate lives in early New England where they often lived with those who bound them but apart from kin Enslaved spouses rarely were able to cohabit fathers and their offspring routinely were separated by inheritance practices children could be removed from their mothers at an enslaver's whim and people in bondage had only partial control of their movement through the region which made more difficult the task of maintaining distant relationships But *Belonging* does more than lay bare the obstacles to family stability for those in bondage Whiting also charts Afro New Englanders' persistent demands for intimacy throughout the century and a half stretching from New England's founding to the American Revolution And she shows how the work of making and maintaining relationships influenced the region's law religion society and politics Ultimately the actions taken by people in bondage to fortify their families played a pivotal role in bringing about the collapse of slavery in New England's most populous state Massachusetts
