L.

Wesseling,2015-10-23 The nineteenth century was Europe's colonial century At the beginning of the period the only colonial empire that existed was the British Empire By the end of the century the situation was completely different and Europe's colonial possessions had come to constitute a large part of the world The French had acquired an immense colonial empire and the Dutch had extended their control over Indonesia Germany and Italy unified only in the latter half of the century had claimed their place under the sun Even the tiny Kingdom of Belgium had acquired a huge colonial territory in Africa the Belgian Congo This is the first book to describe the whole process of colonization from conquest to pacification and to analyze it in the light of administrative cultural and economic developments The European Colonial Empires discusses a uniquely long period instead of merely focussing on the shorter accepted age of classical imperialism Wesseling argues that European colonial expansion can be understood only by putting it into this long term perspective and by comparing the differences between the colonies in Africa Asia Oceania and the Caribbean This book redresses the balance that privileges the British colonial and imperial experience It emphasizes the continental European experience while relating developments to the British enterprise

Illusion Of Victory Ian Bickerton,2011-04-01 The Illusion of Victory demonstrates that most of the rewards of victory in modern warfare are either exaggerated or false When the ostensible benefits of victory are examined a generation after a war it becomes inescapably evident that the defeated belligerent rarely conforms to the demands and expectations of the victor Consequently long term political and military stability is denied to both the victorious power and to the defeated one As a result neither victory nor defeat deter further outbreaks of war This sobering reality is increasingly the case in the twentieth and twenty first centuries Ian Bickerton persuasively argues that as the rhetoric of victory becomes more hollow all countries must adopt creative new approaches to resolving disputes

A History of Europe J. A. R. Marriott,2025-04-01 This volume was originally published in 1931 and revised for the third edition in 1937 The critical events since that date necessitated a further revision with a large amount of re writing and the addition of new chapters which brought the book to the opening of the Second World War with a short summary of events between that date and the autumn of 1943 The author consulted newly accessible archives and primary sources and covers topics such as the European Monarchy the European Revolutions Diplomacy and War and Peace Treaties and Conferences not just within European borders but against the global backdrop of international interests

Global Rules James E. Cronin,2014-09-11 The Second World War created and the Cold War sustained a special relationship between America and Britain and the terms on which that decades long conflict ended would become the foundation of a new world order In this penetrating analysis a new history of recent global politics author James Cronin explores the dramatic reconfiguring of western foreign policy that was necessitated by the interlinked crises of the 1970s and the resulting global shift toward open markets a movement that was eagerly embraced and encouraged by the U S U K partnership Cronin's bold revisionist argument questions long perceived views of

post World War II America and its position in the world especially after Vietnam The author details the challenges the economic transition of the 1970s and 1980s engendered as the United States and Great Britain together actively pursued their shared ideal of an international assemblage of market based democratic states Cronin also addresses the crises that would sorely test the system in subsequent decades from human rights violations and genocide in the Balkans and Africa to 9 11 and militant Islamism in the Middle East to the Great Recession of 2008 *The Geopolitics of Space Exploration*
