Forgotten Memories

Shattered Dreams Roberta Wood Allen, 2022-08-17 It's been almost two years since the car accident that claimed Jenny Peterson's precious memories. At first she learned about her past from those around her. After a while snapshots of past experiences came to mind but they were hazy. Why could she not remember? Something triggered the briefest memory of a man who had obviously been very dear to her. What was it? A smell. A sound. A sight. She longed to figure out and capture whatever it was that caused the vague remembrance. Jenny prayed to God daily that he would help her remember Ben and why he was important to her. *Forgotten Memories* Cecilia Ageton, 2022-09-29 Being a demon isn't easy, especially when you've grown up learning the importance of love and friendship. When Jax gets summoned by his best friend and asked to protect his only child, Cassie, who's been hidden away in the human world, he agrees. He thought it would be simple: protect the girl while she learns the truth about herself and the abilities she holds. What he hasn't counted on is the shock that runs through him when they touch, immersing him in feelings and memories he can't place. As he tries to figure out the nature of the bond that connects them, he realises that something else is at play: a magic that could be working for or against them. Will he be able to honour his promise and keep Cassie safe? **The Museum of Forgotten Memories** Anstey Harris, 2020-11-03 Moving Booklist starred review. At Hatters' Museum of the Wide Wide World, where the animals never age but time takes its toll, one woman must find the courage to overcome the greatest loss of her life. Four years after her husband Richard's death, Cate Morris is let go from her teaching job and, unable to pay rent on the London flat she shares with her son Leo, with nowhere else to turn, they pack up and venture to Richard's ancestral Victorian museum in the small town of Crouch-on-Sea. Despite growing pains and a grouchy caretaker, Cate begins to fall in love with the quirky taxidermy exhibits and sprawling grounds, and she makes it her mission to revive them. But threats from both inside and outside the museum derail her plans and send her spiraling into self-doubt. As Cate becomes more invested in Hatters, she must finally confront the reality of Richard's death and the role she played in it in order to reimagine her future. Perfect for fans of Katherine Center and Evvie Drake. **Starts Over** **Forgotten Memories & In The Mirror Of Letters** Mahesh Chandra Rastogi, 2024-06-25 In the book *FORGOTTEN MEMORIES IN THE MIRROR OF LETTERS*, the poet-writer presents his impressions about a specific period of his youth through poems, stories, memoirs, and diary of a stenographer. Memory and the Brain John P. Aggleton, 2024-12-16

Memory and the Brain explores the fascinating psychology and neuroscience of human memory. Written by a world expert in the field, John P. Aggleton, this book covers learning and memory from the very beginning of life to its end, with an emphasis on real-world applications. Throughout, Aggleton begins by considering the fallibility of long-term memory and explores the many reasons why we forget. He goes on to contrast this with superior memory and examines what, if anything, is special about individuals with remarkable memory powers and how might we improve our own memory. The significance of sleep, our ability to remember the future, the various brief memory stores, and the multiple forms of amnesia are also covered, as well as the most common forms of dementia, including Alzheimer's disease. The book concludes with an Alphabet of Memory Curiosities, which showcases a diverse range of topics from aphantasia to zebrafish, stopping off at topics such as Jennifer Aniston, neurons, bilingualism, and neuromyths in education. Drawing on classic studies alongside many discoveries from contemporary research, this book is written for anyone curious about how our memory works and will appeal to students and general readers alike.

Brain research is opening up our understanding of not only what role the different areas of our brain play in making decisions or in recognizing the faces of those we love, but even in experiencing God. As a pastoral theologian and counselor, Hogue values and utilizes the significant resources of the brain sciences for the work of the church in guiding healing and challenging persons and systems informed by our current understanding of the central nervous system. His latest book, *Remembering the Future, Imagining the Past*, is an especially useful resource for all those persons concerned with the practical theological arts of preaching, worship, pastoral care, and counseling, as well as those interested in how our increasing knowledge of the ways in which our brains work can help us understand and tailor our spiritual and pastoral practices in the church.
