Lost Realms of Gold Charles Phillips,1998      *Lost realms of gold : South American myth* Tony Allan,1998      *Lost Realms of Gold* Tony Allan,Charles Phillips,Time-Life Books,1998 An exciting book that explores the South American mythmakers fascination with shapeshifting and magic      *The Hero's Quest and the Cycles of Nature* Rachel S. McCoppin,2016-10-25 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature a botanical hero one might say who begins the quest in a metaphorical seed like state then sprouts into a period of verdant strength But the hero must face a mythic underworld where he or she contends with mortality and sacrifice embracing death as a part of life For centuries humans have sought superiority over nature yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature Instead a cyclical promise of continuous life is realized in which no element fully disappears and the hero s message is not to dwell on death      **Naked Chocolate** David Wolfe,Shazzie,2012-01-10 With the mission to lay naked before the world the true meaning of chocolate David Wolfe and Shazzie present a spirited and unconventional history materia medica and recipe book for the world s most pleasurable food chocolate This book describes the wonders of cacao where it comes from how it is processed its three varieties and its origins and role in pre Columbian cultures of the Americas It explains the scientific properties and health benefits of chocolate and elaborates how you will lose weight soothe your heart double your joy increase your sensuality nourish your intellect and attract prosperity by eating it In contrast to most books about chocolate this one focuses on the raw cacao bean or naked chocolate Of course this chocolate manual wouldn t be complete without a step by step guide on what to do with the cacao beans and over sixty original and mouthwatering chocolate recipes guaranteed to enhance your life      **The Lessons of Nature in Mythology** Rachel S. McCoppin,2015-10-30 This examination of myths from around the world focuses on the role nature plays within mythology Creation myths from myriad cultures recognized that life arose from natural elements inextricably connecting human life to the natural world Nature as portrayed in myth is unpredictable and destructive but also redemptive providing solace and wisdom Mythology relates the human life cycle to the seasons with spring summer fall and winter as metaphors for birth adulthood old age and death The author identifies divinities who were direct representations of natural phenomena The transition of mythic representations from the Paleolithic to Neolithic period is discussed
