Lost Train:

The Lost Train of Thought Michael Wexler, John Hulme, 2010-12-15 Becker Drane's job as a Fixer in *The Seem* is in jeopardy. The Powers That Be have discovered his illegal relationship with Jennifer Kaley and he's about to be punished big time for all the rules he has broken. But just when it seems like Becker's fixing days are over for good, he is called in to assist on a job in the Middle of Nowhere. A Train of Thought headed for The World has disappeared and the first group of Fixers sent to find it has vanished now too. As usual, The Tide is the prime suspect. This latest mission takes Becker to the remotest places and introduces him to the more powerful people in *The Seem*. Will he manage to find the Lost Train of Thought and finally discover once and for all who's running The Tide?

The Lost Train Seth Crossman, 2020-02-20 In late 1944 a train rumbled out of Königsberg, Germany, laden with gold artifacts and priceless paintings in an attempt to escape the advancing Soviet army. It was never seen again. Seventy-two years later, Will Statten, a former MP and the son of a famous archaeologist, gets a call for help from a prestigious art collector in Italy. For Will, it's a job offer and a chance to escape his troubles, even if the job sounds strange and unbelievable. He tracks down a series of nine paintings that reveal the location of the lost train and its legendary wealth. Shortly after he arrives, Will is caught up in a deadly game as five of the paintings are stolen. Now it is a race across Europe to find the lost train and the killers before they turn their sights on him. For Will Statten, his dangerous adventure is just beginning.

An award-winning account of a crisis in railroad history. This absorbing book takes you on an entertaining ride. Chicago Tribune: A saga about one of the oldest and most romantic enterprises in the land. America's railroads. *The Men Who Loved Trains* introduces the chieftains who have run the railroads, both those who set about grabbing power and big salaries for themselves and others who truly loved the industry. As a journalist and associate editor of *Fortune* magazine who covered the demise of Penn Central and the creation of Conrail, Rush Loving often had a front-row seat to the foibles and follies of this group of men. He uncovers intrigue, greed, lust for power, boardroom battles, and takeover wars and turns them into a page-turning story. He recounts how the chairman of CSX Corporation, who later became George W. Bush's Treasury secretary, managed to make millions for himself while his company drifted in chaos. Yet there were also those who loved trains and railroading and who played key roles in reshaping transportation in the northeastern United States. This book will delight not only the rail fan but anyone interested
