Lost Paradise The Exploration Of The Pacific:

Lost Paradise Ian Cameron, 1987 Historical Dictionary of the Discovery and Exploration of the Pacific Islands Max Quanchi, John Robson, 2005-10-18 The South Seas as this region used to be called conjured up images of adventure belles and savages romance and fabulous fortunes but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics navigation hard grit shipwreck and pure luck The motivations were scientific and geographic but at the same time nationalistic and materialistic A series on global exploration and discovery would not be complete without this book by Quanchi and Robson It is ambitious and informative and includes the familiar names of Laperouse Bougainville Cook and Dampier as well as the intriguing stories of the Bounty Mutiny scurvy and the mysterious Northwest Passage Terra Australis Ignotia and Davis Land There are entries on first contacts ships navigational instruments mapping and botany The scene is carefully set in the introduction the chronology spans several centuries and the extensive bibliography offers a guide to further reading There are more than just dry facts in this book It has a whiff of salt air the clash of empires cross cultural beach encounters and personal adventure Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America Robin Inglis, 2008-04-02 The Northwest Coast of America ranging from northern California through Oregon Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become disputed territory before national boundaries were determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400 cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon Grigorii Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely to the coverage of this region **The Emergence of Pacific Urban Villages** Asian Development Bank, 2016-10-01 This publication seeks to explain the nature of settlements termed urban villages as set within the context of growing levels of urbanization in contemporary Pacific towns and cities It investigates the meaning and

conceptualization of myriad forms of urban villages by examining the evolution of different types of settlement commonly known as native or traditional villages and more recently squatter and informal settlements. It views village like settlements such as squatter and informal settlements as a type of urban village and examines the role these and other urban villages play in shaping and making the Pacific town and city and arguably the Pacific village city. It presents key actions that Pacific countries and development partners need to consider as part of urban and national development plans when rethinking how to conceptualize the ongoing phenomena of urban villages while achieving a more equitable distribution of the benefits of urbanization.

The World's Oceans Rainer F. Buschmann, Lance Nolde, 2025-01-23 Discover the science, cultural history and environmental importance of our planet's oceans. The second edition of this award-winning encyclopedia has been updated throughout and includes more than 20 additional entries and highlights timely concerns including overfishing and microplastics while also providing expanded coverage of the role oceans play in modern society from cruise ships to the America's Cup competition. Part I of the book features a collection of 10 thematic essays covering the five oceans of the world and broad areas of study such as the shipping industry and the changing nature of ocean boundaries. Part II includes more than 115 encyclopedia entries exploring topics ranging from the Bermuda Triangle to maritime law from tsunamis to ocean acidification. Sidebars throughout offer fascinating facts that complement the main text. The oceans of the world are the lifeblood of our planet. They act as a climate regulator absorbing heat and influencing weather patterns. The oceans teem with a vast and mostly unexplored diversity of life providing us with food and medicine. Historically oceans have been the highways of exploration and trade connecting continents and fostering cultural exchange. From ancient Polynesian voyagers to modern shipping lanes, societies have relied on the oceans for transportation and resources. Yet despite their vastness and importance, the world's oceans face numerous threats including the effects of climate change, pollution, and exploitation of their bounty.

The Pretender of Pitcairn Island Tillman W. Nechtman, 2018-09-13 Pitcairn, a tiny Pacific island that was refuge to the mutineers of HMAV *Bounty* and home to their descendants, later became the stage on which one imposter played out his influential vision for British control over the nineteenth-century Pacific Ocean. Joshua W. Hill arrived on Pitcairn in 1832 and began his fraudulent half-decade rule that has until now been swept aside as an idiosyncratic moment in the larger saga of Fletcher Christian's mutiny against Captain Bligh and the mutineers' unlikely settlement of Pitcairn. Here Hill is shown instead as someone alert to the full scope and power of the British Empire, to the geopolitics of international imperial competition, to the ins and outs of naval command, the vicissitudes of court politics, and as such to Pitcairn's symbolic power for the British Empire more broadly.

The State of Pacific Towns and Cities Asian Development Bank, 2012-10-01 This report investigates urbanization trends across the 14 Pacific developing member countries of the Asian Development Bank. It examines the history of Pacific urbanization, current state of infrastructure and service provision within urban areas, and systems of urban governance. It presents key actions that Pacific countries need to take to manage urban growth to meet the

needs of their urban citizens and to benefit from the potential of the urban economy Studies in the Economic History of the Pacific Rim Dennis O. Flynn,A.J.H. Latham,Sally M. Miller,2002-09-11 Trade across the Pacific will be one of the dominant forces in the economy of the next century This collection reflects the birth of Pacific Rim history until recently largely neglected It addresses the development of the Pacific Rim over four centuries combining broad historical syntheses with a range of essays on specific topics from trade with Hong Kong to British overseas banking It will form a major contribution to this rapidly expanding new field The People of the Sea Paul D'Arcy,2006-01-01 Countering the dominant paradigms of recent Pacific Islands historiography which tend to limit understanding of the sea s importance this volume emphasizes the flux in the maritime environment and how it instilled an expectation and openness toward outside influences and the rapidity with which cultural change could occur in relations between various Islander groups Students and scholars of Pacific history and environmental and cultural studies will welcome this re evaluation of the sea s influence in Oceanic history BOOK JACKET *Australia, New Zealand, and the Pacific* Donald S. Garden,2005-08-19 A fascinating study of the environmental history of Australia New Zealand and the islands of the Pacific from the time of the dinosaurs to the present day Of interest to students and academics alike this book provides a much needed synthesis of the recent literature on the environmental history of Australia and Oceania Part of ABC CLIO s Nature and Human Societies series this book maps out the key trends in the region s environmental history charting the creation of the Australian continent from the ancient land mass of Gondwanaland to the arrival of humans Especially fascinating are the chapters highlighting how successive waves of human migration created environmental havoc throughout the region leading to the collapse of the Easter Island civilization and the spread of nonindigenous flora and fauna From the controversies over the reasons why creatures such as the marsupial lion and the giant kangaroo became extinct to such contemporary problems as deforestation and global warming this book contains sobering lessons for us all **Imperial Benevolence** Jane Samson,1998-07-01 This insightful analysis of British imperialism in the south Pacific explores the impulses behind British calls for the protection and improvement of islanders From kingmaking projects in Hawaii Tonga and Fiji to the antislavery campaign against the labor trade in the Western pacific the author examines the deeply subjective cultural roots permeating Britons attitudes toward Pacific Islanders By teasing out the connections between those attitudes and the British humanitarian and antislavery movements Imperial Benevolence reminds us that nineteenth century Britain was engaged in a global campaign for Christianization and Civilization **Encyclopedia of Romanticism (Routledge Revivals)** Laura Dabundo,2009-10-15 First Published in 1992 this encyclopedia is designed to survey the social cultural and intellectual climate of English Romanticism from approximately the 1780s and the French Revolution to the 1830s and the Reform Bill Focussing on the spirit of the age the book deals with the aesthetic scientific socioeconomic indeed the human environment in which the Romantics flourished The books considers poets playwrights and novelists critics editors and booksellers painters patrons and architects as well as

ideas trends fads and conventions the familiar and the newly discovered The book will be of use for everyone from undergraduate English students through to thesis driven graduate students to teaching faculty and scholars Pitcairn Island as a Port of Call Herbert Ford,2014-01-10 Pitcairn Island is arguably the most isolated inhabited spot on Earth Yet despite tricky ocean currents often lethal surf and sudden gales the island s standing as the home of the descendants of Fletcher Christian and his mutineer cohorts from H M S Bounty has drawn thousands of ships to its shores This maritime history of the island chronicles every ship that has called at Pitcairn from the time of the arrival of the mutineers in 1790 to December 2010 The ship s log format lists the date of each call the ship s name and particulars and brief reports of activities during the call which often include matters of love murder survival intrigue shipwreck romance and much more Since Pitcairn remains totally dependent on ships for its survival this work offers the most thorough historical record of the island and its people **Explorers and Exploration** ,2005 Presents a comprehensive reference to explorers and topics related to exploration **South Sea Maidens** Michael Sturma,2002-03-30 From the first European contact with Tahiti in 1767 the myth of the South Sea maiden has endured through many incarnations Although the maiden frequently provided an idealized antidote to Western women s self assertion the South Pacific also afforded a space where boundaries between the sexes could be relaxed and transgressed From James Cook and Captain Bligh to James Michener and Margaret Mead the Island girl has occupied a special place in the erotic imagination of the West In a sweeping study that embraces history literature visual arts anthropology and film this study gives fresh insight into the myths and reality of a Western icon While women from far off lands have always been presented as exotic and alluring the South Sea maiden has come to symbolize feminine sexuality as an integral part of the adventure sensuality and romance of the South Pacific Everyone from early explorers to 19th century writers and artists to latter day anthropologists film makers and tourism promoters have extolled their virtues and their bodies Sturma looks behind the popular cliché to reveal how the myth making process reflected not only Western desires but the cut and thrust of changing sexual politics The result is an intriguing look at both South Sea image makers and the women whom they found so seductive Anderson's Travel Companion Compiled by Sarah Anderson,2016-12-05 A selection of the best in travel writing with both fiction and non fiction presented together this companion is for all those who like travelling like to think about travelling and who take an interest in their destination It covers guidebooks as well as books about food history art and architecture religion outdoor activities illustrated books autobiographies biographies and fiction and lists books both in and out of print Anderson s Travel Companion is arranged first by continent then alphabetically by country and then by subject cross referenced where necessary There is a separate section for guidebooks and comprehensive indexes Sarah Anderson founded the Travel Bookshop in 1979 and is also a journalist and writer on travel subjects She is known by well known travel writers such as Michael Palin and Colin Thubron Michael Palin chose her bookshop as his favourite shop and Colin Thubron and Geoffrey Moorhouse among others made suggestions for titles to

include in the Travel Companion **A Son of the Sun** Jack London, 2001 Entertaining atmospheric and action filled yet difficult to obtain until now the eight short stories in Jack London's *A Son of the Sun* center on the thrilling exploits of Captain David Grief in the dangerous and exotic South Seas Captain Grief encounters the adventurers scoundrels pirates and opportunists who followed the example of their colonial predecessors and exploited the islands and their resources early in the twentieth century Inspired by London's own voyage through the South Seas on board his self made yacht the *Snark* these stories paint a colorful and at times horrifying picture of the remote South Pacific Thomas R Tietze and Gary J Riedl provide concise and illuminating introductions to each story as well as informative notes The volume is enlivened by reproductions of London's own photographs and maps and by the illustrations that accompanied each story when first published **In Oceania** Nicholas Thomas, 1997 Australian scholar Nicholas Thomas documents and analyzes rhetorical artifacts of explorers missionaries fiction and travel writers and the people of the Pacific themselves to demonstrate how Oceanic identities have been represented over time The picture Thomas paints of Oceania shows that interactions between indigenous cultures and European influences created entirely new Oceanic identities 62 illustrations **Jack London's Tales of Cannibals and Headhunters** Jack London, 2006 Jack London's *Tales of Cannibals and Headhunters* is set in the romantic and dangerous South Seas and illustrated with the original artwork and several maps Tropical Forests and Their Crops Nigel J. H. Smith, J. T. Williams, Donald L. Plucknett, Jennifer P. Talbot, 2018-05-31 The tropics are the source of many of our familiar fruits vegetables oils and spice as well as such commodities as rubber and wood Moreover other tropical fruits and vegetables are being introduced into our markets to offer variety to our diet Now as tropical forests are increasingly threatened we face a double fold crisis not only the loss of the plants but also rich pools of potentially useful genes Wild populations of crop plants harbor genes that can improve the productivity and disease resistance of cultivated crops many of which are vital to developing economies and to global commerce Eight chapters of this book are devoted to a variety of tropical crops beverages fruit starch oil resins fuelwood fodder spices timber and nuts the history of their domestication their uses today and the known extent of their gene pools both domesticated and wild Drawing on broad research the authors also consider conservation strategies such as parks and reserves corporate holdings gene banks and tissue culture collections and debt for nature swaps They stress the need for a sensitive balance between conservation and the economic well being of local populations If economic growth is part of the conservation effort local populations and governments will be more strongly motivated to save their natural resources Distinctly practical and soundly informative this book provides insight into the overwhelming abundance of tropical forests an unsettling sense of what we may lose if they are destroyed and a deep appreciation for the delicate relationships between tropical forest plants and people around the world

This Captivating World of E-book Books: A Thorough Guide Revealing the Advantages of E-book Books: A Realm of Ease and Flexibility E-book books, with their inherent portability and ease of availability, have liberated readers from the limitations of physical books.
