How History Made the Mind David Martel Johnson, 2003 How History Made the Mind David Martel Johnson argues that what we now think of as reason or objective thinking is not a natural product of the existence of an enlarged brain or culmination of innate biological tendencies Rather it is a way of learning to use the brain that runs counter to the natural characteristics involved in being an animal a mammal and a primate Johnson defends his theory of mind as a cultural artifact against objections and uses it to question a number of currently fashionable positions in philosophy of mind
