Nature Rectitude And Divine Law In Aquinas

James F. Keenan

Nature Rectitude And Divine Law In Aquinas:

Natural Rectitude and Divine Law in Aquinas Oscar James Brown, 1981 **The Ethics of Aquinas** Stephen J. Pope, 2002 In this comprehensive anthology twenty seven outstanding scholars from North America and Europe address every major aspect of Thomas Aquinas's understanding of morality and comment on his remarkable legacy While there has been a revival of interest in recent years in the ethics of St Thomas no single work has yet fully examined the basic moral arguments and content of Aquinas major moral work the Second Part of the Summa Theologiae This work fills that lacuna The first chapters of The Ethics of Aquinas introduce readers to the sources methods and major themes of Aquinas's ethics The second part of the book provides an extended discussion of ideas in the Second Part of the Summa Theologiae in which contributors present cogent interpretations of the structure major arguments and themes of each of the treatises The third and final part examines aspects of Thomistic ethics in the twentieth century and beyond These essays reflect a diverse group of scholars representing a variety of intellectual perspectives Contributors span numerous fields of study including intellectual history medieval studies moral philosophy religious ethics and moral theology This remarkable variety underscores how interpretations of Thomas's ethics continue to develop and evolve and stimulate fervent discussion within the academy and the church This volume is aimed at scholars students clergy and all those who continue to find Aquinas a rich source of moral insight

Lutheran Reformation and the Law, 2022-01-04 The volume provides new evidence of how the legal ideas of the Lutheran Reformation were put into practice especially in the Nordic countries and how they worked in the history of law Denmark Finland Norway and Sweden forming the largest Lutheran area in the world this lacuna is considerable The first part of the book deals with the legal theological and philosophical thought of the reformers The second part examines the impact of the Reformation on particular aspects of legal reform especially marriage and criminal law and the law on poor relief in the Northern Europe The study is based on interdisciplinary research by theologians and legal historians Contributors include Kaarlo Arffman Pekka Kärkkäinen Mia Korpiola Virpi Mäkinen Heikki Pihlajamäki Antti Raunio Risto Saarinen and Reijo Työrinä

Nature, Sex, and Goodness in a Medieval Literary Tradition Hugh White, 2000 Nature is a highly important term in the ethical discourse of the Middle Ages and as such a leading concept in medieval literature This book examines the moral status of the natural in writings by Alan of Lille Jean de Meun John Gower Geoffrey Chaucer and others showing how particularly in the erotic sphere the influences of nature are not always conceived as wholly benign Though medieval thinkers often affirm an association of nature with reason and therefore with the good there is also an acknowledgement that the animal the pre-rational the instinctive within human beings may be validly considered natural In fact human beings may be thought to be urged almost ineluctably by the force of nature within them towards behaviour hostile to reason and the right

Biblical Natural Law Matthew Levering, 2008-03-21 Natural law theory is controversial today because it presumes that there is a stable human nature that is subject to a law How do we

know that human nature is stable and not ever evolving How can we expect law not to constrict human freedom and potential Furthermore if there is a law there must be a lawgiver Matthew Levering argues that natural law theory makes sense only within a broader worldview and that the Bible sketches both such a persuasive worldview and an account of natural law that offers an exciting portrait of the moral life To establish the relevance of biblical readings to the wider philosophical debate on natural law this study offers an overview of modern natural law theories from Cicero to Nietzsche which reverse the biblical portrait by placing human beings at the center of the moral universe Whereas the biblical portrait of natural law is other directed ordered to self giving love the modern accounts turn inward upon the self Drawing on the thought of St Thomas Aquinas Levering employs theological and philosophical investigation to achieve a contemporary doctrine of natural law that accords with the biblical witness to a loving Creator who draws human beings to share in the divine life This book provides both an introduction to natural law theory and a compelling challenge to re think current biblical scholarship on the topic

The Problem of Natural Law Douglas Kries,2008-01-01 The Problem of Natural Law examines the understanding of conscience offered by Thomas Aquinas who provided the classic statement of natural law The book suggests that natural law theory could be improved by bracketing Thomistic conscience and then shows how a natural law position thus revised would be able to answer the most important critics of natural law in contemporary times **Thomas Aquinas** John

Inglis,2017-05-15 This volume contains the seminal articles that define the influence of Aquinas within legal philosophical thought A comprehensive reference for those new to the field it covers such topics as the relation of virtue to law the common good natural law natural rights and property rights together with social and political issues like abortion feminism homosexuality environment civil disobedience and just war Attention is devoted to the new natural law theory and its limitations as well as the place of historical context in the recovery of social thought Introduction to Moral Theology

Romanus Cessario,2010-03-30 The comprehensive introduction to Catholic moral theology by the leading theologian and author of The Moral Virtues and Theological Ethics In Introduction to Moral Theology Father Romanus Cessario O P presents and expounds on the basic and central elements of Catholic moral theology written in the light of Veritatis splendor Since its publication in 2001 this first book in the Catholic Moral Thought series has been widely recognized as an authoritative resource on such topics as moral theology and the good of the human person created in God s image natural law principles of human action determination of the moral good through objects ends and circumstances and the virtues gifts of the Holy Spirit and the Beatitudes The Catholic Moral Thought series is designed to provide students with a comprehensive presentation of both the principles of Christian conduct and the specific teachings and precepts for fulfilling the requirements of the Christian life Soundly based in the teaching of the Church the volumes set out the basic principles of Catholic moral thought and the application of those principles within areas of ethical concern that are of paramount importance today *The Light That Binds* Rev. Stephen L. Brock,2020-03-30 If there is any one author in the history of

moral thought who has come to be associated with the idea of natural law it is Saint Thomas Aquinas Many things have been written about Aquinas's natural law teaching and from many different perspectives The aim of this book is to help see it from his own perspective That is why the focus is metaphysical Aquinas's whole moral doctrine is laden with metaphysics and his natural law teaching especially so because it is all about first principles The book centers on how Aquinas thinks the first principles of practical reason which for him are what make up natural law function as laws It is a controversial question and the book engages a variety of readers of Aquinas including Francisco Suarez Jacques Maritain prominent analytical philosophers Straussians and the initiators of the New Natural Law theory Among the issues addressed are the relation between natural law and natural inclination how far natural law depends on knowledge of human nature what its obligatory force consists in and above all how it is related to what for Aquinas is the first principle of all being the divine will

Goodness and Rightness in Thomas Aquinas's *Summa Theologiae* James F. Keenan, 1992-11-01 This appraisal of two of the most fundamental terms in the moral language of Thomas Aquinas draws on the contemporary moral distinction between the goodness of a person and the rightness of a person's living Keenan thus finds that Aquinas's earlier writings do not permit the possibility of such a distinction But in his mature works specifically the *Summa Theologiae* Thomas describes the human act of moral intentionality and even the virtues in a way analogous to our use of the term moral rightness To Thomas only the virtue of charity expresses moral goodness And although Thomas describes vices and sin as wrong conduct he never really develops a description for moral badness Keenan compels us to carefully examine Thomas's central moral concepts and to measure them against contemporary standards for meaning and correctness As a result any student of Thomas will find here a forceful argument that his notion of the good is considerably different from ours Similarly ethicists and moral theologians will find in the Thomas presented here a consistent virtue ethicist concerned with descriptions for right living Any student of theology will also find here a Thomas whose critical and concrete thinking enabled him to develop and even abandon earlier positions as his comprehension of the Good evolved This analysis prompts a re-examination of our own concepts Measuring Thomas's standards against our own Keenan obliges us to ask whether we sufficiently understand rightness and moral intentionality He also asks whether we correctly describe what it means to will or to desire something He further questions whether we have surrendered our understanding of the virtues to the voluntarism and subjectivism which Thomas relentlessly critiqued This historically sophisticated reading of the *Summa Theologiae* both allows Thomas to speak again as he once did and affords us the chance to evaluate the way we describe ourselves and one another as being good and living rightly

Nature Rectitude And Divine Law In Aquinas Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Nature Rectitude And Divine Law In Aquinas**," written by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
