Turner,2014-05-09 In our society childbirth is often viewed as something to be feared and even to be avoided through elective caesarian or extreme pain suppression In this uplifting book Kristina Turner applies esoteric knowledge to show practical ways of transforming a difficult experience into a positive and deeply spiritual one Kristina looks closely at the physical processes that take place in the body during pregnancy and childbirth as well at explaining the facts behind hospital procedures and options for home birth providing readers with the necessary knowledge to make their own choices She feels that birthing should be viewed as a unified process from the nine months of pregnancy through labour to the many months of breastfeeding all three stages contribute to developing the bond between mother and child and the child s emotional function Kristina writes beautifully about the sacred mystery inherent in conception and pregnancy and guides the new mother towards being a conscious participant in the spiritual process of bringing life into this world This book is both very practical and hugely inspiring **Natural Labor and Birth: An Evidence-Based Guide to the Natural Birth Plan** Michelle

Aristizabal,2018-09-14 The first evidence based book covering natural childbirth practices written by an obstetrician Natural

birth plans have emerged as a battle cry of resistance among women who are dissatisfied with today's medically aggressive model of maternity care and high cesarean section rates. However, natural birth does not need to be a source of controversy or conflict between women and their nurses and doctors. *Natural Labor and Birth: An Evidence-Based Guide to the Natural Birth Plan* seeks to broaden the medical community's understanding of the motivations and needs of naturally laboring mothers while also exploring why natural birth is often so difficult to achieve within our current system and what can be done to change that. It is a complete resource on the topic of natural childbirth teaching healthcare providers and other birth workers the skills necessary to assist a woman through an unmedicated birth and reviewing the compilation of medical evidence in support of those methods. It demonstrates how natural birth can exist within the framework of traditional antepartum care and hospital deliveries and offers alternative solutions to common challenges that often disrupt the physiologic birth process. *Natural Labor and Birth: An Evidence-Based Guide to the Natural Birth Plan* is also an unbiased resource for pregnant women seeking a more thorough and scientific understanding of unmedicated birth. This guide will help women and their partners make their own birth plans from a truly informed place. It will help women understand the barriers they may face when seeking a natural birth and give them the ability to better communicate their needs and preferences. By creating room for natural birth within our maternity system, this book will help readers build a community of care where all women feel respected, acknowledged, and empowered during their birth experience. [Five Standards for Safe Childbearing](#) David Stewart, 1997 *Controversy about Breastfeeding* Patrick Andres, 2010-06-27 **Breastfeeding and Human Lactation** Karen Wambach, Jan Riordan, 2016. *Breastfeeding and Human Lactation* Fifth Edition continues as the leading reference for the latest clinical techniques and research findings that direct evidence-based clinical practice for lactation consultants and specialists. Now in its Fifth Edition, it contains a clear clinical focus with more than 2,000 research studies supporting the clinical recommendations found in the text. This new edition has been thoroughly updated and revised with current research references and photos. To make studying and learning easier, each chapter includes key concepts, Internet resources, and evidence-based tables and boxes. *Breastfeeding and Human Lactation* Fifth Edition is also an excellent resource to prepare for certification and practice as an International Board Certified Lactation Consultant (IBCLC).

Negotiated Breastfeeding Caroline Chautems, 2021-10-18 Based on an ethnography of postpartum consultations by independent midwives in Switzerland this book produces unique insights into home birth parents breastfeeding journey from the first hours after birth to weaning Considered the natural continuity of childbirth without intervention breastfeeding is a fundamental component of the holistic continuous and individualised care independent midwives provide as they engage with parents in a shared construction of meaning around breastfeeding This

book offers new perspectives on the conceptualisation of breastfeeding as a shared process Parents in collaboration with their midwife and baby are jointly constructing negotiated breastfeeding As the child grows and develops questions arise regarding the management of risks the construction of the lactating body and the body work required and the perception of breastfeeding as a means of communication with the child consistent with a child centred approach to parenting Fostering a reflection on the contrasts and similarities between the marginal model of holistic care and the dominant biomedical model this book sheds light on issues of a broader scope the relationship to health risks and health promotion gender inequalities regarding parental roles and responsibilities the concept of the child as a project and the consequential intensification of parenthood The book also explores transversal themes by outlining how reproduction and parenting are undertaken in Switzerland framed by the local cultural political and economic context including the gender system and resulting power relationships
